101 Facts About Lions J. Lou Barnes, 2004-01-04
Presents information about the physical characteristics, behavior, habitat, and life cycle of lions.

Red Rum Comes To Light Kansas Rae, 2009-08-11 Dr. Gabrielle Michaels, a 4th year residency of oncology at Northwestern University hospital in Chicago Illinois, has a feeling she is being watched, that her life is under a microscope, and she has every reason to believe her mild obscurity of paranoia because unfortunately for Gabrielle, she's right. Somone has a disturbing watchful eye on Dr. Michaels. The past has a dreadful way of reoccurring again. For Gabrielle's sake, circumstances of the death of a childhood friend and love who is locked away in her heart and she refuses to let go, somehow lingers to unsolved murders of two Chicago police officers. Those unsolved murders of two Chicago police officers are reopened when a prominent white defense attorney is found hanging dead in his home. Gabrielle may have reason to believe a friend and mentor of her past, Aaron James a professor at Chicago State University and president of a private political and social activist organization, may be linked to those murders, but has no reason not to trust him. As Gabrielle tries to unravel the light of truth that is filled with lies, conspiracy and plots, more gruesome deaths arise and her life is now somehow a target. Sadly for Dr. Michaels, a dark omen of reality continues to snatch the lives of people close to her, leaving her with a glass full of red rum in which

she continues to drink from. This distinctive spellbinding crime drama is a thriller, a masterpiece of divine writing and peculiar lecture that is truly astonishing. Kansas Rae powerful words will speak to you, get your attention, make your head spin, heart race, and may bring you to tears. This novel is guaranteed to become one of your collections of must-reads.

Man, Play, and Games Roger Caillois, 2001 According to Roger Caillois, play is an occasion of pure waste. In spite of this - or because of it - play constitutes an essential element of human social and spiritual development. In this study, the author defines play as a free and voluntary activity that occurs in a pure space, isolated and protected from the rest of life.

Regions and Powers Barry Buzan, Ole Wæver, 2003-12-04 This book develops the idea that since decolonisation, regional patterns of security have become more prominent in international politics. The authors combine an

operational theory of regional security with an empirical application across the whole of the international system. Individual chapters cover Africa, the Balkans, CIS Europe, East Asia, EU Europe, the Middle East, North America, South America, and South Asia. The main focus is on the post-Cold War period, but the history of each regional security complex is traced back to its beginnings. By relating the regional dynamics of security to current debates about the global power structure, the authors unfold a distinctive interpretation of post-Cold War international security, avoiding both the extreme oversimplifications of the unipolar view, and the extreme deterritorialisations of many globalist visions of a new world disorder. Their framework brings out the radical diversity of security dynamics in different parts of the world.

The Bread Baker's Apprentice Peter

Reinhart, 2011-04-06 Learn the art of bread making through techniques and recipes for making pizza dough, challah, bagels, sourdough, and more! Co-

founder of the legendary Brother Juniper's Bakery, author of the landmark books *Brother Juniper's Bread Book* and *Crust & Crumb*, and distinguished instructor at the world's largest culinary academy, Peter Reinhart has been a leader in America's artisanal bread movement for over fifteen years. Never one to be content with yesterday's baking triumph, however, Peter continues to refine his recipes and techniques in his never-ending quest for extraordinary bread. In *The Bread Baker's Apprentice*, Peter shares his latest bread breakthroughs, arising from his study in several of France's famed boulangeries and the always-enlightening time spent in the culinary academy kitchen with his students. Peer over Peter's shoulder as he learns from Paris's most esteemed bakers, like Lionel Poilâne and Phillippe Gosselin, whose *pain à l'ancienne* has revolutionized the art of baguette making. Then stand alongside his students in the kitchen as Peter teaches the classic twelve stages of building bread, his clear instructions accompanied by over 100 step-by-step photographs. You'll put newfound knowledge into practice with 50 new master formulas for such classic breads as rustic ciabatta, hearty *pain de campagne*, old-school New York bagels, and the book's Holy Grail: Peter's version of the famed *pain à l'ancienne*. En route, Peter distills hard science, advanced techniques, and food history into a remarkably accessible and engaging resource that is as rich and multitextured as the loaves you'll turn out. This is original food writing at its most captivating, teaching at its most inspired and inspiring—and

the rewards are some of the best breads under the sun.

Lion Eyes Claire Berlinski, 2008 Claire Berlinski (the real Claire Berlinski, that is) wrote *Loose Lips*, the best (and certainly the funniest) contemporary novel about the CIA. Of course, that never meant she was the greatest spy of her generation. When a fictional spy novelist named Claire Berlinski, who lives in Paris, begins exchanging e-mails with an Iranian archeologist who likes her work, she thinks nothing of it. Lots of people like spy novels. Lots of people meet online. Lots of people flirt online. But when Claire visits Istanbul at the suggestion of this charming Persian, whom she calls the Lion, she finds herself, to her astonishment, in the thick of a real espionage novel. As life begins menacingly to imitate art, Claire discovers that the Lion is not who she thinks he is. And the Lion discovers that Claire is not who he thinks she is, either.
