The Priority List David Menasche, 2014-01-14 In this poignant and inspiring memoir, a beloved high school English teacher with terminal brain cancer undertakes a cross-country journey to reunite with his former students in order to find out if he made a difference in their lives, discovering along the way what is truly important in life. Based on a beloved teacher's most popular lesson, The Priority List is a bold, inspirational story of learning, love, and legacy that challenges us to ask: What truly matters in life? David Menasche lived for his work as a high school English teacher. His passion inspired his students, and between lessons on Shakespeare and sentence structure, he forged a unique bond with his kids, buoying them through personal struggles while sharing valuable life lessons. When a six-year battle with brain cancer ultimately stole David's vision, memory, mobility, and—most tragically of all—his ability to continue teaching, he was devastated by the thought that he would no longer have the chance to impact his students' lives each day. But teaching is something Menasche just couldn't quit. Undaunted by the difficult road ahead of him, he decided to end his treatments and make life his classroom. Cancer had robbed him of his past and would most certainly take his future; he wouldn't allow it to steal his present. He turned to Facebook with an audacious plan: a journey across America—by bus, by train, by red-tipped cane—in hopes of seeing firsthand how his kids were faring in life. Had he made a difference? Within forty-eight hours of posting, former students in more than fifty cities replied with offers of support and shelter. Traveling more than eight thousand miles from Miami to New York, to America's heartland and San Francisco's Golden Gate, and visiting hundreds of his students, David's fearless journey explores the things we all want and need out of life—family, security, independence, love, adventure—and forces us to stop to consider our own Priority List.

Make Time Jake Knapp,John Zeratsky,2018-09-25 From the New York Times bestselling authors of Sprint comes "a unique and engaging read about a proven habit framework [that] readers can apply to each day" (Insider, Best Books to Form New Habits). "If you want to achieve more (without going nuts), read this book."—Charles Duhigg, author of The Power of Habit Nobody ever looked at an empty calendar and said, The best way to spend this time is by cramming it full of meetings! or got to work in the morning and thought, Today I'll spend hours on Facebook! Yet that's exactly what we do. Why? In a world where information refreshes endlessly and the workday feels like a race to react to other people's priorities faster, frazzled and distracted has become our default position. But what if the exhaustion of constant busyness wasn't mandatory? What if you could step off the hamster wheel and start taking control of your time and attention? That's what this book is about. As creators of Google Ventures' renowned design sprint, Jake and John have helped hundreds of teams solve important problems by changing how they work. Building on the success of these sprints and their experience designing ubiquitous tech products from Gmail to YouTube, they spent years experimenting with their own habits and routines, looking for ways to help people optimize their energy, focus, and time. Now they've packaged the most effective tactics into a four-step daily framework that anyone can use to systematically design their days. Make Time is not a one-size-fits-all formula. Instead, it offers a customizable menu of bite-size tips and strategies that can be tailored to individual habits and lifestyles. Make Time isn't about productivity, or checking off more to-dos. Nor does it propose unrealistic solutions like throwing out your smartphone or swearing off social media. Making time isn't about radically overhauling your lifestyle; it's about making small shifts in your environment to liberate yourself from constant busyness and distraction. A must-read for anyone who has ever thought, If only there were more hours in the day..., Make Time will help you stop passively reacting to the demands of the modern world and start intentionally making time for the things that matter.

Priority Setting and the Public Penelope Mullen, Peter Spurgeon, 2018-04-19 Practical and evidence-based, this unique book is the first comprehensive text focused on person-centered approaches to people with serious mental illness such as schizophrenia and bipolar disorder. It reflects a range of views and findings regarding assessment, treatment, rehabilitation, self-help, policy-making, education and research. It is highly recommended for all healthcare professionals, students, researchers and educators involved in general practice, psychiatry, nursing, social work, clinical psychology and therapy. Healthcare service providers, and policy makers and shapers, will find the book's wide-ranging, multi-professional approach enlightening. 'Serious Mental Illness reflects a continued distancing from the outmoded and unsubstantiated belief that people with severe mental illnesses could not recover, and that they would respond positively only to goals and treatment plans chosen, designed and implemented by providers in order to prevent their further deterioration. Anyone with an interest in the concept of person-centered approaches will discover new ideas in this book. Indeed, anyone with an interest in person-centered approaches has to read this book. Not only is it the first such book on person-centered approaches, but it will serve as the gold standard in this topic area for years to come.' William A Anthony, in the Foreword
