Beginning in 1988, their freshman year at Syracuse University, Amy and Veronica meet an assortment of guys—from slotted spoons and shrimp forks to butter knives and sporks—all while trying to learn if the UCS holds true. **The Everyday Lives of Young Children** Jonathan Tudge, 2008-02-25 Where do young children spend their time? What activities are they involved in and who do they interact with? How do these activities and interactions vary across different societies and cultural groups? This book provides answers to these questions, by describing the lives of three-year-olds in the United States, Russia, Estonia, Finland, South Korea, Kenya and Brazil. Each child was followed for the equivalent of one complete waking day, whether at home, in childcare, on the streets or at the shops. Graphic displays and verbal descriptions of the children's everyday activities and interactions reveal both the ways in which culture influences children's lives and the ways in which children play a role in changing the cultural groups of which they are a part. This book also has a clear theoretical rationale and illustrates why and how to do cultural-ecological research.

**The Lehman Brothers Bankruptcy** Gary E. Walker, Lindel D. Clarke, 2012 The bankruptcy filing of Lehman Brothers Holdings Inc (LBHI) on 15 September 2008, was one of the signal events of the financial crisis. The disorderly and costly nature of the LBHI bankruptcy - the largest, and still ongoing, financial bankruptcy in U.S. history - contributed to the massive financial disruption of late 2008. This book examines how the government could have structured a resolution of Lehman under the orderly liquidation authority of Title II of the Dodd-Frank Wall Street Reform and Consumer Protection Act (Dodd-Frank) and how the outcome could have differed from the outcome under bankruptcy. Key figures surrounding this important financial event also provide their analysis.
