Little Red Riding Hood Charles

Perrault, 2014-01-28 Little Red Riding Hood is a young girl, so called because of the red cloak she wears. One day her mother asks her to take some food to her sick grandmother, who lives in a clearing in the nearby forest. On the way to her grandmother, she meets an apparently friendly wolf, and since she had many friends in the animal kingdom, sees no harm in stopping to talk with him. But the wolf is not as he appears to be! The wolf has sinister plans and Little Red Riding Hood's sweet and trusting nature may soon prove to be her downfall. Loved by generations of children and adults alike, this classic tale teaches children to always be mindful of strangers and not to simply trust everyone they meet.

Non-fluent Aphasia in a Multilingual World

, 1995-01-01 [Non-fluent Aphasia in a Multilingual World] is an up-to-date introduction to the language of patients with non-fluent aphasia. Recent research in languages other than English has challenged our old descriptions of aphasia syndromes: while their patterns can be recognized across languages, the structure of each language has a profound effect on the symptoms of aphasic speech. However, the basic linguistic concepts needed to understand these effects in languages other than English have rarely been part of the training of the clinician. [Non-fluent Aphasia in a Multilingual World] introduces these concepts plainly and concretely, in the context of dozens of examples from the narratives and conversations of patients speaking most of the major languages of Europe, North America and Asia. Linguistic and clinical terms are carefully defined and kept as theory neutral as possible. [Non-Fluent Aphasia in a Multilingual World] is especially useful for speech-language pathologists whose patients are immigrants and guestworkers, and for the clinician

who must deal creatively with the challenges of providing aphasia diagnosis and therapy in a multicultural, multidialectical setting.
