*Tonino* John G. Stoffolano Jr.,2011-05-23 Tonino is a young, curious cricket boy, living with his family in Boston. Life is good for young Tonino, but he suspects there's more to the world than his own backyard. He wants to learn about foreign cultures, but mostly he wants to learn about his own family roots. He heads to Italy, where he is surprised to meet the famous Blue Fairy, who was friends with Tonino's ancestor—the cricket guide to Pinocchio. Whereas Tonino's ancestor was put in charge of young Pinocchio's conscience, Tonino is given a much more universal conscience. He is charged with the conscience of the world and the well-being of its environment, a big change to his personal journey. No longer is he looking after the story of his family; now he looks after the story of Mother Earth! Suddenly, he is transported on a worldwide adventure ... He heads to Puerto Rico and meets the Ta?no people. He visits a monarch in Mexico and cricket warriors in China. In the American Southwest, he learns about the spirit of the cricket "katsina"; in Hawaii, he encounters Pele's rage. It's a lot to take in for the young cricket boy, but ultimately he discovers that seeking his roots is only the beginning in the wide world of biodiversity, cultural diversity, and conservation of both. The boy/cricket is baptized Anthony at Our Lady of Mount Carmel Church. His parents live in the North End where his mother kept hearing the television advertisement "Anthony, Anthony, It's Prince Spaghetti Day" so they named him Anthony. "Naming him Anthony was straight forward, but naming him Tonino was at the brilliant suggestion of Dr. William Cooley, retired Northampton Ophthalmologist and avid italophile. Dr. Cooley sent Dr. Stoffolano a short novel by an Italian author named Rodari about a young boy, Tonino, who tries to become invisible so that he could avoid problems with his teacher. Rodari (1920–1980) was one of Italy's best-known writers of children's books and the recipient of the Hans Christian Andersen Medal for children's literature." Thus, the name and his ability to become invisible are incorporated into the story. In addition to this reference to his nickname, Tonino is a small cricket because he always ate Italian food in the North End and not cricket food. Thus, he also got the name Tonino, which means little Anthony in Italian from Joe Pace who owns and started Joe Pace & Sons Italian Specialities in Boston's North End. In his novel, Stoffolano establishes the first lineage for this famous cricket family. Tonino's great, great, great grandfather was Grillo parlante, the talking cricket in the original story Pinocchio. Grillo was also the conscience of Pinocchio and Grillo's great grandson was the famous Jiminy Cricket in Walt Disney's classic movie Pinocchio. In this wonderful story about Tonino, the reader sees many different regions of the world through the eyes of this boy/cricket where, through the experiences of Tonino, the reader will learn more about how crickets played various and important roles in different indigenous cultures. Tonino's charge by the Blue Fairy was to become the conscience of the world when it comes to environmental issues: A heavy responsibility or a small boy/cricket. The importance of cultural diversity, just as important as biodiversity, is stressed and Tonino takes on Dr. E. O. Wilson, one of the greatest thinkers/writers of our generation, as his mentor.

Practical Web Traffic Analysis Peter Fletcher,Alex Poon,Ben Pearce,Peter Comber,2013-11-11 Once you've got a web site up and running it is all too easy to sit back and relax. But how do you know you did a good job? How can

However, as statistics are prone to being misinterpreted, your insight often has to be taken with a pinch of salt. This book takes you through the process of analyzing your traffic, without taking for granted the statistics that you generate. Assuming you have a web site, reading this book will help you learn: - The techniques for gathering data on your users - Standards and Guidelines you should adhere to when interpreting your data - What other sites are doing to ensure they respect the privacy of their users - Insight into how real sites use web traffic analysis - Major case case studies from BBC News Online, eBay, and ASPToday - Additional material from The Onion, SmartGirl, and The New York Times From the Publisher This book is for any web professional who wants to understand their site traffic. It's also for anyone with an interest in finding out where their site is most used, and how to make comparisons with other sites. To get the most from this book, you'll need access to log files for your web site as they contain the information we'll show you how to analyze. The book discusses the privacy practices of The Onion, SmartGirl, and The New York Times, as well as examining in detail the traffic analysis techniques used by BBC News Online, eBay, and ASPToday.

**Architectures of Hurry-Mobilities, Cities and Modernity** Phillip Gordon Mackintosh, Richard Dennis, Deryck W. Holdsworth, 2018-03-20 'Hurry' is an intrinsic component of modernity. It exists not only in tandem with modern constructions of mobility, speed, rhythm, and time-space compression, but also with infrastructures, technologies, practices, and emotions associated with the experience of the 'mobilizing modern'. 'Hurry' is not simply speed. It may result in congestion, slowing-down, or inaction in the face of over-stimulus. Speeding-up is often competitive: faster traffic on better roads made it harder for pedestrians to cross, or for horse-drawn vehicles and cyclists to share the carriageway with motorized vehicles. Focusing on the cultural and material manifestations of 'hurry', the book's contributors analyse the complexities, tensions, and contradictions inherent in the impulse to higher rates of circulation in modernizing cities. The collection includes, but also goes beyond, accounts of new forms of mobility (bicycles, buses, underground trains) and infrastructure (street layouts and surfaces, business exchanges, and hotels) to show how modernity's 'architectures of hurry' have been experienced, represented, and practised since the mid nineteenth century. Ten case studies explore different expressions of 'hurry' across cities and urban regions in Asia, Europe, and North and South America, and substantial introductory and concluding chapters situate 'hurry' in the wider context of modernity and mobility studies and reflect on the future of 'hurry' in an ever-accelerating world. This diverse collection will be relevant to researchers, scholars, and practitioners in the fields of planning, cultural and historical geography, urban history, and urban sociology.

See how the best international players stack up against each other in this original guide to cricket.

News as Entertainment Daya Kishan Thussu, 2008-01-09 Thussu brings to this project the passion for news of a socially committed former journalist, the political economy of his international relations education and a formidable assembly of global detail, examining the recent explosion of 'infotainment'. - John Downing, Southern Illinois University Thussu's account of war as infotainment, the Bollywoodization of news and the emergence of a global infotainment sphere is as compelling as it is alarming. This is a significant and essential book for anyone interested in exploring the connections between news journalism, informed citizenship and democracy. - Bob Franklin, The Cardiff School of Journalism, Media and Cultural Studies Richly detailed and

empirically grounded, this first book-length study of infotainment and its globalization by a leading scholar of global communication, offers a comprehensive and critical analysis of this emerging phenomenon. Going beyond - both geographically and theoretically - the 'dumbing down' discourse, largely confined to the Anglo-American media, the book argues that infotainment may have an important ideological role, a diversion in which 'soft news' masks the hard realities of neo-liberal imperialism. Chapters include a historical appraisal of infotainment; the infrastructure for its globalization as well as coverage of recent wars on television news as high-tech infotainment and the growing synergies between Hollywood and Bollywood-originated infotainment. A 'global infotainment sphere' is emerging, the book argues, within which competing versions of news - from 24/7 news networks to bloggers - coexist. Accessible, engagingly written and robustly argued, the book combines analyses of theoretical debates on infotainment with extensive and up-to-date comparative data.

Big Questions in an Age of Global Crises Nick Megoran, 2022-06-21 Does life have meaning, purpose and value? Can we know whether God exists? If he does, why does he allow bad things to happen? How can we make sense of death, and what lies beyond it? And how can we live life well during a personal, national, or global crisis? Human beings have always asked these big questions. However, crises like the COVID-19 pandemic, the 2007–2008 financial collapse, or the War on Terror following the 9/11 attacks, make them seem more urgent and harder to avoid. This short book is an accessible introduction to these questions. It makes no assumptions about the reader's beliefs but is written for anyone who wants to understand how Christian ideas can help make sense of life and live it well during difficult times. Each chapter is illustrated with examples from the lives of a wide range of people over time, as well as stories from films, novels, and music, to help the reader think through these weighty issues in an engaging way.
