Poverty and Social Exclusion in the UK Esther Dermott,Gill Main,Bramley, Glen,Bailey, Nick,2017-11-29 How can we measure poverty in the United Kingdom today, and which measures are most reliable? Is poverty related to other problems and disadvantages? Based on the largest research study on UK poverty ever commissioned, these fascinating volumes answer these questions and more, providing the most authoritative and up-to-date picture ever assembled of poverty throughout the four countries of the United Kingdom. Using state-of-the-art measurement methods, Poverty and Social Exclusion in the UK looks across geography, time, and key domains like health, employment, and housing to make enlightening--and sometimes shocking--comparisons. In the second volume, contributors consider different aspects of disadvantage, from access to local services, the world of work, the quality of housing and neighborhoods, and physical and mental health. They also look at wider aspects of social and community life, as well as participation in civic and political activities.

The Sounds of Commerce Jeff Smith,1998 A detailed historical analysis of popular music in American film, from the era of sheet music sales, to that of orchestrated pop records by Henry Mancini and Ennio Morricone in the 1960s, to the MTV-ready pop songs that occupy soundtrack CDs of today..

Credit Scoring, Response Modelling and Insurance Rating S. Finlay,2010-10-27 Every year, financial services organizations make billions of dollars worth of decisions using automated systems. For example, who to give a credit card to and the premium someone should pay for their home insurance. This book explains how the forecasting models, that lie at the heart of these systems, are developed and deployed.

Game, Set, Cash! Brad Hutchins,2014-05-28 Inside the secret world of tennis court-siding. Brad Hutchins has been living a young bloke's dream: getting paid to travel the world and watch sport. Sitting court-side on the pro tennis circuit, he uses his phone to transmit results to a gambling syndicate, taking advantage of the time delay in TV broadcasts to beat other online punters to the big pay-offs. His stories from life on the road capture the adventures and mishaps that come with following the world's best tennis players and partying in a new country every week. But like card counters in casinos, court-siders are despised by the tennis establishment. The more time Brad spends at tournaments, the harder it becomes for him to evade the security guards who are hell-bent on ejecting him from matches. The resulting cat-and-mouse chases will appeal to anyone who loves the roguish spirit of *The Wolf of Wall Street* or *Catch Me If You Can*. Brad Hutchins spent his youth playing sports and travelling the world, before finding his dream job as a tennis trader. Born and raised in Brisbane, he has lived and worked in the UK and Canada, and now teaches primary school students on the Gold Coast. *Game, Set, Cash!* is his first book.

The Odds Chad Millman,2009-03-05 One gambler is a manic former cokehead with an Ivy League degree. The second is a college dropout trying to make a living at the only thing he enjoyed at school -- gambling. The third, one of Vegas's most respected bookmakers, is perilously close to burning out. The Odds follows the lives of these three professional gamblers through a college basketball season in a one-of-a-kind city struggling to reconcile its lawless past with its family-friendly makeover. With a wiseguy attitude and a faultless eye and ear for the sights and sounds of Vegas and its denizens, Chad Millman has created a portrait that the Wall Street Journal called fascinating. . . often screamingly funny. The Las Vegas Review-Journal had just one word for the book: Superb.

Television and the Second Screen James Blake,2016-11-10 Television is changing almost beyond recognition. In the battle for consumers, social media sites, smart phones and tablets have become rivals to traditional linear TV. However, audiences and producers are also embracing mobile platforms to enhance TV viewing itself. This book examines the emerging phenomenon of the second screen: where users are increasingly engaging with content on two screens concurrently. The practice is transforming television into an interactive, participatory and social experience. James Blake examines interactive television from three crucial angles: audience motivation and agency, advances in TV production and the monetisation of second screen content. He also tracks its evolution by bringing together interviews with more than 25 television industry professionals - across the major UK channels - including commissioning editors, digital directors, producers and advertising executives. These reveal the successes and failures of recent experiments and the innovations in second screen projects. As the second screen becomes second nature for viewers and producers, the risks and opportunities for the future of television are slowly beginning to emerge. Television and the Second Screen will offer students and scholars of television theory, industry professionals and anyone with an abiding interest in television and technology, an accessible and illuminating guide to this important cultural shift.

Betting Exchange - The Sports Trading Revolution Gianluca Landi,2017-11-21 The Betting Exchange is a new investment opportunity for traders and advanced bettors who want to do sports trading and scalping or simply place classic bets, but with the opportunity to drop out at any time through the cash out option. The Internet Consumer Bible Tess Read,Calum Chace,Simon Rowe,2012-05-31 The Internet Consumer Bible is the most authoritative guide to the internet available. Far more than a directory, this book shows you - whether novice or experienced web surfer - which sites can help you and which sites are a waste of time. Taking you through every aspect of life and showing how to save hundreds of pounds and release hours of valuable time for other activities, the book also looks at what you can't do on the web or what you can still do better offline. Chapters finish with a list of sites in the area providing a brief description of what the site does and a star rating of 1-5 for how good each is. There are five major sections: 1) Basics. Chapters in this section include: what is a 'good website?'; getting started, unmetered access, ADSL, virus programmes, firewalls, screening software, mobile internet and interactive TV.2) Lifestages. Chapters in this section include: births and young children; education; dating, marriage and divorce; work: job-seeking, self-employment, redundancy; death.3) Shopping. Chapters in this section include: home, mortgages, online estate agencies, DIY, gardening, cars, clothes, groceries.4) Entertainment and Leisure. Chapters in this section include: travel and holidays, sport, films, music, restaurants, TV, nightlife, genealogy, weather, hobbies.5) Organising Your Life. Chapters in this section include: money (covers investing

Make money with sports betting 1 Lorenz Laplace, 2021-10-15 Since 2019 this book exists in German, now finally the English translation of this Buyer exists! Lorenz Laplace succeeded in gaining a fortune of 20,000 EUR quite systematically through sports betting within three years with 1,000 EUR starting capital and many small bets with stakes of 20-50 EUR. Laplace gives tips in easy-to-remember rules: For example, the main betting rule, the tax-favourites rule or the crass-outsider rule. The derivation of these tips is done in an understandable way, and the calculations are very easy to follow. The core of his strategy for betting is based on the following insight: the probabilities for a sporting event cannot be calculated exactly. So, every betting provider errs in setting the odds. Some odds are too low, others are too high for the outcome. It is only necessary to recognise in which direction the betting provider errs, e.g., in favour of the underdog or the favourite. The bettor's error is analysed with the help of a four-point plan, and then the bets are placed, naturally on the events that have received odds that are too high from the bettor. In addition, Lorenz Laplace gives other decisive tips, e.g., how to optimally integrate promotions: Deposit bonuses, free bets, cashback, or combination bet insurance, etc. The book is a must for every betting enthusiast who wants to make long - term profits with betting.

The Oxford Handbook of Cinematic Listening Carlo Cenciarelli, 2021 The Oxford Handbook of Cinematic Listening explores the intersection between the history of listening and the history of the moving image. Featuring established and emergent scholars from musicology, film studies, and literary studies, ethnomusicology and sound studies, popular music, sociology, media and communications, and psychology, this Handbook offers a wide range of case studies and methodological perspectives on the archaeologies, aesthetics, and extensions of cinematic listening. Chapters are structured around six themes: Part I (Genealogies and Beginnings) considers film sound in light of pre-existing genres such as opera and shadow theatre, and explores changes in listening taking place at critical junctures in the early history of cinema. Part II (Locations and Relocations) focuses on specific venues and presentational practices (from roadshow movies to and contemporary live-score screenings). Part III (Representations and Re-presentations) zooms into the formal properties of specific films, analysing representations of listening on screen as well as on the role of sound as a representational surplus. Part IV (The Listening Body) focuses on cinematic sound as a powerful and sensual stimulus that has the power to engage the full body sensorium. Part V (Listening again) discusses a range of ways in which film sound is encountered and reinterpreted outside the cinema, through ancillary materials like songs and soundtrack albums, in experimental conditions, and in pedagogical contexts. Part VI (Between Media) compares the listening protocols of cinema with those of TV series and music video, promenade theatre and personal stereos, video games and Virtual Reality.

12th Man Steven Dawson, 2021-03-01 Offering a painfully honest insight into the male psyche, 'The 12th Man' is a fascinating account of how there can be far more to a die-hard football fan than meets the eye. Most fans don't choose their football club. In fact, the majority of them don't even choose football itself. Becoming a Leeds United fan was a rite of passage for Steven Dawson, and even had he known the scale of the drama that would unfold after he became a fan, he would never have supported another club.

Demography and Evolutionary Ecology of Hadza Hunter-Gatherers Nicholas Blurton Jones, 2016-01-21 The Hadza, an ethnic group indigenous to northern Tanzania, are one of the few remaining hunter-gatherer populations. Archaeology shows 130,000 years of hunting and gathering in their land but Hadza are rapidly losing areas vital to their way of life. This book offers a unique opportunity to capture a disappearing lifestyle. Blurton Jones interweaves data from ecology, demography and evolutionary ecology to present a comprehensive analysis of the Hadza foragers. Discussion centres on expansion of the adaptationist perspective beyond topics customarily studied in human behavioural ecology, to interpret a wider range of anthropological concepts. Analysing behavioural aspects, with a specific focus on relationships and their wider impact on the population, this book reports the demographic consequences of different patterns of marriage and the availability of helpers such as husbands, children, and grandmothers. Essential for researchers and graduate students alike, this book will challenge preconceptions of human sociobiology.

Interpreting and Comparing Effects in Logistic, Probit, and Logit Regression Jacques A. P. Hagenars, Steffen Kühnel, Hans-Jürgen Andress, 2024-01-16 Log-linear, logit and logistic regression models are the most common ways of analyzing data when (at least) the dependent variable is categorical. This volume shows how to compare coefficient estimates from regression models for categorical dependent variables in three typical research situations: (i) within one equation, (ii) between identical equations estimated in different subgroups, and (iii) between nested equations. Each of these three kinds of comparisons brings along its own particular form of comparison problems. Further, in all three areas, the precise nature of comparison problems in logistic regression depends on how the logistic regression model is looked at and how the effects of the independent variables are computed. This volume presents a practical, unified treatment of these problems, and considers the advantages and disadvantages of each approach, and when to use them, so that applied researchers can make the best choice related to their research problem. The techniques are illustrated with data from simulation experiments and from publicly available surveys. The datasets, along with Stata syntax, are available on a companion website at: <https://study.sagepub.com/researchmethods/qass/hagenars-interpreting-effects>.

Cancer: Improving Your Odds John G. Herron, 2019-12-16 Are you looking for actionable things that you can do to help your cancer treatment, or possibly prevent cancer in the first place? Something with scientific evidence that it works? Something that you won't be embarrassed to discuss with your family doctor or oncologist? Something that can improve your immune system and general health? That is exactly what you will find in this book. Read on for... • Actionable methods for naturally treating and preventing cancer (the scientific way, not the internet blogger way) • Simple things that you can add to your medical treatment to Improve Your Odds of successfully fighting cancer • 100% backed by science that you, or your doctor, can easily verify • Easy to read and understand, but formatted so that you can share the science with your doctor • Improve your immune system and general health • Evidence that some of the recommendations may significantly improve immunotherapy outcomes, as well as benefit chemotherapy and radiotherapy treatments. • New research information that has the potential to save many lives My hope is you'll use this information to improve your medical treatment, not replace it. Even though some of the natural treatments have been scientifically shown to be very effective on their own, they are even more effective when used in conjunction with modern medicine. This is called "adjuvant" therapy. You should strive to "Improve Your Odds" of beating cancer, not thumb your nose at modern medicine. You do not need a scientific or medical background to understand this narrative—but its claims are evidenced with scientific abstracts that your doctor will appreciate (abstracts that you can skip if you wish to cut your reading time in half!). You will find that all recommendations have solid evidence behind them; this isn't just another book where someone is simply making it all up and telling you what you want to hear. You should read this book with a highlighter and pencil at your side. This book has been extensively researched, and some of the information found here you will probably find in no other book or medical website. There is a special emphasis on how you can improve your immune system to better fight almost any cancer, even before you know you have it. You aren't trying to fire

your doctor; you just want to help “Improve Your Odds.” This book will help you do that. Your oncologist will want to know all of the supplements you are taking and why. This book includes the scientific abstracts and the information they need to find the full research studies. This will explain the “why” so you don’t have to. They may also want to geek out on all of this science as they rarely get exposed to research on natural cancer treatments. Finally, this book enables you to take some control over your cancer treatment or genetic predisposition. In fact, most of the recommendations in this book are great even if you are healthy, as they can help prevent cancer and improve your immune system, too. Whether you may have breast cancer, skin cancer, lung cancer, etc., improving the immune system and your body’s ability to fight cancer is always beneficial.

Internet Gambling Sally Gainsbury, 2012-03-02 Internet gambling is one of the fastest growing forms of gambling. Global Internet gambling expenditure is predicted to reach US\$33.6 billion in 2011. This is higher than worldwide movie box office revenues and represents 9% of the international gambling market. The rapid increase in expenditure of 354% since 2003 has occurred despite Internet gambling being prohibited in several key markets, including the US and China. It also suggests that current regulation may be somewhat outdated and ineffective as more and more people turn to this mode of gambling. Internet gambling is highly accessible with over 2,400 sites available 24/7 through computers, mobile phones, wireless devices and even interactive televisions. Gamblers can now play casino games, bingo, cards and poker, bet on races, sports and even celebrity weddings using over 199 means of electronic payments without leaving the house. Increasing international jurisdictions are legalizing Internet gambling and the constant accessibility of online gambling has critical social implications. Gambling operators are using aggressive advertising campaigns to move into new markets. Internet gambling appears to be particularly appealing to youth, who are gambling online at substantially higher rates than adults. Furthermore, Internet gambling appears to be related to problem gambling, with rates of problem gambling three to four times higher among Internet than non-Internet gamblers, indicating that it may have a substantial social cost. The anonymity of online sports betting poses a significant threat to the integrity of sport at all levels with increasing allegations of match-fixing and cheating. Estimates suggested that 50% of all bets on the 2010 FIFA World Cup were placed online, worth an estimated £500 million. These figures represent a 700% rise in online betting since the 2006 tournament and included many new players that opened online accounts. It is essential that appropriate responses are made by governments, industry professionals and the public in response to Internet gambling. This book will provide a comprehensive and up-to-date overview of Internet gambling, including the social impact and regulatory options. A global outline will include the characteristics and features of the many forms of Internet gambling, including the current market, and participation, and differences between Internet and non-Internet gambling. Specific regional considerations will be explored including regulatory responses and options. Importantly, the social consequences and costs of Internet gambling will be examined, including the impact of online gambling on sports, youth and problem gambling. Strategies for prevention and responsible gambling will be considered as well as expected trends.

Becoming Coach Jake Martin Jacobson, Bill Saporito, 2019-09-03 A memoir about battling adversity, by the winningest high school soccer coach in New York City public school history! In the Fall of 2018, Martin Luther King Jr. High School’s boys soccer program won its 18th New York City public school championship to culminate a 19-0 season in which it was ranked no. 3 in the country. Martin Jacobson, whose first championship team was in 1996, three years after he became head coach, had put together yet another winning squad, continuing to make history in the process. But Coach Jake’s story is more than just a soccer tale. In his time as coach at MLK, he has given hundreds of immigrants—from places like Mexico, Columbia, Senegal, Mali, and Haiti, and some of them homeless or parentless—an opportunity to gain some direction in both the classroom as well as on the

field. Becoming Coach Jake highlights some of those individuals' stories and brings to light how, with Jake's guidance, many of them have gone on to achieve great success in their adult lives. Along the way, readers learn how Coach Jake got to MLK after a drug-filled past that included multiple failed marriages and near-prison sentences, before quitting drugs and alcohol cold turkey in 1985 after several stints in rehab proved unsuccessful. Jacobson teams up with seasoned journalist Bill Saporito to detail the triumph achieved both on the field and far beyond.
