Trading and Exchanges Larry Harris,2003 Focusing on market microstructure, Harris (chief economist, U.S. Securities and Exchange Commission) introduces the practices and regulations governing stock trading markets. The Discourse of Online Sportscasting Jan Chovanec,2018-12-15 This book offers the first comprehensive linguistic analysis of live text commentary, one of the most innovative online genres of modern news media. The study focuses on written sports commentaries in online newspapers that enable partial real-time audience involvement in the media text. Adopting an approach from interactional pragmatics, the book identifies the genre's characteristic micro-linguistic features as well as its unique narrative structure. Live text commentary is shown to be a hybrid and multimodal text format – an internally complex form of media communication that combines elements of live spoken broadcasting, blogging, informal conversation and online chat. It aims to inform as well as entertain the audience: by using humour, banter and real or staged dialogue it seeks to create a sense of community among its readers – sports fans. The book will be of interest to many scholars in linguistic pragmatics, discourse analysis and social sciences, as well as to all others interested in modern online genres, news media and sports discourse.

News Discourse and Digital Currents Antonio Fruttaldo,2017-05-11 In recent years, journalistic practices have undergone a radical change due to the increasing pressure of new digital media on the professional practice. The ever-growing development of new technologies and the ceaseless fluctuation of social practices have challenged some of the traditional genres found in these professional contexts. On the basis of these premises, this book investigates a particular genre found in the context of TV newscasts. The genre under investigation is that of news tickers (or crawlers), that is, the graphic elements that scroll at the bottom of the screen during newscasts. The book introduces readers to this under-researched genre through a year-long collection of the news tickers displayed on BBC World News. Thanks to a corpus-based genre analysis, the generic status of news tickers is better defined by highlighting the presence of given strategies of marketization. Additionally, this volume investigates if news tickers can be seen as a mixed (sub-)genre that interdiscursively combines traditional linguistic elements of headlines and lead paragraphs to achieve, from a (Critical) Genre Analysis point of view, a specific private intention in the context of the BBC.

Data Analysis and Decision Support Daniel Baier,Reinhold Decker,Lars Schmidt-Thieme,2006-05-06 It is a great privilege and pleasure to write a foreword for a book honoring Wolfgang Gaul on the occasion of his sixtieth birthday. Wolfgang Gaul is currently Professor of Business Administration and Management Science and the Head of the Institute of Decision Theory and Management Science, Faculty of Economics, University of Karlsruhe (TH), Germany. He is, by any measure, one of the most distinguished and eminent scholars in the world today. Navigate the Noise Richard Bernstein,2005-08-15 Transform today's surplus of investment information into a high-level investment strategy In an investment climate characterized by rapidly increasing access to information, it has become a real problem to sort out the legitimate financial advice, grounded in traditional analysis, from the constant stream of useless information, or noise. Such noise, through technological advances such as the Internet, has become widespread. This overload of information is hurting investors, since it makes real analysis based on factual inference harder to come by. This book steers investors through the noise to show them where and how to find solid investment information. This step-by-step guide is based on a very popular presentation the author makes to new private clients at Merrill Lynch. Richard Bernstein (New York, NY) is First Vice President and Chief Quantitative Strategist at Merrill Lynch & Company. Prior to joining Merrill Lynch, he

worked for E. F. Hutton and Tucker Anthony. He has been voted to the Institutional Investor All-America Research Team in each of the last eight years, and has appeared on Wall Street Week with Louis Rukeyser.
