The Great Post Office Scandal Nick Wallis,2021-11-18 The Great Post Office Scandal is the extraordinary story behind the recent ITV drama series Mr Bates vs The Post Office. This gripping page-turner recounts how thousands of subpostmasters were accused of theft and false accounting on the back of evidence from Horizon, the flawed computer system designed by Fujitsu, and how a group of them, led by Alan Bates, took their fight to the High Court. Their eventual victory in court vindicated their claims about the defects of the software and exposed the heavy handed attempts by the Post Office to suppress them. The book also chronicles how successive senior managers, business leaders, lawyers, civil servants and Government ministers, at best failed to expose the injustice or, even worse, sought to cover it up, resulting in one of the largest miscarriages of justice in UK history. The author, Nick Wallis, is a journalist and broadcaster who has been reporting on the scandal for over ten years and who acted as script consultant on Mr Bates vs The Post Office, the ITV drama that brought the affair into the national consciousness. As the public inquiry reaches its climax, and senior figures such as Paula Vennells come to be questioned, The Great Post Office Scandal reveals the full scale of what happened and will leave you enraged at how so many of our trusted institutions allowed the saga to go on for nearly a quarter of a century, shattering the lives of thousands of innocent people.

Television and the Second Screen James Blake,2016-11-10 Television is changing almost beyond recognition. In the battle for consumers, social media sites, smart phones and tablets have become rivals to traditional linear TV. However, audiences and producers are also embracing mobile platforms to enhance TV viewing itself. This book examines the emerging phenomenon of the second screen: where users are increasingly engaging with content on two screens concurrently. The practice is transforming television into an interactive, participatory and social experience. James Blake examines interactive television from three crucial angles: audience motivation and agency, advances in TV production and the monetisation of second screen content. He also tracks its evolution by bringing together interviews with more than 25 television industry professionals - across the major UK channels - including commissioning editors, digital directors, producers and advertising executives. These reveal the successes and failures of recent experiments and the innovations in second screen projects. As the second screen becomes second nature for viewers and producers, the risks and opportunities for the future of television are slowly beginning to emerge. Television and the Second Screen will offer students and scholars of television theory, industry professionals and anyone with an abiding interest in television and technology, an accessible and illuminating guide to this important cultural shift.

Twitter Jean Burgess,Nancy K. Baym,2022-03 The sometimes surprising, often humorous story of the forces that came together to shape the central role Twitter now plays in contemporary politics and culture Is Twitter a place for sociability and conversation, a platform for public broadcasting, or a network for discussion? Digital platforms have become influential in every sphere of communication, from the intimate and everyday to the public, professional, and political. Since the scrappy startup days of social media in the mid-2000s, not only has the worldwide importance of platforms grown exponentially, but also their cultures have shifted dramatically, in a variety of directions. These changes have brought new opportunities for progressive communities to thrive online, as well as widespread problems with commercial exploitation, disinformation, and hate speech. Twitter’s growth over the past decade, like that of much social media, has far surpassed its creators’ vision. Twitter charts this trajectory in the format of a platform biography: a new, streamlined approach to understanding how platforms change over time. Through the often surprising, fast-moving story of Twitter, it illuminates the multiple forces—from politics and business to digital ideologies—that came together to shape the evolution of this revolutionary platform. Jean Burgess and Nancy K. Baym build a rich narrative of how Twitter has evolved as a technology, a company, and a culture, from its origins as a personal messaging service to its transformation into one of the most globally influential social media platforms, where history and culture is not only recorded but written in real time.

Writing and Editing for Digital Media Brian Carroll,2019-11-28 In this new edition, Brian Carroll explores writing and editing for digital media with information about voice, style, media formats, and content development, combining hands-on exercises with new sections on idea generation, multi-modal storytelling, podcasting, and information credibility. Carroll explains and demonstrates how to effectively write for digital spaces - whether crafting a story for a website, writing for an app, blogging, or using social media to expand the conversation. Each chapter features lessons and exercises through which students can build a solid understanding of the ways that digital communication provides opportunities for dynamic storytelling and multi-directional communication. Updated with contemporary examples and new pedagogy, the fourth edition broadens its scope, helping digital writers and editors in all fields, including public relations, marketing, and social media management. Writing and Editing for Digital Media is an ideal handbook for students from all backgrounds who are looking to develop their writing and editing skills for this ever-evolving industry.

Social TV Cory Barker, 2022-06-27 Winner of the 2023 SCMS Media Industries Scholarly Interest Group Outstanding Book Award sponsored by the Center for Entertainment & Media Industries On March 15, 2011, Donald Trump changed television forever. The Comedy Central Roast of Trump was the first major live broadcast to place a hashtag in the corner of the screen to encourage real-time reactions on Twitter, generating more than 25,000 tweets and making the broadcast the most-watched Roast in Comedy Central history. The #trumproast initiative personified the media and tech industries' utopian vision for a multi-screen and communal live TV experience. In *Social TV: Multi-Screen Content and Ephemeral Culture*, author Cory Barker reveals how the US television industry promised—but failed to deliver—a social media revolution in the 2010s to combat the imminent threat of on-demand streaming video. Barker examines the rise and fall of Social TV across press coverage, corporate documents, and an array of digital ephemera. He demonstrates that, despite the talk of disruption, the movement merely aimed to exploit social media to reinforce the value of live TV in the modern attention economy. Case studies from broadcast networks to tech start-ups uncover a persistent focus on community that aimed to monetize consumer behavior in a transitional industry period. To trace these unfulfilled promises and flopped ideas, Barker draws upon a unique mix of personal Social TV experiences and curated archives of material that were intentionally marginalized amid pivots to the next big thing. Yet in placing this now-forgotten material in recent historical context, Social TV shows how the era altered how the industry pursues audiences. Multi-screen campaigns have shifted away from a focus on live TV and toward all-day “content” streams. The legacy of Social TV, then, is the further embedding of media and promotional material onto every screen and into every moment of life.

Applications and Usability of Interactive TV María José Abásolo, Pedro Almeida, Joaquín Pina Amargós, 2017-07-11 This book constitutes the refereed proceedings of the 5th Iberoamerican Conference on Applications and Usability of Interactive TV, jAUTI 2016, held in conjunction with the III International Congress on Information Engineering and Information Systems, in La Habana, Cuba, in November 2016. Based on communication research and real-world political-campaign experience, the author examines how to use the Web and social media to create public visibility, build trust and consensus and boost political participation. It offers a useful guide for practitioners working in the political arena, as well as for those managing communication projects in institutions or companies.

Literacy in Practice Patrick Thomas, Pamela Takayoshi, 2015-11-19 The rise of New Literacy Studies and the shift from studying reading and writing as a technical process to examining situated literacies—what people do with literacy in particular social situations—has focused attention toward understanding the connections between reading and writing practices and the broader social goals and cultural practices these literacy practices help to shape. This collection brings together situated research studies of literacy across a range of specific contexts, covering everyday, educational, and workplace domains. Its contribution is to provide, through an empirical framework, a larger cumulative understanding of literacy across diverse contexts.

How to Prevent the Next Pandemic Bill Gates, 2022-05-03 Governments, businesses, and individuals around the world are thinking about what happens after the COVID-19 pandemic. Can we hope to not only ward off another COVID-like disaster but also eliminate all respiratory diseases, including the flu? Bill Gates, one of our greatest and most effective thinkers and activists, believes the answer is yes. The author of the #1 New York Times best seller *How to Avoid a Climate Disaster* lays out clearly and convincingly what the world should have learned from COVID-19 and what all of us can do to ward off another catastrophe like it. Relying on the shared knowledge of the world's foremost experts and on his own experience of combating fatal diseases through the Gates Foundation, Gates first helps us understand the science of infectious diseases. Then he shows us how the nations of the world, working in conjunction with one another and with the private sector, how we can prevent a new pandemic from killing millions of people and devastating the global economy. Here is a clarion call—strong, comprehensive, and of the gravest importance.

Studying Digital Media Audiences Craig Hight, Ramaswami Harindranath, 2017-01-27 Although many digital platforms continue to appropriate and reconfigure familiar forms of media experience, this is an environment which no longer consistently constructs an identifiable 'mass' audience in the terms understood by twentieth century audience researchers. The notion of 'audiencing' takes on different characteristics within a digital environment where platforms encourage users to upload, share and respond to content, while the platforms themselves monetise the digital traces of this activity. This environment demands new ways of thinking about audience and user engagement with media technologies, and raises significant questions on methods of conceiving and researching audience-users. This volume addresses ongoing debates in the field of audience research by exploring relevant conceptual and methodological issues concerning the systematic study of digital audiences. Drawing from work conducted by researchers based in Australia and New Zealand, the book uses theoretical frameworks and case study material which are of direct relevance to audience researchers globally.

Dilla Time Dan Charnas, 2022-02-01 WINNER OF THE PEN/JACQUELINE BOGRAD WELD AWARD FOR BIOGRAPHY A NEW YORK TIMES BEST SELLER This book is a must for everyone interested in illuminating the idea of unexplainable genius.” —QUESTLOVE Equal parts biography, musicology, and cultural history, *Dilla Time* chronicles the life and legacy of J Dilla, a musical genius who transformed the sound of popular music for the twenty-first century. He wasn't known to mainstream audiences, even though he worked with renowned acts like D'Angelo and Erykah Badu and influenced the music of superstars like Michael Jackson and Janet Jackson. He died at the age of thirty-two, and in his lifetime he never had a pop hit. Yet since his death, J Dilla has become a demigod: revered by jazz musicians and rap icons from Robert Glasper to Kendrick Lamar; memorialized in symphonies and taught at universities. And at the core of this adulation is innovation: a new kind of musical time-feel that he created on a drum machine, but one that changed the way “traditional” musicians play. In *Dilla Time*, Dan Charnas chronicles the life of James DeWitt Yancey, from his gifted childhood in Detroit, to his rise as a Grammy-nominated hip-hop producer, to the rare blood disease that caused his premature death; and follows the people who kept him and his ideas alive. He also rewinds the histories of American rhythms: from the birth of soul in Dilla's own “Motown,” to funk, techno, and disco. Here, music is a story of Black culture in America and of what happens when human and machine times are synthesized into something new. *Dilla Time* is a different kind of book about music, a visual experience with graphics that build those concepts step by step for fans and novices alike, teaching us to “see” and feel rhythm in a unique and enjoyable way. Dilla's beats, startling some people with their seeming “sloppiness,” were actually the work of a perfectionist almost spiritually devoted to his music. This is the story of the man and his machines, his family, friends, partners, and celebrity collaborators. Culled from more than 150 interviews about one of the most important and influential musical figures of the past hundred years, *Dilla Time* is a book as delightfully detail-oriented and unique as J Dilla's music itself.

Human-Computer Interaction -- INTERACT 2013 Paula Kotzé, Gary Marsden, Gitte Lindgaard, Janet Wesson, Marco Winckler, 2013-07-30 The four-volume set LNCS 8117-8120 constitutes the refereed proceedings of the 14th IFIP TC13 International Conference on Human-Computer Interaction, INTERACT 2013, held in Cape Town, South Africa, in September 2013. The 55 papers included in the second volume are organized in topical sections on E-input/output devices (e-readers, whiteboards), facilitating social behaviour and collaboration, gaze-enabled interaction design, gesture and tactile user interfaces, gesture-based user interface design and interaction, health/medical devices, humans and robots, human-work interaction design, interface layout and data entry, learning and knowledge-sharing, learning tools, learning contexts, managing the UX, mobile interaction design, and mobile phone applications.

Television and New Media Jennifer Gillan, 2010-10-18 We watch TV on computers, phones, and other mobile devices; television is now online as much as it is on air. *Television and New Media* introduces readers to the ways that new media technologies have transformed contemporary broadcast television production, scheduling, distribution, and reception practices. Drawing upon recent examples including *Lost*, *24*, and *Heroes*, this book examines the ways that television programming has changed—transforming nearly every TV series into a franchise, whose on-air, online, and on-mobile elements are created simultaneously and held together through a combination of transmedia marketing and storytelling. Television studios strive to keep their audiences in constant interaction with elements of the show franchise in between airings not only to boost ratings, but also to

move viewers through the different divisions of a media conglomerate. Organized around key industrial terms—platforming, networking, tracking, timeshifting, placeshifting, schedule-shifting, micro-segmenting, and channel branding this book is essential for understanding how creative and industrial forces have worked together to transform the way we watch TV.

Post-Punk Perception Edmund Wong,2013-07-27 Growing up in Singapore in the 80s has been challenging. I didn't know much about life or economy. I didn't know what I want to do apart from playing. I know I had to study and get a job. In school we had to write composition about our profession when we grow up. I had never wanted to be a philosopher, let alone writing about social philosophy. It is just that growing up with a single parent is tough. It is tougher when she is uneducated and I had to learn most things by myself. After my National Service, I decided to further studies. That was when I was exposed to philosophy and psychology in the UK. After graduation in 1999 with a degree in Electronics, I came back home to resume my National Service (I disrupt it and had about 2 months left). The life in UK exposed me to something that I did not notice when growing up in Singapore. I find local social scene unsatisfactory. They are Confucians, Muslims, Christians, freethinkers and humanists. Most time, they are preoccupied with how to earn more money. Religion does not give me the fulfillment that it promised. In addition, most were based on Singaporeans' interpretation of the Bible and Buddhism's dharma. Most times, I feel that everything that Singaporeans do has got to do with wealth creation or at least with the expenditure of it. It end up like what Pope Francis referred to as the cult of money. Organised religion involves more fear-mongering than cultivating an inner grace and peace. Hence this book is about how I relate an ancient thinker's ethics (Aristotle) to the present day. I find Aristotle's ethics to most suit my needs as a man and lover. It does not pretend to be more than what it seek, the golden mean. It does require us to think and explore the values to find balance and achieve wisdom with intellectual and moral virtues. I also find other philosophers (French or not) particularly insightful and thought-provoking. They offer me explanation and exploration on subjects like love, sex, and death. Freudian psychoanalysis are also very penetrating in their findings and insights. Moreover, I needed some contemporary psychological theory, not in-depth psychoanalysis, to back Aristotle's model of ethics (intellectual and moral virtues). Hence the psychological background of my book. I got acquainted with these psychological theories when I was preparing myself to be a financial consultant. I later found out more about them and they became useful in my work and life. Hence I would like to share it with people in Asia so that they can ask the right kind of questions in life in order to learn more about themselves and the social milieu they are living in. Because everyone of us are affected by the social sciences (politics, economics and sociology). This book will, I hope, allow us to understand why we are irrational and how we can make rational changes through reasonings in their life and achieving eudaimonia. My wish is simply to share what I enjoy doing, apart from creating useful ideas to improve the world. Through my book, I hope to make others understand religion, science and philosophy and how they play an increasingly integral part in the Asian century.
