Mouneh Barbara Abdeni Massaad,2018-07-01 PRESERVING FOOD AND CULTURE THE LEBANESE WAY -- The very best memories connecting us to time and place are often stimulated by the tastes and smells of our childhood. Freshly-baked bread, hot from the oven, sweet homemade jam dribbling down our chins, or the burst of flavor in each dried grape--these memories bring a smile to our faces even as they call to mind the people who made them possible. Do you remember working alongside your grandmother as she lovingly preserved garden-fresh foods to set back for the winter? You watched Jiddo (grandfather) patiently prepare his arak, but could you reproduce his efforts from memory? Are you lucky enough that they kept written records of recipes gleaned from family history and years of experience? If so, count yourself among the very fortunate minority. The reality for many of us is that we no longer enjoy such a strong connection to our culinary roots. As much as we might wish the contrary, the beauty and simplicity of home-preserved pantry items, the mouneh, taken for granted during our childhood, often seems a lifetime away. In Barbara Abdeni Massaad's book, *Mouneh: Preserving Foods for the Lebanese Pantry*, we've been thrown a lifeline to a piece of our cultural and culinary identity. So many things we would love to recreate for our own families become possible within these pages, thanks to the author's diligent research, stunning photography, simply presented instructions and delightful stories.

The River Cottage Preserves Handbook Pam Corbin,2010-10-05 In this new addition to the award-winning collection, River Cottage master preserver Pam Corbin helps you transform the abundance of your garden (and your friends' and neighbors' gardens) into everything from jams and jellies to vinegars and sauces. Now, with *The River Cottage Preserves Handbook*, learn to make everything from simple Strawberry Jam to scrumptious new combinations like Honeyed Hazelnuts, Nasturtium "Capers," Onion Marmalade, Spiced Brandy Plums, and Elixir of Sage, plus a pantryful of butters, curds, pickles, chutneys, cordials, and liqueurs.

The Law of MERCOSUR Marcilio Toscano Franca Filho,Lucas Lixinski,María Belén Olmos Giupponi,2010-10-29 The Law of MERCOSUR presents both an overview and in-depth analysis of one of the world's most important and increasingly influential economic organisations. The book comprises both a series of first-hand analyses of MERCOSUR by experts from countries in the MERCOSUR bloc, and also discussions from other parts of the world looking at MERCOSUR as global actor of ever-increasing importance. The book is divided into three main parts: the first analyses the key institutional legal aspects of MERCOSUR, looking at its history, the general theory of economic integration, and

basic aspects relating to the functioning of MERCOSUR; the second examines specialised topics, including the regulation of the environment, human rights and the energy market in MERCOSUR; and in the third part the editors offer a translation of core MERCOSUR instruments, with the objective of furthering understanding of the economic bloc. Original in its conception, the book aims to fill a major gap in the English-language literature by offering a comprehensive and in-depth analysis of the Law of MERCOSUR, and it is hoped that it will become essential reading for those practitioners and academics who are interested not only in MERCOSUR, but in economic integration generally, in international trade, and in the regional aspects of the phenomenon of globalisation.

The Hidden Lamp Zenshin Florence Caplow,Reigetsu Susan Moon,2013-10-21 The Hidden Lamp is a collection of one hundred koans and stories of Buddhist women from the time of the Buddha to the present day. This revolutionary book brings together many teaching stories that were hidden for centuries, unknown until this volume. These stories are extraordinary expressions of freedom and fearlessness, relevant for men and women of any time or place. In these pages we meet nuns, laywomen practicing with their families, famous teachers honored by emperors, and old women selling tea on the side of the road. Each story is accompanied by a reflection by a contemporary woman teacher--personal responses that help bring the old stories alive for readers today--and concluded by a final meditation for the reader, a question from the editors meant to spark further rumination and inquiry. These are the voices of the women ancestors of every contemporary Buddhist.

Preserves Pam Corbin,2018-02-22 In the second of the River Cottage Handbook series, Pam Corbin explains how to

turn Britain's seasonal gluts of fruit, vegetables, flowers and herbs into delicious preserves to enjoy all year around. Preserving is a centuries-old way to make the most out of every season, stretching the more bountiful months into the sparser ones - and what's more, it is fun, rewarding and easy to learn. Explaining the history, science and basic processes of preserving, Pam Corbin guides us through a world of jams, jellies, butters, curds, pickles, chutneys, cordials, liqueurs, vinegars and sauces that can be made from local produce throughout the year. She includes 75 recipes, covering everything from traditional favourites such as raspberry jam, lemon curd, quince cheese and sloe gin, to fresh new combinations such as apple butter, cucumber pickle and nettle pesto. The handbook includes seasonable tables, regional maps, flow charts of all the preserving processes and full-colour photographs throughout, and is completed by a directory of equipment and useful addresses. With a textured hard cover and an introduction by Hugh Fearnley-Whittingstall, Preserves is a concise and inspiring guide to an age-old art for kitchen beginners and keen preservers alike.

Terror Assaulter Benjamin Marra, 2015-10-03 Cartoonist Benjamin Marra brilliantly satirizes America's obsession with justice – and disinterest in consequences – via a highly stylized, hypermasculine style that gushes with violence, sex, and international intrigue, battering down the boundaries between psychedelia, political commentary, and aggressive expressionism. Terror Assaulter must defeat Terror at all costs, as long as it leaves time for steamy dates with hot chicks. The man's codename is O.M.W.O.T. (One Man War On Terror) and he is the world's greatest protector, and a villain's worst nightmare.

Music by Numbers Richard Osborne, Dave Laing, 2021 The music industries are fuelled by statistics: sales targets, breakeven points, success ratios, royalty splits, website hits, ticket revenues, listener figures, piracy abuses and big data. Statistics are of consequence. They influence the music that consumers get to hear, they determine the revenues of music makers, and they shape the policies of governments and legislators. Yet many of these statistics are generated by the music industries themselves, and their accuracy can be questioned. This original new book sets out to explore this shadowy terrain. While there are books that offer guidelines about how the music industries work, as well as critiques from academics about the policies of music companies, this is the first book that takes a sustained look at these subjects from a statistical angle. This is particularly significant as statistics have not just been used to explain the music industries, they are also essential to the ways that the industries work: they drive signing policy, contractual policy, copyright policy, economic policy and understandings of consumer behaviour. This edited collection provides the first in-depth examination of the use and abuse of statistics in the music industries. The international group of contributors are noted music business scholars and practitioners in the field. The book addresses five key areas in which numbers are employed: sales and awards; royalties and distribution; music piracy; music policy; and audiences and their uses of music. The authors address these subjects from a range of perspectives. Some of them test the veracity of this data and explore its tactical use by music businesses. Others are helping to generate these numbers: they are developing surveys and online projects and offer candid self-observations in this volume. There are also authors who have

been subject to statistics; they deliver first-hand accounts of music industry reporting. The digital age is inherently numerical. Within the music industries this has prompted new ways of tracking the usage and recompense of music. In addition, it has generated new means of monitoring and engaging audience behaviour. It has also led to increased documentation of the trade. There is more reporting of the overall revenues of music industry sectors. There is also more engagement between industry and academia when it comes to conducting analyses and offering numerical recommendations to politicians. The aim of this collection is to expose the culture and politics of data. Music industry statistics are all-pervasive, yet because of this ubiquity they have been under-explored. This book provides new ways by which to learn music by numbers. A timely examination of how data and statistics are key to the music industries. Widely held industry assumptions are challenged with data from a variety of sources and in an engaging, lucid manner. Highly recommended for anyone with an interest in how the music business uses and manipulates the data that digital technologies have made available. Primary readership will be among popular music academics, undergraduate and postgraduate students working in the fields of popular music studies, music business, media studies, cultural studies, sociology and creative industries. The book will also be of interest to people working within the music industries and to those whose work encounters industry statistics.
