**Living Safely, Aging Well** Dorothy A. Drago, 2014-01-15 Older adults can stay healthy longer by avoiding injury at home. As we age, our sense of balance and our vision, hearing, and cognition become less sharp. Aging-related changes greatly increase our risk of injury. In *Living Safely, Aging Well*, nationally recognized safety expert Dorothy A. Drago spells out how to prevent injury while cooking, gardening, sleeping, driving—and just walking around the house. In the first part of the book, Drago describes the causes of injuries by type—falls, burns, poisoning, and asphyxia—and explains how to decrease the risk of each. She then explores the home environment room by room, pointing out potential hazards and explaining how to avoid them, for example, by installing night lights, eliminating glass coffee tables, and using baby monitors. Lively line drawings make it easy for readers to visualize risks and implement prevention techniques. *Living Safely, Aging Well* pays special attention to hazards encountered by people with Alzheimer's disease and other forms of dementia. A chapter devoted to health literacy helps people and caregivers make the best use of the medical care system and a chapter on driving helps evaluate when it is no longer safe to be behind the wheel.

**How to Live Safely in a Science Fictional Universe (Enhanced Edition)**

Charles Yu, 2010-09-07 This enhanced eBook includes video, audio, photographic, and linked content, as well as a bonus short story. Hear TAMMY talk. Learn the origins of Minor Universe 31. See the TM-31. Take a trip in it. Photos and illustrations appear as hyperlinked endnotes. Video and audio are embedded directly in text. \*Video and audio may not play on all readers. Check your user manual for details. National Book Foundation 5 Under 35 Award winner Charles Yu delivers his debut novel, a razor-sharp, ridiculously funny, and utterly touching story of a son searching for his father . . . through quantum space-time. Minor Universe 31 is a vast story-space on the outskirts of fiction, where paradox fluctuates like the stock market, lonely sexbots beckon failed protagonists, and time travel is serious business. Every day, people get into time machines and try to do the one thing they should never do: change the past. That's where Charles Yu, time travel technician--part counselor, part gadget repair man--steps in. He helps save people from themselves. Literally. When he's not taking client calls or

consoling his boss, Phil, who could really use an upgrade, Yu visits his mother (stuck in a one-hour cycle of time, she makes dinner over and over and over) and searches for his father, who invented time travel and then vanished. Accompanied by TAMMY, an operating system with low self-esteem, and Ed, a nonexistent but ontologically valid dog, Yu sets out, and back, and beyond, in order to find the one day where he and his father can meet in memory. He learns that the key may be found in a book he got from his future self. It's called *How to Live Safely in a Science Fictional Universe*, and he's the author. And somewhere inside it is the information that could help him—in fact it may even save his life. Wildly new and adventurous, Yu's debut is certain to send shock waves of wonder through literary space-time.

***How to Live Safely in a Dangerous World*** Loren W. Christensen, 1996

***Living a Safe Universe*** Lynda Madden Dahl, 2013 Seth, channeled by Jane Roberts, tells us, "You live in a safe universe." He also reminds us we create our own realities through our mental acts. Which means while we live in a safe universe, we don't always live a safe universe, because we don't always safely create within it. What does it take to live a safe universe? There is only one answer—Trust. After years of focused effort, Lynda Madden Dahl, award-winning author of five Seth-based books and co-founder of Seth

Network International, found a path within the material—not obvious at first, but there nonetheless—that resolves all trust issues, if one is but willing to try. “Lynda takes the reader deep into the heart of Seth's teachings, and one emerges with a new vision and understanding of concepts that will transform one's personal world, and thus the world in general. Highly recommended for all Seth readers who wish to take Seth’s material to a whole new level.” – Rich Kendall, author of *The Road to Elmira*, member of Jane Roberts’ ESP Class “I love this book. *Living a Safe Universe* brings us to a new understanding of the Seth material, and how to apply this understanding to trust. Lynda drives home the point that we are primarily consciousness which exists in the spacious present, as opposed to being an ego in time, and then explains why that fact changes the playing field entirely.” – Lawrence Davidson, member of Jane Roberts’ ESP class, founder of California Seth Conference

**Defending the American Way of Life** Kevin B. Witherspoon, 2018-12-01 The Cold War was fought in every corner of society, including in the sport and entertainment industries. Recognizing the importance of culture in the battle for hearts and minds, the United States, like the Soviet Union, attempted to win the favor of citizens in nonaligned states through the soft power of sport. Athletes became de facto ambassadors of US interests, their wins and losses serving as emblems of broader efforts to shield American culture—both at home and abroad—against communism. In *Defending the American Way of Life*, leading sport historians present new perspectives on high-profile issues in this era of sport history alongside research drawn from previously untapped archival sources to highlight the ways that sports influenced and were influenced by Cold War politics. Surveying the significance of sports in Cold War America through lenses of race, gender, diplomacy, cultural infiltration, anti-communist hysteria, doping, state intervention, and more, this collection illustrates how this conflict remains relevant to US sporting institutions, organizations, and ideologies today.
