**Modern India** William Eleroy Curtis,1905 The ancient Mogul Empire embraced almost as much of India as is controlled by the British today, and extended westward into Europe as far as Moscow and Constantinople. It was founded by a young warrior known as Timour the Tartar, or Tamerlane, as he is more frequently called in historical works. He was a native of Kesh, a small town fifty miles south of Samarkand, the capital of Bokhara, which was known as Tartary in those days. This young man conquered more nations, ruled over a wider territory and a larger number of people submitted to his authority than to any other man who ever lived, before or since.

Financing and Managing Projects, Volume I Nand L. Dhameja,Ashok Panjwani,2017-09-21 Project is an instrument of change and no project is complete unless its objective is achieved. Every project is specific and unique and the term 'project' is constantly expanding and ever changing. This first volume deals with the managerial aspects of a project, i.e., project phases; its formulation and appraisal techniques; there is no single best technique and executive judgment is essential. Every chapter outlines the objectives to be delivered and includes project instances, brief case examples, and case studies that provide an analytical kit for executives and professionals. The book makes for a lucid reading and serves as a guide for the reader. It has been written based on our experiences gained and feedback collected from teaching, training, and delivering various consultancy projects..
