Buying & Owning Property in Central Florida Garrett Kenny,2015-01-06 Have you ever wanted to own a piece of the magic in Central Florida or wanted to invest in the growing hub that is Orlando but aren't quite sure what a title company is or what a short sale is? Well, local ex-pat and property expert Garret Kenny's new book Buying and Owning Property in Central Florida is the ultimate resource for anyone looking to buy property in this popular area. Written expressly for overseas buyers, Garrett's book takes you through the entire buying process in Florida—from selecting the right Orlando area, to property selection, to financing, and right through to contracting and renting, showing you what to watch out for each step of the way and how to get ahead. Buyers from overseas have spent \$50 billion-plus on more than 250,000 properties in Florida from 2009 to the summer of 2013, according to data from the National Association of Realtors, yet there is very little information out there specifically on the Florida market for the savvy buyer who wants to ensure that they do everything correctly and make the best choices. Garrett's book addresses that gap in an easily accessible all encompassing guide. This book has all you need to know for buying and owning property in Central Florida.

**Navigating the New Retail Landscape** Alan Treadgold,Jonathan Reynolds,2016-09-20 The retail industry globally is in the early stages of an era of profound, perhaps unprecedented, change. This book is intended to serve as a robust and practical guide to leaders of enterprises tasked with both understanding and delivering success in the new landscape of retailing. The book firstly describes the major directions and drivers of change that define the new global landscape of retailing (Part 1). Accelerating technology change, the rise to prominence globally of internet enabled shoppers and the rapid emergence of entirely new retail enterprises and business models are combining to re-shape the very fundamentals of the retail industry. No longer are shops needed to be in the business of retailing. No longer is choice for the shopper limited to the neighbourhood, town or even country in which they live. No longer is the act of retailing solely the preserve of traditional retail enterprises as internet-enabled businesses, technology, logistics, suppliers and financial services enterprises all seek direct relationships with the shopper. The new landscape of retailing is an unforgiving one. Success can be achieved more quickly than has ever been possible before but failure is equally rapid. The opportunities in the new landscape of retailing are profound, but so too are the challenges. Part 2 of this book discusses the structures, skills and capabilities retail enterprises will need if they are to be successful in this new landscape and the skills and perspectives that will be required of the leaders of retail enterprises. Case studies of innovative and successful enterprises are presented throughout the book to illustrate the themes discussed. Frameworks are presented to provide practical guidance for enterprise leaders to understand and contextualise the nature of change that is re-shaping retail landscapes globally. Clear guidance is given of the capabilities, skills and perspectives that will be needed at both an enterprise and a personal leadership level to deliver success in the new landscape of retailing.
