**Traction** Gabriel Weinberg, Justin Mares, 2015-10-06 Most startups don't fail because they can't build a product. Most startups fail because they can't get traction. Startup advice tends to be a lot of platitudes repackaged with new buzzwords, but *Traction* is something else entirely. As Gabriel Weinberg and Justin Mares learned from their own experiences, building a successful company is hard. For every startup that

grows to the point where it can go public or be profitably acquired, hundreds of others sputter and die. Smart entrepreneurs know that the key to success isn't the originality of your offering, the brilliance of your team, or how much money you raise. It's how consistently you can grow and acquire new customers (or, for a free service, users). That's called traction, and it makes everything else easier—fund-raising, hiring, press, partnerships, acquisitions. Talk is cheap, but traction is hard evidence that you're on the right path. Traction will teach you the nineteen channels you can use to build a customer base, and how to pick the right ones for your business. It draws on inter-views with more than forty successful founders, including Jimmy Wales (Wikipedia), Alexis Ohanian (reddit), Paul English (Kayak), and Dharmesh Shah (HubSpot). You'll learn, for example, how to:

- Find and use offline ads and other channels your competitors probably aren't using
- Get targeted media coverage that will help you reach more customers
- Boost the effectiveness of your email marketing campaigns by automating staggered sets of prompts and updates
- Improve your search engine rankings and advertising through online tools and research

Weinberg and Mares know that there's no one-size-fits-all solution; every startup faces unique challenges and will benefit from a blend of these nineteen traction channels. They offer a three-step framework (called Bullseye) to figure out which ones will work best for your business. But no matter how you apply them, the lessons and examples in Traction will help you create and sustain the growth your business desperately needs.

Mobile Marketing Guide for Local Businesses Randy Van Ittersum, Richard E. Spalding, 2011-05-01 This book is for local business owners who want more customers. Mobile Marketing Guide For Local Businesses reveals proven marketing strategies to acquire new customers who live in the new mobile economy. Your customers are mobile and their mobile phones are their connection to your business. Seventy-six percent of your customers use their mobile phones to go online and check reviews about your business, compare prices on the products you sell, and contact you or locate your place of business. Currently there is a huge chasm between mobile consumers and local businesses. 95% of consumers have mobile phones and want to access information about your business on their phone, but only 2% of local businesses provide them a

means of doing so. This presents a huge opportunity for any local business that decides to cater to the mobile market. To put it differently, only 2% of local businesses are going after 95% of the market. A mobile customer is five times more likely to buy when they are mobile, rather than sitting behind a desk at the office, or sitting in front of the TV or computer at home. This presents a huge opportunity for you to gain market share and generate more income. This book guides you through the unfamiliar territory of mobile marketing, and shows you how to reach the mobile marketplace. It lays out the foundation of every mobile marketing plan, and then builds on that foundation with multiple proven strategies to acquire new customers and to get old customers to return to your business and spend more money. Think of it this way: mobile is the new economy that leads to more customers, more repeat business, more sales, more revenue, and more profits. What are you doing to capture the mobile consumer? It doesn't matter if you own a law firm, a dental practice, a hair salon, a coffee shop, a restaurant, a plumbing business, or a landscaping business, this book is for you. This book is for any business that wants more customers. It is also for any business that wants more revenue from their current customers. If that describes you, then you need to read this book and learn how to tap into the new mobile economy.
