Web and Wireless Geographical Information Systems James D.

Carswell, Stewart Fotheringham, Gavin McArdle, 2009-11-25 This volume contains the extended papers selected for presentation at the ninth edition of the International Symposium on Web & Wireless Geographical Information Systems 2 (WGIS 2009) hosted by the National Centre for Geocomputation in NUI Maynooth 2 (Ireland). WGIS 2009 was the ninth in a series of successful events beginning with Kyoto 2001, and alternating locations between East Asia and Europe. We invited s- missions that provided an up-to-date review of advances in theoretical, technical, and 2 practical issues of W GIS and Intelligent GeoMedia. Reports on ongoing implemen- tions and real-world applications research were particularly welcome at this symposium. 2 Now in its ninth year, the scope of W GIS has expanded to include continuing - vances in wireless and Internet technologies that generate ever increasing interest in the diffusion, usage, and processing of geo-referenced data of all types - geomedia. Spatially aware wireless and Internet devices offer new ways of accessing and anal- ing geo-spatial information in both real-world and virtual spaces. Consequently, new challenges and opportunities are provided that expand the

traditional GIS research scope into the realm of intelligent media – including geomedia with context-aware behaviors for self-adaptive use and delivery. Our common aim is research-based innovation that increases the ease of creating, delivering, and using geomedia across different platforms and application domains that continue to have dramatic effect on today's society.

Test-Driving JavaScript Applications Venkat

Subramaniam, 2016-10-07 Debunk the myth that JavaScript is not easily testable. Whether you use Node.js, Express, MongoDB, jQuery, AngularJS, or directly manipulate the DOM, you can test-drive JavaScript. Learn the craft of writing meaningful, deterministic automated tests with Karma, Mocha, and Chai. Test asynchronous JavaScript, decouple and properly mock out dependencies, measure code coverage, and create lightweight modular designs of both server-side and client-side code. Your investment in writing tests will pay high dividends as you create code that's predictable and cost-effective to change. Design and code JavaScript applications with automated tests. Writing meaningful tests is a skill that takes learning, some unlearning, and a lot of practice, and with this book, you'll hone that skill. Fire up the editor and get hands-on through practical exercises for effective automated testing and

designing maintainable, modular code. Start by learning when and why to do manual testing vs. automated verification. Focus tests on the important things, like the pre-conditions, the invariants, complex logic, and gnarly edge cases. Then begin to design asynchronous functions using automated tests. Carefully decouple and mock out intricate dependencies such as the DOM, geolocation API, file and database access, and Ajax calls to remote servers. Step by step, test code that uses Node.js, Express, MongoDB, jQuery, and AngularJS. Know when and how to use tools such as Chai, Istanbul, Karma, Mocha, Protractor, and Sinon. Create tests with minimum effort and run them fast without having to spin up web servers or manually edit HTML pages to run in browsers. Then explore end-to-end testing to ensure all parts are wired and working well together. Don't just imagine creating testable code, write it. What You Need: A computer with a text editor and your favorite browser. The book provides instructions to install the necessary automated testing-related tools.

Stafford,Clemens Szyperski,Kurt Wallnau,2005-04-28 On behalf of

the Organizing Committee I am pleased to present the proceedings of the 2005 Symposium on Component-Based Software Engineering (CBSE). CBSE is concerned with the development of software-intensive systems from reusable parts (components), the development of reusable parts, and system maintenance and improvement by means of component replacement and customization. CBSE 2005, "Software Components at Work," was the eighth in a series of events that promote a science and technology foundation for achieving predictable quality in software systems through the use of software component technology and its associated software engineering practices. We were fortunate to have a dedicated Program Committee comprised of 30 internationally recognized researchers and industrial practitioners. We received 91 submissions and each paper was reviewed by at least three Program Committee members (four for papers with an author on the Program Committee). The entire reviewing process was supported by CyberChair Pro, the Web-based paper submission and reviews system developed and supported by Richard van der Borgh and Online Conference Services. After a two-day virtual Program Committee meeting, 21 submissions were accepted

Let America Live Stella Immanuel, 2021 Against all odds, our fight for freedom is our responsibility, we must RISE! This book will expose you to the hidden realities of the media's silencing and opposition to those against the Left's agenda. You will have an increased confidence to stand strong for your beliefs about your health, faith, and personal life despite what is going on around you. When the COVID-19 pandemic hit the United States, Dr. Stella Immanuel started treating her patients with hydroxychloroquine and saw surprising success. To date, she says she has treated more than seven thousand COVID patients with the drug, and only eight have passed away. The rest recovered. Yet Dr. Immanuel has been ripped in the media and even by the medical community, who say the drug not only doesn't work but is harmful--the complete opposite of her experience. Her videos and accounts have been blocked on social media. The backlash has been so intense that she began to wonder if more sinister forces weren't behind the attacks against her and other doctors who advocate using hydroxychloroquine to treat COVID. In *Let America Live*, Dr. Immanuel shares her story--from unassuming Houston physician to one of the Left's favorite punching bags. A minister as well as a

physician, Dr. Immanuel also exposes the dark spiritual agenda she believes is behind the medical community's opposition to hydroxychloroquine as a COVID treatment and the vaccination push. Despite intense opposition, Dr. Immanuel refuses to be silenced. She issues a clarion call to believers and all who love liberty to stand boldly against the spiritual and natural forces that are threatening Americans' health and the future of the nation.

Anxious To Fast And Pray Tella Olayeri, 2022-08-24 This is a new dawn for ardent Christians willing to fast and pray. This book goes a long way to address issues experienced by Christians. Fasting is a spiritual weapon that should be managed well with acidic prayer. This book entails spiritual ingredients we need to live above board and silence satanic activities. You sacrifice time, money and energy to fast and pray, therefore, you must get the best out of it. You must not give Satan foothold in your life. It is terrible and uncalled for when Christians eat in the dream, have sex in the dream, pursued by masquerade in the dream, got beaten or pressed down in the dream. The reason is, you are not loaded with prayer and fasting. It is not that enemy will not come to attack, the difference is; you will be at the top, no matter their number. For simplicity this book is divided into three parts. Prayer BEFORE fast; Prayer DURING fast; and the third part; prayer AFTER fast. This book makes you prepare for battle before fast, go

into battle during fast and makes you count spoils after fast.

Opportunity to come across this book is golden. The reason you need it to add value to who you are. You are wonderfully created; enemy shall not cheat you or re-write your destiny. This is a destiny repairing prayer book. You fast to add color to your destiny.

If the foundation is destroyed, what can the righteous do? Take your case to God in fasting and prayer. You will win! Take action today and leave the rest to God. The battle line is drawn. Take action, buy this book and march ahead to conquer in prayer and fasting; and reap harvest of glory. The benefits to reap good things of life are many. But let's mention a few: 1. The Lord will unfold deep secrets to you and the way out to bounce back to life without sweat. 2. Doors of opportunities will open. 3. Satanic powers are silenced. 4. Righteousness will be your food as you enjoy new chapter of grace, favor and mercy of God. 5. Enemies pursuing you shall turn back and fail in what concerns you. 6. The strongman that vows you will be dealt with will hands off. 7. You will not be a casualty in the battle of life. Your prayer will tear to pieces veil of darkness that causes spiritual blindness. 8. You will fight in the spirit and enlarge your coast in the physical. 9. You will fight sin and win to the glory of God. Pick the right book that
