**Love Understood** Laura Mucha, 2020-01-21 Laura Mucha has found the proof that love actually is all around.--Richard Curtis, writer and director of *Love, Actually* and *Notting Hill* For *Love Understood*, Laura Mucha has interviewed hundreds of strangers, from the ages of 8 to 95 in more than 40 countries, asking them to share their most personal stories, feelings, and insights about love and relationships. These intimate and illuminating conversations raised important questions, such as: - How does your upbringing influence your relationships? - Does love at first sight exist? Should you just know? - What should you look for in a partner? - Is monogamy natural? - Why do people cheat? - How do you know when it's time to walk away? Drawing on psychology, philosophy, anthropology and statistics, *Love Understood* combines evidence, theory and everyday experience and is the perfect read for anyone who is curious about how we think, feel and behave when it comes to love.

*Locks and Keys Throughout the Ages* Vincent J. M. Eras, 2019 *Locks and Keys throughout the Ages* is widely considered the best book ever written on the history and development of locks. It is illustrated throughout with photos from the famous and extensive Lips' Collection. It was written in 1957 by Vincent J.M. Eras, the director of one of the most respected and important lock manufacturing companies in the world at that time, the Lips' Safe and Lock Manufacturing Company (now part of the ASSA ABLOY Group, along with Yale, Chubb, and many other once independent manufacturers). The author was not only a master locksmith who held several important patents, but he was also an avid collector and was passionate about the history and development of locking mechanisms. His extensive knowledge of the field comes across on every page. In fact, Eras had been

in the lock manufacturing business for 58 years before he wrote this book. In the preface he states: I consider it a gratifying task to place on record my experiences and through this book save them from oblivion. At the same time an excellent opportunity is presented to show the reader my collection of antique and modern locks - the tangible result of more than 50 years travelling, searching and study in many countries. In over 280 black-and-white photos and drawings Vincent Eras brings us on a grand tour of the development of locks from prehistoric to modern times and also explains to us, in words and illustrations, how their mechanisms work. This is a high-quality hardcover reprint of the 1957 edition of the book done by special arrangement with ASSA ABLOY. The typeface has been completely re-done and the photographs have been corrected using the latest digital correction technology. The quality is equal to and, in many cases, better than the original 1957 edition. A reprint of this book was done in the UK in the 1970s but the quality was poor. Artisan Ideas is very glad to be able to make this fascinating book available to the public again. Hardcover, 184 pages, 284 black-and-white photos and designs.

*Bridges Translation of the Ten Qira at of the Noble Qur'an* Fadel Soliman, 2020-01-31 Bridges' translation aims to help non-Arabic readers in pondering the Qur'an (tadabbur). The translators focused not only on translating what God meant to say, but also on translating how He spoke. There are three main new features in this translation that make it unique: 1. It is the first

translation which includes the ten Qira'at (modes of recitation). The main text is written in accordance with the Qira'a of Asem, narrated by Hafs. Variations from that are presented in footnotes denoted by 'Q'. The translation presents around 30% of the variations of the Qira'at--those which affect the meaning. 2. It is the first translation that takes into consideration the Qur'anic phenomenon of grammatical shifts, whether in verb tenses, numbers, or pronouns. These are a great source of pondering for the reader. 3. To denote whether a pronoun like 'you' or an imperative verb like 'say' is plural, dual, or singular, the translators did not impose their understanding on the reader by adding text between brackets like (O Prophet) to denote singular form, or (O mankind) to denote plural form. Rather, this distinction was achieved by adding a superscript after pronouns and imperative verbs. For example: you<sup>pl</sup> is used for a plural pronoun, you<sup>sg</sup> for a singular pronoun, and you<sup>dl</sup> for a dual pronoun.

The Crying of Lot 49 Thomas Pynchon, 2012-06-13

**How to Succeed as a Trial Lawyer** Stewart Edelstein, 2017-10 How to Succeed as a Trial Lawyer, Second Edition is a compendium of essentially every aspect of the civil litigation process and then some, told with humor and erudition. This book does not purport to be an academic treatment of the subject. Instead, it provides practical pointers on everything from dealing with clients and adversaries to managing ethical dilemmas to marketing one's practice and learning how to avoid alienating prospective

clients at the next fund-raising dinner. The section on effective deposition-taking is a first-rate primer on that subject. Taken as a whole, the book provides a comprehensive checklist and how-to guide for civil litigators. This book is equivalent to having a sophisticated and accomplished trial lawyer in the family who is willing to take the time to share the fruits of his long experience and savvy insight on everything that matters in the civil litigation process. Two themes permeate this book. First, in the Edelstein view of the litigation process, less is almost always more. As noted, briefs should be edited to the point of gem-like brilliance. Significantly, the cogency that underlies the most effective briefs also informs other key aspects of the litigation process, from determining the necessary scope of discovery to sifting through the claims to present in a complaint or to pursue at trial. Second, every trial lawyer needs to identify the themes that will advance the client's cause and make certain that every litigation judgment is consistent with those themes. Following the precepts of this book will maximize every client's opportunity for success while minimizing the needless costs and expense that have given the contemporary litigation process such a bad reputation. Litigation is a challenging vocation. It demands not only intellectual ability but attention to detail, perseverance, creative problem-solving, persuasiveness, focus, integrity, and the ability to press the client's position with enthusiasm while maintaining sufficient detachment to provide the objective, independent advice the client requires. *How to Succeed as a Trial Lawyer, Second Edition* is an invaluable guide to each of these requirements and more.

*Nine Principles of Litigation and Life* Michael E. Tigar, 2009 Michael Tigar, of Washington, D.C., is widely regarded as a top trial lawyer. In this

book, Tigar reflects on the principles of action that are needed in litigation and in life. Anyone wishing to communicate and lead effectively will find this to be a valuable resource
