Advances in Design and Digital Communication IV
Nuno Martins, Daniel Brandão, 2023-11-30 This book reports on research findings and practical lessons featuring advances in the areas of digital and interaction design, graphic design and branding, design education, society and communication in design practice, and related ones. Gathering the proceedings of the 7th International Conference on Digital Design and Communication, Digicom 2023, held on November 9-11, 2023, as a hybrid event, in/from Barcelos, Portugal, this book continues the tradition of the previous ones reporting on new design strategies to foster digital communication within and between the society, institutions and brands. By highlighting innovative ideas and reporting on multidisciplinary projects, it offers a source of inspiration for designers of all kinds, including graphic and web designers, UI, UX and social media designers, and to researchers, advertisers, artists, and brand and corporate communication managers alike.

Esports in the Asia-Pacific Filippo Gilardi, Paul Martin, 2023-10-24 This is an edited book that fills a gap in knowledge by providing a comprehensive view of esports practice from the Asia and Pacific region. The volume looks at the development of esports through the interconnections between institutions, industries, players, and society, across the Asia-Pacific. Over the last two decades, the Asia-Pacific region has been central to the growth and development of esports. The value of this book lies in its ability to provide a view of esports from countries that are currently underrepresented in the literature such as Vietnam, Malaysia, Taiwan, Hong Kong, Singapore, Philippines and Australia while still integrating chapters looking at more well-researched countries such as China, Korea, and Japan. Through its diverse case studies, the book serves as a resource for scholars and educators worldwide who seek diverse examples with which to improve understanding of the esports phenomenon and the inclusiveness of media and communication curricula. chapters "Introduction to Esports in the Asia-Pacific" and "Conclusions to Esports in

the Asia-Pacific" are available open access under a Creative Commons Attribution 4.0 International License via link.springer.com.

eSports Yearbook 2015/16 Tobias M. Scholz, Julia Hiltcher, 2017-04-12 This year's issue contains several articles about eSports. This time there are more research articles included. The topics range from research about eSports spectatorship, the informal roles in Counter-Strike Teams, a potential reverse gamification effect, the chances of eSports being an Olympic discipline, the connection between League of Legend teams and the owning corporations, the ergonomics in eSports and the health perception of gamers, to the potential shift in FPS games. The book is a statement: eSports is not only booming in the business context but increasingly gains attention in research as well.

Playing with Reality Alex Humphreys, 2022-08-17 What was it that got you through the Covid-19 pandemic? For some it was long walks; others turned to home baking. For millions it was video games, a booming industry which exploded in popularity over the pandemic years. Confined to our homes and with the lines of reality becoming blurred as everyday life shifted to screens, perhaps it was no wonder that so many of us were desperate to be transported to different worlds. In *Playing with Reality: Gaming in a Pandemic*, journalist and presenter Alex Humphreys, a passionate gamer herself, investigates this extraordinary boom in the gaming industry. Charting its rise, Alex interviews players and developers, sharing a glimpse of what was going on behind closed doors as studios closed and games were finished from home. *Playing with Reality* explores exactly what it was that made gaming a

lifeline for so many, and what the future holds as we look to the metaverse. Alexandra brilliantly chronicles the boundless creativity of an industry persevering through unprecedented times. Aaryn Flynn

Principles of Knowledge Representation and Reasoning Bernhard Nebel, Charles Rich, William R. Swartout, 1992 Stringently reviewed papers presented at the October 1992 meeting held in Cambridge, Mass., address such topics as nonmonotonic logic; taxonomic logic; specialized algorithms for temporal, spatial, and numerical reasoning; and knowledge representation issues in planning, diagnosis, and natural langu

Handbook of Research on Pathways and Opportunities Into the Business of Esports

Andrews, Sharon, Crawford, Caroline M., 2021-06-25
Esports have attracted considerable attention over the past few years and become an industry that is projected to continue to increase rapidly. Intersecting with the esports industry are organizations and businesses that develop and support the esports game experience. Included is the entrepreneurial spirit of gamers, who are interested in creating their own career paths through capturing and posting gaming microassists on different public venues that are driven by advertising dollars, invitational competition monetary winnings, and other forms of marketing their expertise for financial gain. All these organizations and industries form satellites of career opportunities as well as opportunities for research and enhanced forward-leaning study. Such career opportunities can be explicitly addressed within the structure of university degree and micro-credential certificate programs, some of which have begun to offer esports-directed degrees, but most of which have not yet moved from esports clubs into a recognition of the business and industry monetization of esports. The Handbook of Research on Pathways and Opportunities Into the Business of Esports addresses the intersection of esports gaming and the business and industry of esports, rather than an exploration of the video

games themselves. It is the supporting and intersecting industry driven by esports and the vast opportunities this brings that are the foci of this book. Covering topics including digital learning, esports marketing curriculum, and gaming culture, this text is essential for business professionals, industry analysts, entrepreneurs, managers, coaches, marketers, advertisers, brand managers, university and college administrators, faculty and researchers, students, professors, and academicians.

eSports Yearbook 2017/18 Julia Hiltcher,Tobias M. Scholz,2019-06-05 The sixth edition of the eSports yearbook focuses on the recent developments in the scene. Especially with the ongoing professionalization, there is an increase in academic research observable. The topics range from governance and institutionalization of the eSports industry to the continuing professionalization of companies involved in the industry. Still, sponsoring stays crucial for the survivability of businesses in eSports. Furthermore, critical issues such as nationalism and censorship will be discussed. The book highlights the development of eSports from being a niche phenomenon towards becoming a central part of modern society.

Gamification of Life and the Gaming Society

Fabian Arlt,Hans-Jürgen Arlt,2023-11-22 This interesting book discusses why, as an activity, topic and metaphor, play and game have become an integral part of modern life. Empirically exemplary and theoretically grounded, this book discusses the developments and expansions in gaming, from easily accessible casual games to the galaxy-spanning gaming worlds of Massively Multiplayer Online Role-Playing Games (MMORPGs). It shows how gaming has become a focal point of the entertainment industry, marked by boundless professionalization and monetization, especially in the realm of sports, and how games become global platforms for social networks, where players from all over the world meet in digital sandboxes. The combination of the virtual and the ludic creates hyperreal spaces in which people try out new forms of interaction, cooperation, and even brainstorming. The authors ask if this behavior has become the new way of life and the new normal, and if this heralds the ludic century. They take readers on a journey to understand the dynamics of today's gaming society, and base their observations and analyses on an original theory of play, which, in contrast to social normalcy, revolves around the allure and threats of the unexpected. This book is of interest to students and researchers of social science and communication studies, especially those working on the interface of AI and society.

Electronic Sports Industry in China

Peng Duan,Xiaohui Wang,Allan Yijia Zhang,Bin Ji,2023-02-21 This book presents a series of

studies on the status quo, characteristics of and trends in China's eSports industry, while also analyzing key problems to help the industry avoid potential risks, seize opportunities for development, and promote industrial drivers. In addition, it puts forward feasible plans and strategic suggestions for high-quality innovation and development of the industry. Electronic sports or eSports refers to digital entertainment activities that combine technological, sports, cultural and social aspects, and which have a unique commercial and user value. With their rapid growth in this century, eSports are now an emerging sector with huge growth potential and room for innovation. In 2020, China's eSports industry led the globe in growth rates; contributing roughly RMB 75.198 billion, it brought considerable new momentum to the national economy. As a new cultural phenomenon, eSports are politically, economically, culturally, and socially suited to helping use information technologies to restructure human social activities. The emergence and spread of an eSports culture embody the richness of subcultural phenomena and the importance of multicultural spaces, while also having a positive effect on people's competitive spirit, intelligence, aesthetic tastes, etc. However, during the COVID-19 pandemic, China's eSports industry has faced a host of problems, e.g. postponed competitions, management difficulties and brand devaluation, all of which have hampered its progress. Nevertheless, the number of Chinese eSports users is on the rise and the online market

share is climbing steadily, establishing a user base for the industry. Moreover, new technological advances like 5G, VR and AR offer a wealth of new opportunities for innovation in China's eSports industry. The book encourages readers to approach the topic from various perspectives and think across disciplines. As a result, it is not only essential reading for students at colleges and universities, but also offers a valuable reference guide for eSports researchers and enthusiasts.

Foundations of Knowledge Representation and Reasoning Gerhard Lakemeyer, Bernhard Nebel, 1994-06-28 The papers collected in this book cover a wide range of topics in asymptotic statistics. In particular up-to-date-information is presented in detection of systematic changes, in series of observation, in robust regression analysis, in numerical empirical processes and in related areas of actuarial sciences and mathematical programming. The emphasis is on theoretical contributions with impact on statistical methods employed in the analysis of experiments and observations by biometricians, econometricians and engineers.

The Science of Esports Craig McNulty, Remco

Polman,Matthew Watson,Kabir Bubna,2023-11-10 The Science of Esports draws from contemporary research and coach expertise to examine esports athlete health and performance from a range of disciplinary perspectives, including physiology, psychology, sociology, and nutrition. The rapid expansion of the esports industry has elevated competitive video gaming into the realm of high performance, requiring players, coaches, and practitioners to implement interdisciplinary approaches to performance support. The book covers key topic areas such as: What esports is and similarities and differences to sport Game-specific training Physiological and psychological consideration for esports athletes Social aspects of player performance and the social environment of esports Esports coaching and structure of esports performance environments Technology and its use in esports Safeguarding, cheating, and gambling This book includes worked examples and case studies to allow immediate implementation into practice for esports athletes and coaches. It summarises the current state of research to inform researchers and identify gaps in knowledge. This book is critical reading for students of esports and related courses. It serves as the first scientific resource designed to provide athletes, coaches, and practitioners with interdisciplinary insights into esports health and performance.

Media Management and Artificial Intelligence

Alex Connock,2022-11-18 This cutting-edge textbook examines contemporary media business models in the context of Artificial Intelligence (AI) and digital transformation. AI has dramatically

impacted media production and distribution, from recommendation engines to synthetic humans, from video-to-text tools to natural language models. AI is really the change agent of the media industry, answered a natural language generation model when AI was 'asked' about the subject of this book. It will open incredible opportunities. This book seeks to explore them. The media is examined through four sections. 'Principles' maps business models and the key tools of AI. 'Platforms' covers distribution channels in Games, Streamers, Social Networks, Broadcast and Digital Publishing. 'Producers' covers the engines of content-making, including Scripted, Entertainment, Factual, Content Marketing, Creators and Music. Finally, 'Pioneers' covers emerging sectors of Podcasting, Esports, the Metaverse and other AI-driven developments. Then in each chapter, a standard value creation model is applied, mapping a single sector through development, production, distribution and monetisation. Diverse case studies are analysed from India, Nigeria, South Korea, South Africa, France, the Netherlands, the US, the UK, Denmark and China – around creative entrepreneurship, revenue models, profit drivers, rights and emerging AI tools. Questions are provided for each case, whilst chapter summaries cement learning. Applied and technology-focused, this text offers core reading for advanced undergraduate and postgraduates studying Media Management – or the relationship between Entertainment, Media and Technology. Online resources include chapter-by-chapter PowerPoint slides and an Instructor's Manual with further

exercises and case studies.

Improvising Improvisation Gary Peters, 2017-05-29
There is an ever-increasing number of books on improvisation, ones that richly recount experiences in the heat of the creative moment, theorize on the essence of improvisation, and offer convincing arguments for improvisation's impact across a wide range of human activity. This book is nothing like that. In a provocative and at times moving experiment, Gary Peters takes a different approach, turning the philosophy of improvisation upside-down and inside-out. Guided by Kant, Hegel, Heidegger, and especially Deleuze—and exploring a range of artists from Hendrix to Borges—Peters illuminates new fundamentals about what, as an experience, improvisation truly is. As he shows, improvisation isn't so much a genre, idiom, style, or technique—it's a predicament we are thrown into, one we find ourselves in. The predicament, he shows, is a complex entwinement of choice and decision. The performativity of choice during improvisation may happen "in the moment," but it is already determined by an a priori mode of decision. In this way, improvisation happens both within and around the actual moment, negotiating a simultaneous past, present, and future. Examining these and other often ignored dimensions of spontaneous creativity, Peters proposes a consistently challenging and rigorously argued new perspective on improvisation across an extraordinary range of disciplines.
