British Chess Literature to 1914 Tim Harding, 2018-04-12

A huge amount was published about chess in the United Kingdom before the First World War. The growing popularity of chess in Victorian Britain was reflected in an increasingly competitive market of books and periodicals aimed at players from beginner to expert. The author combines new information about the early history of the game with advice for researchers into chess history and traces the further development of chess literature well into the 20th century. Topics include today's leading chess libraries and the use of digitized chess texts and research on the Web. Special attention is given to the columns that appeared in newspapers (national and provincial) and magazines from 1813 onwards. These articles, usually weekly, provide a wealth of information on early chess, much of which is not to be found elsewhere. The lengthy first appendix, an A to Z of almost 600 chess columns, constitutes a detailed research aid. Other appendices include corrections and supplements to standard works of reference on chess.

Patrick O'Brian Dean King, 2012-03-20 DIVA revealing and insightful look at one of the modern world's most acclaimed historical novelists/div DIVPatrick O'Brian was well into his seventies when the world fell in love with his greatest creation: the maritime adventures of Royal Navy Captain Jack Aubrey and ship's surgeon Stephen Maturin. But despite his fame, little detail was available about the life of the reclusive author, whose mysterious past King uncovers in this groundbreaking biography./divDIV /divDIVKing traces O'Brian's personal history, beginning as a London-born Protestant named Richard Patrick Russ, to his tortured relationship with his first wife and child, to his emergence from World War II with the entirely new identity under which he would publish twenty volumes in the Aubrey-Maturin series. What King unearths is a life no less thrilling than the seafaring world of O'Brian's imagination./div

Resurgent Antisemitism Alvin H. Rosenfeld, 2013-06-19

Dating back millennia, antisemitism has been called the longest hatred. Thought to be vanquished after the horrors of the Holocaust, in recent decades it has once again become a disturbing presence in many parts of the world. *Resurgent Antisemitism* presents original research that elucidates the social, intellectual, and ideological roots of the new antisemitism and the place it has come to occupy in the public sphere. By exploring the sources, goals, and consequences of today's antisemitism and its relationship to the past, the book contributes to an understanding of this phenomenon that may help diminish its appeal and mitigate its more harmful effects.

Plant Here The Standard Dennis Griffiths, 2016-07-27 *Plant Here the Standard* tells the story of the world's oldest evening newspaper, the (London) Evening Standard. Commencing in the time of Oliver Cromwell, it traces the history of the Baldwin Family, fearless Protestant publishers, whose successors launched *The Standard* in 1827. Later owners of the paper were to include: C. Arthur Pearson, founder of the Daily Express; Lord Beaverbrook; and, now, Lord Rothermere. And throughout there are tales of the paper's scoops, its famous journalists and cartoonists, and its political involvements.

Peterson, 2006 This bibliography describes all John Betjeman's known writings, including his own books, contributions to periodicals and to books by others, lectures, and radio and television programs. Censored 2014 Mickey Huff, Andy Lee Roth, Project Censored, 2013-10-08 Truthout's Progressive Pick of the Week Ralph Nader's 10 Books to Provoke Conversation in 2014 Every year since 1976, Project Censored, our nation's oldest news-monitoring group--a university-wide project at Sonoma State University founded by Carl Jensen, directed for many years by Peter Phillips, and now under the leadership of Mickey Huff--has produced a Top-25 list of underreported news stories and a book, *Censored*, dedicated to the stories that ought to be top features on the nightly news, but that are missing because of media bias and self-censorship. Seven Stories Press has been publishing this yearbook since 1994, featuring the top stories listed democratically in order of importance according to an international panel of judges. Beyond the Top-25 stories, additional chapters delve further into timely media topics: The Censored News and Media Analysis section provides annual updates on Junk Food News and News Abuse, Censored Deja Vu, signs of hope in the alternative and news media, and the state of media bias and alternative coverage around the world. In the Truth Emergency section, scholars and journalists take a critical look at the US/NATO military-industrial-media empire. And in the Project Censored International section, the meaning of media democracy worldwide is explored in close association with Project Censored affiliates in universities and at media organizations all over the world. A perennial favorite of booksellers, teachers, and readers everywhere, *Censored* is one of the strongest lifesigns of our current collective desire to get the news we citizens need--despite what Big Media tells us.

Mayday Michael Beschloss, 2016-08-16 The "definitive" book

on the U-2 episode and its disastrous impact on the future of the Cold War (Kirkus Reviews). On May Day 1960, Soviet forces downed a CIA spy plane flown deep into Soviet territory by Francis Gary Powers two weeks before a crucial summit. This forced President Dwight Eisenhower to decide whether, in an effort to save the meeting, to admit to Soviet Premier Nikita Khrushchev—and the world—that he had secretly ordered Powers's flight, or to claim that the CIA could take such a significant step without his approval. In rich and fascinating detail, *Mayday* explores the years of U-2 flights, which Eisenhower deemed "an act of war," the US government's misconceived attempt to cover up the true purpose of the flight, Khrushchev's dramatic revelation that Powers was alive and in Soviet custody, and the show trial that sentenced the pilot to prison and hard labor. From a U-2's cramped cockpit to tense meetings in the Oval Office, the Kremlin, Camp David, CIA headquarters, the Élysée Palace, and Number Ten Downing Street, historian Michael Beschloss draws on previously unavailable CIA documents, diaries, and letters, as well as the recollections of Eisenhower's aides, to reveal the full high-stakes drama and bring to life its key figures, which also include Richard Nixon, Allen Dulles, and Charles de Gaulle. An impressive work of scholarship with the dramatic pacing a spy thriller, *Mayday* "may be one of the best stories yet written about just how those grand men of diplomacy and intrigue conducted our business" (Time).

British Rail Christian Wolmar, 2022-06-09 The authoritative and fascinating history of the rise and fall of the state-owned British Rail 'Wolmar's book is impeccably organised and makes a fast, enjoyable read' THE TIMES Literary Supplement _____
British Rail wasn't how we're asked to remember it . . . From ancient rolling stock to patchy service, stale sandwiches to the wrong kind of snow, British Rail - our last great state-owned organisation to be privatised - has received a terrible press. But after its controversial 1948 creation, British Rail was actually an

innovative powerhouse that over five decades transformed the UK, creating one of the fastest regular rail services in the world. Award-winning journalist Christian Wolmar takes us from promise to punchline, exploring British Rail's birth into post-war austerity, the many battles and struggles to evolve what many considered to be a dinosaur, and how, at the height of its success, the service was misunderstood and unfairly maligned, ruthlessly broken up and privatised. _____ Praise for Christian Wolmar 'Wolmar is the high priest of railway studies' Literary Review 'The greatest expert on British trains' Guardian 'Our most eminent transport journalist' Spectator 'If the world's railways have a laureate, it is surely Christian Wolmar' Boston Globe 'Christian Wolmar is in love with the railways. He writes constantly and passionately about them. He is their wisest, most detailed historian and a constant prophet of their rebirth . . . if you love the hum of the wheels and of history, then Christian Wolmar is your man' Observer

Royal Court: International E. Aston, Mark

O'Thomas, 2015-01-05 The first ever full-length study of the Royal Court Theatre's International Department, covering the theatre's unique programming of international plays and seasons, its London-based residences for writers from overseas, and the legacies of workshops conducted in more than 30 countries.

Keynes and His Critics G. C. Peden, 2004-12-16 These documents, published here for the first time, present the Treasury's counter-arguments during the period when Keynes was developing the ideas that led to the Keynesian revolution in economic policy. Keynes spent much effort trying to persuade the Treasury to adopt policies designed to raise employment and stabilise prices, and to create an international monetary system that would favour these objectives. His arguments are set out fully in the Royal Economic Society's 30-volume set of *The Collected Writings of John Maynard Keynes*. In contrast, the views of his Treasury critics have hitherto been much less accessible. Economists and historians have tended to assume that Keynes

was right and the Treasury was wrong; this volume shows that the Treasury anticipated the political problems that would be encountered in putting Keynes's ideas into practice. Much of what Keynes published was deliberately polemical: he believed that words should be 'a little wild', for they were 'the assault of thought on the unthinking'. Treasury officials were by no means as unthinking as Keynes tended to portray them, and they had a coherent and intellectually respectable understanding of public finance. Ministers in the inter-war period and early in the Second World War were sensitive to the use that political opponents might make of Keynes's arguments; officials had to provide counter-arguments, and in doing so they revealed much about their views on economics and public finance. Once Keynes became an adviser to the Chancellor of the Exchequer in 1940, the debate became internal to the Treasury, but officials continued to subject Keynes's ideas to critical analysis. The documents in this volume show Treasury responses to Keynes on a range of issues crucial to understanding the period and the context of the Keynesian revolution in public policy. The topics covered include: the return to the gold standard; the use of public expenditure to cure unemployment in the inter-war period; how to avoid inflation in the war; planning for the post-war international economy; and the 1944 white paper on employment policy. This edition is an essential tool for the study of a formative period of British history and a great intellectual debate.

The Laird Rams Andrew R. English, 2021-09-17 Built in Birkenhead, England, from 1862 to 1865, the Laird rams were two innovative armored warships intended for service with the Confederate Navy during the Civil War. The vessels represented a substantial threat to Union naval power, and offered the Confederacy a potential means to break the Union blockade of the Southern coastline. During 1863, the critical year of the Confederacy's last hope of recognition by the British and French, President Lincoln threatened war with Britain if the ships ever

sailed under Confederate colors. Built in some secrecy, then launched on the River Mersey under intense international scrutiny, the ships were first seized, and then purchased by Britain to avoid a war with the United States. These armored warships were largely forgotten after the Admiralty acquired them. Historians rarely mention these sister warships--if referred at all, they are given short shrift. This book provides the first complete history of these once famous ironclads that never fired a shot in anger yet served at distant stations as defenders of the British Empire.

Radio London and Resistance in Occupied Europe

Michael Stenton, 2000-10-19 This book examines British attempts to wage political warfare in the countries occupied by Germany in the Second World War. It describes the slow construction of political warfare machinery in London in terms of two twin difficulties: Whitehall politics and fundamental doubts about what a successful war should have as its purpose. It then examines how political warfare operated as a semi-detached adjunct of diplomacy, and how it engaged with the development of armed or active resistance in France, Denmark, Poland, and Yugoslavia. This is a study of British political imagination in a period when Britain still acted as a great power in control of her own decisions. The experience of near-defeat, however, left decision-makers with dilemmas about rhetoric and ideology as much as policy. Their refusal to resolve these dilemmas until pushed by events meant political warfare lacked the consistency and definition that might have given it greater force.
