The Rudolph Valentino Brown Story Rudolph Valentino Brown, 2012-10-12 THE RUDOLPH VALENTINO BROWN STORY, which chronicles The Rise of the Legendary House of Brown Hair Salon in Houston, TX, is without a doubt the most moving story about one man's climb to success against great odds. Having come from a small town, born of slimly educated parents, and with little other than the clothes on his back and a few packed away in a brown paper bag, Rudy sets out on a journey to California to seek his dream. Little did he know then that his dream was not in California but right there in Houston, Texas, on a street called Lyons. However, once there, he decides to dig in, find a job, and make something of himself. He does just that. He eventually gives birth to the House of Brown Hair Salon. In fact, he ultimately accomplishes what few ever attain in their lifetimes: success and the American Dream. As told in his words, Rudolph Valentino Brown takes us on a journey of a thousand miles in which he sharpens his talent for hair design, and that talent takes him on a trail to do hair for some of the most celebrated performers and entertainers in our lifetime. Now in its 50th year, the House of Brown Hair Salon is stronger than ever.

Ageing Identities and Women's Everyday Talk in a Hair Salon Rachel Heinrichsmeier, 2020-01-14 The ageing of the world's populations, particularly in Western developed countries, is a well-documented phenomenon; and despite many positive images of later life, in the media and public discourse later life is frequently depicted as a time of inevitable physical and cognitive decline. Against this background, Heinrichsmeier presents the results of her two-year sociolinguistic study examining how a group of older women of different ages negotiated their way through their own and others' expectations of ageing and constructed different kinds of older – and other – identities for themselves. Through vivid and nuanced analysis of their chat and practices in a small village hair salon, Heinrichsmeier reveals these women's subtle and skilful manipulation of stereotypes of ageing and the impact of the evolving talk on their identity constructions. Her study, which provides numerous short extracts of talk in both the hair salon and interview along with more detailed case studies, highlights the importance of such apparently 'trivial' sites – for both studying older people's identity work and as loci for positive identity constructions and well-being in later life. This book will be of particular interest to graduate students and scholars working in sociolinguistics, discourse analysis, conversation analysis, and gerontological studies, as well as those interested in approaches integrating ethnography and language.

The Last Lecture Randy Pausch, 2008-04-08 After being diagnosed with terminal cancer, a professor shares the lessons he's learned--about living in the present, building a legacy, and taking full advantage of the time you have--in this life-changing classic. We cannot change the cards we are dealt, just how we play the hand. --Randy Pausch A lot of professors give talks titled The Last Lecture. Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull over the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave--Really Achieving Your Childhood Dreams--wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because time is all you have . . . and you may find one day that you have less than you think). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

Salon Marketing Kim Howells,2014-05-18 Most clients who enter your Hair Salon have absolutely no idea what it takes to run a successful salon. Salon owners usually come into two categories, those that work 'in the business and those that work 'on' the business. The problem you have is that Salon owners are so overwhelmed by all that is expected of them they sometimes have not considered which camp they fit into. Having successfully run my own salons it was not until much later down the track that I realised that it is impossible to do the two well and so a choice has to be made. Having made the choice of deciding to work 'on' the business Salon Marketing and how you run a successful salon takes on a whole new meaning. I can recall staring down into my computer many times and having sleepless nights and trying to figure out how to come up with a compelling offer for the next few weeks for a special event that was coming up. The harder I thought no inspiration was coming my way. It's all well and good spending money on putting an advert in the paper or running a special and spending money but is that enough to get your Return on Investment. I didn't have a 'system' which is where most Salon owners fail on this and I was no exception. I decided to write this book for all those Salon owners who are and have been in my 'shoes'. If you follow this system I Guarantee that you will succeed in pulling those clients into your Salon
