Da Kine Talk Elizabeth Ball Carr, 2019-03-31 Hawaii is without parallel as a crossroads where languages of East and West have met and interacted. The varieties of English (including neo-pidgin) heard in the Islands today attest to this linguistic and cultural encounter. Da kine talk is the Island term for the most popular of the colorful dialectal forms--speech that captures the flavor of Hawaii's multiracial community and reflects the successes (and failures) of immigrants from both East and West in learning to communicate in English.

Jolly Fellows Richard Stott, 2009-08-24 Stott finds that male behavior could be strikingly similar in diverse locales, from taverns and boardinghouses to college campuses and sporting events. He explores the permissive attitudes that thrived in such male domains as the streets of New York City, California during the gold rush, and the Pennsylvania oil fields, arguing that such places had an important influence on American society and culture. Stott recounts how the cattle and mining towns of

the American West emerged as centers of resistance to Victorian propriety. It was here that unrestrained male behavior lasted the longest, before being replaced with a new convention that equated manliness with sobriety and self-control..

Understanding and Measuring Social Capital Christiaan Grootaert,Thierry Van Bastelaer,2002 This work details various methods of gauging social capital and provides illustrative case studies from Mali and India. It also offers a measuring instrument, the Social Capital Assessment Tool, that combines quantitative and qualitative approaches.

Illustrated Dictionary Of Symbols In Eastern And Western Art James Hall,2018-05-04 A Companion volume to James Hall's perennial seller Dictionary of Subjects & Symbols in Art. which deals with the subject matter of Christian and Western art, the present volume includes the art of Egypt, the ancient Near East, Christian and classical Europe, India and the Far East. Flail explores the

language of symbols in art showing how paintings, drawings and sculpture express man shades of meaning from simple, everyday hopes and fears to the profoundest philosophical and religious aspirations. The book explains and interprets symbols from many cultures, and over 600 illustrations clarify and complement the text. There are numbered references throughout the text to the sacred literature, myths and legends in which the symbols had their origins. Details of English translations of the works are in the bibliography. The book includes an appendix of the transcription of Chinese, notes and references, bibliography, chronological tables and index.

Dr. Benjamin Waterhouse Philip Cash, 2006 Born in Rhode Island in 1754, hailed in Great Britain and much of the United States, yet scorned by the medical and Brahmin establishments in Boston, Benjamin Waterhouse is one of the most important, controversial, and colorful figures in American Medical history. Best known for introducing vaccination to the United States and joining with Thomas Jefferson in promoting this procedure throughout the country and beyond, he served as the first professor of medicine at Harvard Medical School and was a feared penman for the Jeffersonian cause

and the co-author of an early best seller recounting the experiences of the young Massachusetts doctor taken prisoner during the war of 1812. In addition, Waterhouse pioneered the popularization of the study of natural history (biology, geology and mineralogy in New England. This work is the first major biography of this fascinating, many faceted personality.

The Pandemic Century: One Hundred Years of Panic, Hysteria, and Hubris Mark

Honigsbaum, 2019-04-09 With a New Chapter and Updated Epilogue on Coronavirus A Financial Times Best Health Book of 2019 and a New York Times Book Review Editors' Choice Honigsbaum does a superb job covering a century's worth of pandemics and the fears they invariably unleash.

—Howard Markel, MD, PhD, director of the Center for the History of Medicine, University of Michigan
How can we understand the COVID-19 pandemic? Ever since the 1918 Spanish influenza pandemic, scientists have dreamed of preventing such catastrophic outbreaks of infectious disease. Yet despite a century of medical progress, viral and bacterial disasters continue to take us by surprise, inciting panic and dominating news cycles. In *The Pandemic Century*, a lively account of scares both infamous and

less known, medical historian Mark Honigsbaum combines reportage with the history of science and medical sociology to artfully reconstruct epidemiological mysteries and the ecology of infectious diseases. We meet dedicated disease detectives, obstructive or incompetent public health officials, and brilliant scientists often blinded by their own knowledge of bacteria and viruses—and see how fear of disease often exacerbates racial, religious, and ethnic tensions. Now updated with a new chapter and epilogue.

Waterflooding G. Paul Willhite, 1986 Waterflooding begins with understanding the basic principles of immiscible displacement, then presents a systematic procedure for designing a waterflood.

Global Value Chain Development Report 2021 Banque asiatique de développement, WORLD TRADE ORGANIZATION SECRETARIAT., 2022-01-25 A radical shift is underway in global value chains as they increasingly move beyond traditional manufacturing processes to services and other intangible assets. Digitization is a leading factor in this transformation, which is being accelerated by the coronavirus disease (COVID-19) pandemic. The Global Value Chain Development Report, the third

of a biennial series, explores this shift beyond production. The report shows how the rise of services value chains offers a new path to development and how protectionism and geopolitical tensions, environmental risks, and pandemics are undermining the stability of global value chains and forcing their reorganization geographically. It is co-published by the WTO, the Asian Development Bank, the Research Institute for Global Value Chains at the University of International Business and Economics, the Institute of Developing Economies, and the China Development Research Foundation.

Happiness Thich Nhat Hanh, 2005-07-20 Thich Nhat Hanh's central teaching is that, through mindfulness, we can learn to live in the present moment instead of in the past and in the future. It's only way to truly develop peace, both in one's self and in the world. Now, for the first time, all of Thich Nhat Hanh's key practices are collected in one accessible and easy-to-use volume. Happiness is structured to introduce those new to Buddhist teachings as well as for more experienced practitioners, Happiness is the quintessential resource of mindfulness practices. Integrating these practices into daily life allows the reader to begin to cultivate peace and joy within him/herself, leading to solidity and

freedom from fear, misunderstanding, and suffering. With the practices offered in *Happiness* Thich Nhat Hanh encourages the reader to learn to do all the things they do in daily life with mindfulness; to walk, sit, work, eat, and drive, with full awareness of what they are doing. It can bring about a shift towards one of the principles of engaged Buddhism, a shift towards practicing mindfulness in every moment of the day and not just while ‘formally’ meditating. Thich Nhat Hanh encourages his readers to try to be intelligent and skillful in their practice, approaching every aspect of the practice with curiosity and a sense of search. It’s important to practice with understanding and not just for the form and appearance. Enjoy your practice with a relaxed and gentle attitude, with an open mind and receptive heart.

The Educated Mind Kieran Egan, 2007-12-01 *The Educated Mind* offers a bold and revitalizing new vision for today’s uncertain educational system. Kieran Egan reconceives education, taking into account how we learn. He proposes the use of particular intellectual tools—such as language or literacy—that shape how we make sense of the world. These mediating tools generate successive

kinds of understanding: somatic, mythic, romantic, philosophical, and ironic. Egan's account concludes with practical proposals for how teaching and curriculum can be changed to reflect the way children learn. A carefully argued and readable book. . . . Egan proposes a radical change of approach for the whole process of education. . . . There is much in this book to interest and excite those who discuss, research or deliver education.—Ann Fullick, *New Scientist* A compelling vision for today's uncertain educational system.—*Library Journal* Almost anyone involved at any level or in any part of the education system will find this a fascinating book to read.—Dr. Richard Fox, *British Journal of Educational Psychology* A fascinating and provocative study of cultural and linguistic history, and of how various kinds of understanding that can be distinguished in that history are recapitulated in the developing minds of children.—Jonty Driver, *New York Times Book Review*

Li Bo Unkempt Mike Zhai,Kidder Smith,2021-03-22 This is Li Bo. You may also know him as Li Po 李白 (701-62), the great poet of Tang China, master of swoop and soar, wanderer, man of wine, so

enamored of the moon that he tried to embrace her reflection in the river, fell from his boat and drowned. Favorite of the Emperor-but only for a while, as such energies cannot be long contained at Court. Li Bo Unkempt presents seventy of his verses, a few letters, some rhapsodies and songs. They dance all through Tang high culture, inhabited by planets, hermit women, swashbucklers, grottos, calligraphers and buffoons, Li Bo's friends, lovers and alter egos. He's too shy, too quick to make introductions, but this volume allows us to hear the poetry's stories, their temperaments, to glimpse their secret economies of exchange. The book also offers background material, brief essays, a kind of Lonely Planet(TM) guidebook to this extraordinary realm. This way the strange will become familiar, and only then can we appreciate how truly strange it is. The authors and translators regard these poems as magical acts. What is offered, then, in this volume, are multiple ways to realize that magic. The essays are demonstrations, a spell-book, an extension of this non-ordinary knowing. Things too delicate to be said directly. So the book proceeds by analogy, by juxtaposition, latency, innuendo, jump cuts, dialetheia and flirt. All this a way to understand a deeper claim: that Li Bo is an immortal. And

what might that be...? Kidder Smith was graced to study with Y.K. Kao at Princeton and Peter Boodberg at Berkeley. For some years he taught Chinese history at Bowdoin College, where he also directed the Asian Studies Program. He is senior author of *Sung Dynasty Uses of the I Ching* (Princeton University Press, 1990); *Sun Tzu-the Art of War* (with Denma, Shambhala, 2001); and *Having Once Paused - Poetry of Zen Master Ikkyū* (with Sarah Messer, University of Michigan Press, 2015). As a boy in Shanghai, Mike Zhai memorized Li Bo's poems in school. Later, at UC Berkeley, he studied modern Chinese poetry under Bei Dao, as well as German literature and music. He holds an MFA in English from Mills College. A lecturer in English at the University of Michigan, he founded One Pause Poetry Salon in Ann Arbor in 2016. His poems have been published in *Spectrum* magazine, and in 2017 he won the Green House Poetry Prize for emerging poets.

Loan Phonology Andrea Calabrese, Leo Wetzels, 2009 For many different reasons, speakers borrow words from other languages to fill gaps in their own lexical inventory. The past ten years have been characterized by a great interest among phonologists in the issue of how the nativization of

loanwords occurs. The general feeling is that loanword nativization provides a direct window for observing how acoustic cues are categorized in terms of the distinctive features relevant to the L1 phonological system as well as for studying L1 phonological processes in action and thus to the true synchronic phonology of L1. The collection of essays presented in this volume provides an overview of the complex issues phonologists face when investigating this phenomenon and, more generally, the ways in which unfamiliar sounds and sound sequences are adapted to converge with the native language's sound pattern. This book is of interest to theoretical phonologists as well as to linguists interested in language contact phenomena.

Ron Shandler's 2024 Baseball Forecaster Ron Shandler, 2024-06-22 For more than 35 years, the very best in baseball predictions and statistics The industry's longest-running publication for baseball analysts and fantasy leaguers, Ron Shandler's Baseball Forecaster, published annually since 1986, is the first book to approach prognostication by breaking performance down into its component parts. Rather than predicting batting average, for instance, this resource looks at the elements of skill that

make up any given batter's ability to distinguish between balls and strikes, his propensity to make contact with the ball, and what happens when he makes contact— reverse engineering those skills back into batting average. The result is an unparalleled forecast of baseball abilities and trends for the upcoming season and beyond.

Introductory Grammar of Amharic Wolf Leslau, 2000 This book closes the gap for beginners who want to study the Amharic language and had difficulties in finding the right grammar for this purpose: The first grammar of Amharic, the national language of Ethiopia, was published by Hiob Ludolf in 1698. The Amharic grammar published by Praetorius in 1879 is based on Amharic religious texts and on scattered material, usually composed by missionaries. A milestone in the study of Amharic is Marcel Cohen's *Traite de langue amharique* (1936), but this grammar, too is not completely suited for beginners since the author's generalizations are at times aimed at linguists. The grammar that comes closest to the concept of a beginner's grammar is that of C.H. Dawkin (1960), yet this grammar is extremely short, does not give examples and does not introduce the student to the intricacies of the

language. The new book gives all the grammatical forms and the sentences of the present grammar in Amharic script and in phonetic transcription. The illustrative examples have a free and a literal translation. This procedure should likewise prove to be useful for the Semitist as well as for the general linguist.

Breast Cancer Management for Surgeons Lynda Wyld, Christos Markopoulos, Marjut

Leidenius, Elżbieta Senkus-Konefka, 2017-11-29 This textbook provides a comprehensive overview of the state of the art knowledge of breast cancer management for the modern breast surgeon. It covers all aspects of multidisciplinary care including primary breast and axillary surgery, reconstruction and oncoplastic techniques, external beam radiotherapy and newer techniques such as tomotherapy, intraoperative radiotherapy and brachytherapy. In addition, systemic therapies including chemotherapy, the latest biological targeted therapies and endocrine therapies are covered. Readers can find out about other important aspects of breast cancer such as genetics, screening, imaging and long-term

health among others. Chapters take the reader through the basics up to the highest levels of knowledge in an easy to understand format with management algorithms to aid clinical care, generous referencing of the best literature and figures and photographs to illustrate each section. Published with the official approval of the European Society of Surgical Oncology (ESSO) and the European Society of Breast Cancer Specialists (EUSOMA), the book is written by a panel of recognised leaders in the field and is an indispensable guide for the practicing breast specialist and senior specialists in training, wishing to update their knowledge with the latest trends or polish off their training before accreditation.
