Lost in Time A.G. Riddle, 2022-09-01 The SUNDAY TIMES bestseller Amazing! One of the twistiest time-tales I've ever read. –Diana Gabaldon Crichtonesque thrillers don't come much better than this... Readers won't be able to turn the pages fast enough. –Publishers Weekly (Starred Review) Are we talking plot twists? More like spirals. Gripping, clever, mind-bending stuff. –Daily Mail From the worldwide bestselling author of *Departure* and *Winter World* comes a standalone novel about a father and daughter trying to unravel an intricate murder mystery spread across time – with a jaw-dropping twist. Control the past. Save the future. One morning, Dr. Sam Anderson wakes up to find that the woman he loves has been murdered. For Sam, the horror is only beginning. He and his daughter are accused of the crime. The evidence is ironclad. They will be convicted. And so, to ensure his daughter goes free, Sam does what he must: he confesses. But in the future, murderers aren't sent to prison. Thanks to a machine Sam helped invent, the world's worst criminals are now sent to the past – approximately 200 million years into the past, to the dawn of the time of the dinosaurs – where they must live out their lives alone, in exile from the human race. Sam accepts his fate. But his daughter doesn't. Adeline Anderson has already lost her mother to a deadly, unfair disease. She can't bear to lose her father as well. So she sets out on a quest to prove him innocent. And to get him back. People around her insist that both are impossible tasks. But Adeline doesn't give up. She only works harder. She soon learns that impossible tasks are her specialty. And that she is made of tougher stuff than she ever imagined. As she peels back the layers of the mystery that tore her father from this world, Adeline finds more questions than answers. Everyone around her is hiding a secret. But which ones are connected to the murder that exiled her father? That mystery stretches across the past, present, and future – and leads to a revelation that will change everything.

Lost Time Jozef Czapski, 2018-11-06 The first translation of painter and writer Józef Czapski's inspiring lectures on Proust, first delivered in a prison camp in the Soviet Union during World War II. During the Second World War, as a prisoner of war in a Soviet camp, and with nothing but memory to go on, the Polish artist and soldier Józef Czapski brought Marcel Proust's *In Search of Lost Time* to life for an audience of prison inmates. In a series of lectures, Czapski described the arc and import of Proust's masterpiece, sketched major and minor characters in striking detail, and movingly evoked the work's originality, depth, and beauty. Eric Karpeles has translated this brilliant and altogether unparalleled feat of the critical imagination into English for the first time, and in a thoughtful introduction he brings out how, in reckoning with Proust's great meditation on memory, Czapski helped his fellow officers to remember that there was a world apart from the world of the camp. Proust had staked the art of the novelist against the losses of a lifetime and the imminence of death. Recalling that triumphant wager, unfolding, like *Sheherazade*, the intricacies of Proust's world night after night, Czapski showed to men at the end of their tether that the past remained present and there was a future in which to hope.

Four days later, the B-17 assigned to the search-and-rescue mission became lost in a blinding storm and also crashed. Miraculously, all nine men on board survived, and the US military launched a daring rescue operation. But after picking up one man, the Grumman Duck amphibious plane flew into a severe storm and vanished. *Frozen in Time* tells the story of these crashes and the fate of the survivors, bringing vividly to life their battle to endure 148 days of the brutal Arctic winter, until an expedition headed by famed Arctic explorer Bernt Balchen brought them to safety. Mitchell Zuckoff takes the reader deep into the most hostile environment on earth, through hurricane-force winds, vicious blizzards, and subzero temperatures. Moving forward to today, he recounts the efforts of the Coast Guard and North South Polar Inc.—led by indefatigable dreamer Lou Sapienza—who worked for years to solve the mystery of the Duck's last flight and recover the remains of its crew.
