**Cory Doctorow**

**With a Little Help** Cory Doctorow, 2015-07-16 With a Little Help is my first serious experiment in self-publishing. I've published many novels, short story collections, books of essays and so on with publishers, and it's all been very good and satisfying and educational and so on, but it seems like it's time to try something new. With a Little Help consists of 12 stories, all reprints except for Epoch (commissioned by Mark Shuttleworth).

All the Way from the Ground Up ,1970

Seeing Like a State James C. Scott, 2020-03-17 "One of the most profound and illuminating studies of this century to have been published in recent decades."—John Gray, New York Times Book Review Hailed as "a magisterial critique of top-down social planning" by the New York Times, this essential work analyzes disasters from Russia to Tanzania to uncover why states so often fail—sometimes catastrophically—in grand efforts to engineer their society or their environment, and uncovers the conditions common to all such planning disasters. "Beautifully written, this book calls into sharp relief the nature of the world we now inhabit."—New Yorker "A tour de force."— Charles Tilly, Columbia University

Twelve Years a Slave Solomon Northup, 2024-01-04 Filmatised in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Nortup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped,

sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

You in America Chimamanda Ngozi Adichie, 2006

*Java Programming: From The Ground Up* Ralph Bravaco, Shai Simonson, 2009-01-22 Java Programming, From The Ground Up, with its flexible organization, teaches Java in a way that is refreshing, fun, interesting and still has all the appropriate programming pieces for students to learn. The motivation behind this writing is to bring a logical, readable, entertaining approach

to keep your students involved. Each chapter has a Bigger Picture section at the end of the chapter to provide a variety of interesting related topics in computer science. The writing style is conversational and not overly technical so it addresses programming concepts appropriately. Because of the flexible organization of the text, it can be used for a one or two semester introductory Java programming class, as well as using Java as a second language. The text contains a large variety of carefully designed exercises that are more effective than the competition.

**Ribofunk** Paul Di Filippo, 2014-04-01 Tackling genetic engineering, “Di Filippo’s effervescent prose can provoke both hilarity and haunting reflections on our species’ possible fate” (Publishers Weekly). Ribofunk contains eleven masterful and surprising works of imagination. In all of them, biology is the science that drives the engine of life and of story: the Protein Police patrol for renegade gene-splicers; part-human sea creatures live in the Great Lakes and clean up toxic spills; a river has become sentient; there is a bodyguard who is part wolverine and a thrill-seeker climbs a skyscraper and gets stuck, literally.

**Naked Statistics: Stripping the Dread from the Data** Charles Wheelan, 2013-01-07 A New York Times bestseller Brilliant, funny...the best math teacher you never had. –San Francisco Chronicle Once considered tedious, the field of statistics is rapidly evolving into a discipline Hal Varian, chief economist at Google, has actually called sexy. From batting averages and political polls to

game shows and medical research, the real-world application of statistics continues to grow by leaps and bounds. How can we catch schools that cheat on standardized tests? How does Netflix know which movies you'll like? What is causing the rising incidence of autism? As best-selling author Charles Wheelan shows us in *Naked Statistics*, the right data and a few well-chosen statistical tools can help us answer these questions and more. For those who slept through Stats 101, this book is a lifesaver. Wheelan strips away the arcane and technical details and focuses on the underlying intuition that drives statistical analysis. He clarifies key concepts such as inference, correlation, and regression analysis, reveals how biased or careless parties can manipulate or misrepresent data, and shows us how brilliant and creative researchers are exploiting the valuable data from natural experiments to tackle thorny questions. And in Wheelan's trademark style, there's not a dull page in sight. You'll encounter clever Schlitz Beer marketers leveraging basic probability, an International Sausage Festival illuminating the tenets of the central limit theorem, and a head-scratching choice from the famous game show *Let's Make a Deal*—and you'll come away with insights each time. With the wit, accessibility, and sheer fun that turned *Naked Economics* into a bestseller, Wheelan defies the odds yet again by bringing another essential, formerly unglamorous discipline to life.

*Introductory Grammar of Amharic* Wolf Leslau, 2000  
This book closes the gap for beginners who want to study the Amharic language and had difficulties in

finding the right grammar for this purpose: The first grammar of Amharic, the national language of Ethiopia, was published by Hiob Ludolf in 1698. The Amharic grammar published by Praetorius in 1879 is based on Amharic religious texts and on scattered material, usually composed by missionaries. A milestone in the study of Amharic is Marcel Cohen's *Traite de langue amharique* (1936), but this grammar, too is not completely suited for beginners since the author's generalizations are at times aimed at linguists. The grammar that comes closest to the concept of a beginner's grammar is that of C.H. Dawkin (1960), yet this grammar is extremely short, does not give examples and does not introduce the student to the intricacies of the language. The new book gives all the grammatical forms and the sentences of the present grammar in Amharic script and in phonetic transcription. The illustrative examples have a free and a literal translation. This procedure should likewise prove to be useful for the Semitist as well as for the general linguist.

Son of a Son of a Gambler: Winners, Losers and What to Do When You Win the Lottery; A World with Gamblers, Kentuckians, Addicts, Cincinnati, Al G  
Don McNay, 2007-11-01 McNay reflects on the worlds of gambling, addiction, celebrities, and business, revealing a life through the prism of his childhood as the son of a professional gambler.

**New Hampshire Coastal and Tidal Areas** United States. Engineers Corps, 1965

*Travelling While Black* Nanjala Nyabola, 2021-02-01 What does it feel like to move through a world designed to limit and exclude you?

What are the joys and pains of holidays for people of colour, when guidebooks are never written with them in mind? How are black lives today impacted by the othering legacy of colonial cultures and policies? What can travel tell us about our sense of self, of home, of belonging and identity? Why has the world order become hostile to human mobility, as old as humanity itself, when more people are on the move than ever? Nanjala Nyabola is constantly exploring the world, working with migrants and confronting complex realities challenging common assumptions - both hers and others'. From Nepal to Botswana, Sicily to Haiti, New York to Nairobi, her sharp, humane essays ask tough questions and offer surprising, deeply shocking and sometimes funny answers. It is time we saw the world through her eyes.

Punk 57 Penelope Douglas, 2023-12-05 Secrets, deception, and passion consume two pen pals in the TikTok sensation from New York Times bestselling author Penelope Douglas, now with exclusive bonus material! They were perfect together. Until they met. In fifth grade, Misha's teacher set him and his classmates up with pen pals from a different school. For the next seven years, Ryen was his everything. She kept Misha on track and accepted him as he is. They only had three rules: No social media, no phone numbers, no pictures. There was no reason to ruin the good thing they had going...until Misha runs across a photo of a girl online named Ryen. He knows he has to meet her. But he didn't expect to hate what he finds. Ryen has gone three months without a letter from Misha. Did he die? Get arrested? Knowing Misha like she does, neither

would be a stretch. She needs to know someone is listening to her. But really, Ryen knows this is her own fault. She should've gotten his phone number, or picture, or something. As a mysterious vandal leaves messages in Ryen's school, she's possessed by the handsome new student who knows just how to hurt and heal her. But she can't stop thinking of Misha. He could be gone forever. Or right under her nose, and she wouldn't even know it...

Bringing Down the House Ben Mezrich, 2002-12-02  
The #1 national bestseller, now a major motion picture, 21—the amazing inside story about a gambling ring of M.I.T. students who beat the system in Vegas—and lived to tell how. Robin Hood meets the Rat Pack when the best and the brightest of M.I.T.'s math students and engineers take up blackjack under the guidance of an eccentric mastermind. Their small blackjack club develops from an experiment in counting cards on M.I.T.'s campus into a ring of card savants with a system for playing large and winning big. In less than two years they take some of the world's most sophisticated casinos for more than three million dollars. But their success also brings with it the formidable ire of casino owners and launches them into the seedy underworld of corporate Vegas with its private investigators and other violent heavies.

**The Lifebox, the Seashell, and the Soul: What Gnarly Computation Taught Me About Ultimate Reality, The Meaning of Life, And How to Be Happy**  
Rudy Rucker, 2016-10-31 A playful and profound survey of the concept of computation across the

entire spectrum of human thought-written by a mathematician novelist who spent twenty years as a Silicon Valley computer scientist. The logic is correct, and the conclusions are startling. Simple rules can generate gnarly patterns. Physics obeys laws, but the outcomes aren't predictable. Free will is real. The mind is like a quantum computer. Social strata are skewed by universal scaling laws. And there can never be a simple trick for answering all possible questions about our world's natural processes. We live amid splendor beyond our control.

**Pro Full-Text Search in SQL Server 2008** Hilary Cotter, Michael Coles, 2009-01-29 Businesses today want actionable insights into their data—they want their data to reveal itself to them in a natural and user-friendly form. What could be more natural than human language? Natural-language search is at the center of a storm of ever-increasing web-driven demand for human-computer communication and information access. SQL Server 2008 provides the tools to take advantage of the features of its built-in enterprise-level natural-language search engine in the form of integrated full-text search (iFTS). iFTS uses text-aware relational queries to provide your users with fast access to content. Whether you want to set up an enterprise-wide Internet or intranet search engine or create less ambitious natural-language search applications, this book will teach you how to get the most out of SQL Server 2008 iFTS: Introducing powerful iFTS features in SQL Server, such as the FREETEXT and CONTAINS predicates, custom thesauruses, and stop lists Showing you how to optimize full-text query

performance through features like full-text indexes and iFilters Providing examples that help you understand and apply the power of iFTS in your daily projects

**A Workbook for Arguments** David R. Morrow,Anthony Weston,2019-11-18 David Morrow and Anthony Weston build on Weston's acclaimed A Rulebook for Arguments to offer a complete textbook for a course in critical thinking or informal logic. Features of the book include: Homework exercises adapted from a wide range of actual arguments from newspapers, philosophical texts, literature, movies, YouTube videos, and other sources.Practical advice to help students succeed when applying the Rulebook's rules.Suggestions for further practice that outline activities students can do by themselves or with classmates to improve their critical thinking skills.Detailed instructions for in-class activities and take-home assignments designed to engage students in critical thinking.An appendix on mapping arguments, a topic not included in the Rulebook, that introduces students to this vital skill in evaluating or constructing complex and multi-step arguments.Model responses to odd-numbered exercises, including commentaries on the strengths and weaknesses of selected model responses as well as further discussion of some of the substantive intellectual, philosophical, and ethical issues raised by the exercises. The third edition of Workbook contains the entire text of the recent fifth edition of the Rulebook, supplementing this core text with extensive further explanations and exercises. Updated and improved homework exercises

ensure that the examples continue to resonate with today's students. Roughly one-third of the exercises have been replaced with updated or improved examples. A new chapter on engaging constructively in public debates—including five new sets of exercises—trains students to engage respectfully and constructively on controversial topics, an increasingly important skill in our hyper-partisan age. Three new critical thinking activities offer further opportunities to practice constructive dialogue.

Woodswoman Anne LaBastille, 1991-10-11 Ecologist  
Anne LaBastille created the life that many people dream about. When she and her husband divorced, she needed a place to live. Through luck and perseverance, she found the ideal spot: a 20-acre parcel of land in the Adirondack mountains, where she built the cozy, primitive log cabin that became her permanent home. Miles from the nearest town, LaBastille had to depend on her wits, ingenuity, and the help of generous neighbors for her survival. In precise, poetic language, she chronicles her adventures on Black Bear Lake, capturing the power of the landscape, the rhythms of the changing seasons, and the beauty of nature's many creatures. Most of all, she captures the struggle to balance her need for companionship and love with her desire for independence and solitude. *Woodswoman* is not simply a book about living in the wilderness, it is a book about living that contains a lesson for us all.

*Silent Sales Machine 10.0* Jim Cockrum, 2017-08-11  
This all time top seller is now in it's 10th major update (Fall 2017). As one of the most read

Internet business success books of all time, Jim is committed to keeping it up to date and always full of the most cutting edge ideas. Multiple online business strategies are documented as the author advises everyone from newbies to seasoned professionals on what does and doesn't work in the world on online business and Internet marketing. You, the reader, will learn to establish multiple automated income streams using proven, creative concepts with numerous examples given. Topics covered include: Selling on Amazon.com, creative uses of eBay, finding and growing a loyal audience online, social marketing, automating your online efforts, effective email marketing and multiple real life success stories from his ever growing audience of creative and successful online entrepreneurs. BONUS: Buyers get full free access to Jim's \$97 email marketing course (see Section 3's Action Steps for the link!)
