Painters of Reality Andrea Bayer, Mina

Gregori, Metropolitan Museum of Art (New York, N.Y.), 2004

Largely as a result of Leonardo's innovative work for the Sforza court in Milan, a rich vein of naturalism developed in North Italian art during the late fifteenth century.

Questioning the strongly classicizing, idealized style dominant in areas south of the Apennines, artists in the region of Lombardy turned to an investigation of the natural world based on direct observation and adherence to strict visual truth. This heritage of realism continued to be of key importance for more than two hundred years, finding its greatest expression in the art of Caravaggio and eventually influencing the course of Baroque painting throughout Europe. Religious scenes, portraits, and landscapes were all transformed by this new naturalism, which also spurred an interest in still lifes and genre scenes as subjects for paintings. *Painters of Reality*, titled after an influential exhibition held in Milan more than fifty years ago, is the first study in English of this major aspect of Italian art.

Reexamining the subject in light of copious subsequent scholarship, the authors of this volume contribute major essays that define and discuss naturalism as it appeared in both Lombard paintings and drawings. There is also a fresh consideration of the Northern Italian predecessors whose influence is apparent, either directly or indirectly, in the paintings of Caravaggio. More detailed discussions of the subject center on the precise elements that constituted Leonardo's hypernaturalism; the important schools of painting that arose in Brescia, Bergamo, Cremona, and Milan; and Caravaggio's most notable successors in northern Italy, who kept Lombard realism alive into the eighteenth century. Map, artists' biographies, bibliography, and index are also included -- Metropolitan Museum of Art

Dork Evan Dorkin, 2018-07-31 From the multi-Eisner award-winning creator of *Milk and Cheese* and *Beasts of Burden* comes this collection of his cult, humor comic anthology. Comprising years of black humor stories about a living voodoo doll, a serial killer sitcom, truly real live sex, a disco skinhead, an urbane devil puppet, classic works of literature acted out by Fisher-Price toys, and more absurdity--this is a must have for Dorkin fans! Featuring most of the Dork comic run as well as the 2012 full-color House of Fun special, along with rarities, extras, a cover gallery, and a newly drawn introduction.

Giovan Battista Moroni Simone Facchinetti, Arturo Galansino, 2014-12-30 Acclaimed by some as one of the best portraitists of all time, Italian painter Giovan Battista Moroni (1522-1579) created penetrating images of the aristocracy of Bergamo, in which the sitters often gaze at the spectator with an unflinching directness. Admired in Italy since the 16th century, when Titian is said to have praised his portraits, Moroni did not achieve an international reputation until the 19th century and remains relatively little known. This handsome catalog encompasses Moroni's entire career. It includes portraits of all formats and styles, demonstrating not just Moroni's brilliance at capturing the elegance of his sitters and the fashions of the time, but also his realistic representation of Bergamo's society, which became a model for Caravaggio. The volume also includes Moroni's religious paintings, which also incorporate highly accomplished likenesses of their patrons, once again showing the striking psychological insight for which Moroni is acclaimed. Arturo Galansino, curator at the Royal Academy of Arts, has also curated exhibitions for the Louvre and the National Gallery, London. Simone Facchinetti is curator at the Museo Diocesano in Bergamo.

Supplement to the Official Journal of the European Communities ,1996-03

The Portrait in the Renaissance John Pope-Hennessy,2023-10-17 A major account of Renaissance portraiture by one of the twentieth century's most eminent art historians In this book, John Pope-Hennessy provides an unprecedented look at two centuries of experiment in portraiture during the Renaissance. Pope-Hennessy shows how the Renaissance cult of individuality brought with it a demand that the features of the individual be perpetuated, a concept first manifested in the portraits that fill the great Florentine fresco cycles and led, later in the fifteenth century, to the creation of the independent portrait by such artists as Sandro Botticelli, Antonio del Pollaiuolo, Giovanni Bellini, and Antonello da Messina. Pope-Hennessy goes on to describe the process by which Titian and the great artists of the High Renaissance transformed the portrait from a record of appearance into an analysis of character.

Bart Simpson's Guide to Life Matt Groening,1996 Move over Emily Post--America's favorite bad boy, Bart Simpson, has written his very own self-help book and etiquette manual. Filled with unscientific charts, colorful diagrams, questionable facts, and many other unique features.

I Will Fear No Evil Robert A. Heinlein,1987-04-15 The brilliantly shocking story of the ultimate transplant from New York Times bestselling author Robert A. Heinlein. As startling and provocative as his famous *Stranger in a Strange Land*, here is Heinlein's awesome masterpiece about a man supremely talented, immensely old and obscenely wealthy who discovers that money can buy everything. Even a new life in the body of a beautiful young woman. Once again, master storyteller Robert A. Heinlein delivers a wild and intriguing classic of science fiction.
