Lotus Elise and Exige 1995-2020 Johnny Tipler,2021-04-26 Named after Elisa, the granddaughter of Lotus's owner at the time, Romano Artioli of Bugatti fame, the Lotus Elise was launched at the Frankfurt Show in 1995. In the subsequent twenty-five years it has not only established itself as the embodiment of what Lotus stands for, it retains a unique place in the international sports car market. No other manufacturer came up with a car to seriously rival the Elise, nor the Exige, in terms of handling dexterity on both road and racetrack, and it aptly characterizes the definition of a sports car. Written in Johnny Tipler's inimitable style this book includes a detailed evolution of the Elise and Exige, including full specification tables; interviews with key individuals involved in their design and development, including Richard Rackham, Gavan Kershaw, Neil Thomas, Russell Carr, Barney Hatt and Andy Pleavin; Elisa Artioli on her namesake, its past and future; motor sport adaptations and successes and finally, driving experiences on road and track. The production of the Elise and Exige was sustained through four corporate upheavals. Now in Geely ownership, the future for Lotus looks bright.

Lotus Johnny Tipler,2022-01-24 From the Mark 1 in 1948 to the World's most powerful electric hypercar – the Evija – in 2021, the story of the Lotus marque encompasses ongoing technical innovation on road and track. With over 380 photographs, this book includes: the origins of the business, creating Austin 7-based competition cars; the metamorphosis from sports-racing cars to F1 – and seven World titles; factory relocations, from Hornsey to Cheshunt to Hethel; the road cars: the Elite, Elan, Europa, Excel, Esprit, Elise, Exige and Evora; how sponsorship transformed traditional British Racing Green into Gold Leaf and JPS livery. There are also interviews with key Lotus personnel and drivers.

Lotus and Caterham Seven John Tipler,2005-10-21 The original Lotus Seven was the product of pure engineering genius. Forty years on, it continues to encapsulate the Lotus founder's ideals for an affordable sports racer: it makes few compromises, yet is equally at home on the road as on the track and it can be built by a mechanical novice. This book chronicles the saga of the Lotus Seven including the Series 2 and 3 during the 1960s - when it won fame in The Prisoner TV series. Caterham continues to build the Super Seven and John Tipler shows how the various structural components of the car are manufactured, and interviews key figures in the Seven's evolution.

Lotus Esprit Jeremy Walton,2006-04-01 Lotus Esprit: The Official Story is the inside story of Britain's best loved supercar from it's development in the early 1970's right through to the 21st century. That the Esprit ever appeared in the showroom, never mind set a record for British sportscar continuous production from 1976-2004, is a story straight from the Lotus era. How Colin Chapman labored alongside Italian designer and fellow genius Giorgetto 'Giorgio' Giugiaro to bring the first show Esprits to life, is just one of the stories unveiled by Jeremy Walton's research. The Esprit, in all its Lotus Type numbers and derivatives from the very first Type 79 onwards, is revealed in this seriously comprehensive book. A total of under 11,000 Esprits were made in it's 28 year production span, which means that some models had production numbers of less than 100 and have therefore become extremely collectable. Supremely agile and rapid Esprits such as the Sport 300 and V8 350 are examined in all their 160 to 175 mph glories - along with the race track inspired Esprit Turbo SCCA, X180R and Type 114 Esprit GT1. As with Walton's acclaimed Lotus Elise title for Coterie, this conscientious Esprit production was enabled only by the full co-operation of Lotus Cars. Once again they gave frank access to their archives as well as their employees. Lotus Esprit The Official Story contains the reminisces of the loyalists and the youngsters who added to their growing reputations when involved in the concept and design of the Esprit, many who are now famous industry figures following a Lotus apprenticeship. The author's trusted participation at every stage in the Esprit's long life is reflected by the openness of all involved. They tell us the real stories behind the car, leaving us with hope of an innovative new Esprit before too long.

CLP Fast Track Tony Aveyard,Jay Forlini,Karen Fishwick,2000 Covering all three of the new system administration exams required by the recently restructured Lotus certification program, this guide is marketed toward the many

Lotus Evora Johnny Tipler,2012-06-15 Every fascinating stage of the evolution of the stunning new Lotus Evora is explored in this fully comprehensive book, LOTUS EVORA - SUBLIME SUPERCAR. From its conception, through development, prototype testing, certification, production and on to the marketing of the car, every part of this captivating story is covered in depth. Produced with the full co-operation of Lotus Cars, who once again gave Coterie Press exclusive access to their photo archives as well as their employees, this book contains the reminiscences of virtually everyone involved in the concept, design and development of the Evora. Author Johnny Tipler was the only journalist invited to see and drive the Evora before it was launched to the press and public. With unprecedented access and surprising candor, he is able to describe in detail all of the development stages, through to the construction of the first production examples, culminating in the car's press debut in Scotland. His close involvement with Lotus, and their obvious enthusiasm for the Evora project, is reflected by the openness of all involved who tell him the full story behind this stunning new car.

The Lotus Quest Mark Griffiths,2010-07-06 A story of one of the world's most iconic flowers documents the author's research into the lotus's ancient origins and historical significance in various world regions, tracking its medicinal uses, inspiration in art and role as a spiritual symbol

Lost Road Courses Martin Rudow,2016-07-15 Road racing has long-storied roots in North America that reach from coast to coast and to Canada. Some of the greatest drivers to ever compete raced wickedly fast machines, staged epic duels on winding strips of asphalt, and created history. This history left an enduring legacy that is revealed and celebrated in Lost Road Courses. Road racer and road racing expert Martin Rudow retraces road racing's glorious past and visits the defunct classic road courses across the United States and Canada. Many road courses were built in the 1950s and 1960s, the golden age of American road racing. These classic road courses built and hosted famous races for Trans-Am, Can-Am, IndyCar, Formula 1, and sports car racing, but did not survive the times. They fell victim to changing times, poor business decisions, urban sprawl, safety standards, and increasing real estate prices. Rudow recounts the breathtaking races and fascinating history of more than 16 tracks from around North America. Riverside International Raceway, Bridgehampton Race Circuit, Ontario Motor Speedway, Continental Divide Raceway, and many others were once major race venues that have since closed. The great race teams, legendary drivers, classic race series that visited the tracks, and cars that turned laps are brought into full focus. The exploits of Chaparral, McLaren, Bud Moore, Lotus, Penske, and other race teams as well as racing greats Mario Andretti, Parnelli Jones, Jim Hall, A. J. Foyt, Al Unser, Jim Clark, and Dan Gurney are covered. Rudow also digs beneath the surface to reveal the story behind the story. The visionaries and businessmen who saw potential and risked capital to build these palaces of speed come back to life. He also recognizes the unsung heroes and regional racers who competed, staffed, and took on various roles at these tracks.

In the pages of this book, a nostalgic tour of these famous races at these vintage road circuits unfolds. Many period photos illustrate the racing action and the tracks themselves in their former glory, and modern color shows the tracks as they currently stand. If you're a fan of classic sports car, Can-Am, Trans-Am, IndyCar, Formula 1, as well as classic and unique tracks of yesteryear, this book is a must-have.

Lotus 72 Pete Lyons,2019-03-26 This book, the first in Evro's new Formula 1 Greats series, covers one of the most revered Formula 1 cars ever made. Introduced in 1970, the wedge-shaped Lotus 72 competed for six seasons, winning 20 World Championship Grands Prix, two Drivers' titles (for Jochen Rindt in 1970 and Emerson Fittipaldi in 1972) and three Constructors' titles (in 1970, 1972 and 1973), racing first in Lotus's evocative red, white and gold livery, then the equally eye-catching black and gold of the John Player Special period. Pete Lyons, Autosport's renowned Formula 1 reporter for part of the Lotus 72 era, explores the car's entire race-by-race career in his insightful commentary accompanying a magnificent array of more than 300 photos. The 1970 season: after troubled early development, the 72 finally took over from the long-serving 49, its four consecutive race wins enough to secure the World Championship for Jochen Rindt, posthumously after his death during practice for the Italian Grand Prix. The 1971 season: with promising youngster Emerson Fittipaldi elevated to team leader after Rindt's death, great things were expected of the 72's second season but it proved to be winless. The 1972 season: now in black and gold John Player livery, the 72 became far more competitive and Fittipaldi's four Grand Prix victories made him World Champion. The 1973 season: Ronnie 'SuperSwede' Peterson joined Fittipaldi to form a dream team and together they won seven races, but because Lotus's spoils were divided between the two drivers Jackie Stewart was able to come through to become World Champion. The 1974 season: still the 72 soldiered on, now as the fall-back car after its successor, the 76, failed to deliver; partnered by Jacky Ickx, Peterson won three Grands Prix. The 1975 season: well beyond its sell-by date, the 72 did a final season but by now it was far from effective, with Ickx's second place in the tragic Spanish Grand Prix its best result.
