Living Out Loud Larry Gross,2009-06 From bus rides to bars, to encounters with friends and family and most importantly with strangers, Larry Gross lives his life out loud by drawing on the small slices of life, the little things most people don't notice. "There is no artifice in Gross's art. What distinguishes his writing is his knack for seeing and hearing things worth remembering. His pastiche draws on the commonality of urban life, with many of his stories set in downtown bars or on the buses that take him there. The main character is No One Special, a person who appears in various guises, capable of both unfettered generosity and burdensome peevishness." Gregory Flannery, Managing Editor, Streetvibes

Religion Out Loud Isaac Weiner, 2013-12-09 For six months in 2004, controversy raged in Hamtramck, Michigan, as residents debated a proposed amendment that would exempt the adhan, or Islamic call to prayer, from the city's anti-noise ordinance. The call to prayer functioned as a flashpoint in disputes about the integration of Muslims into this historically Polish-Catholic community. No one openly contested Muslims' right to worship in their mosques, but many neighbors framed their resistance around what they regarded as the inappropriate public pronouncement of Islamic presence, an announcement that audibly intruded upon their public space. Throughout U.S. history, complaints about religion as noise have proven useful both for restraining religious dissent and for circumscribing religion's boundaries more generally. At the same time, religious individuals and groups rarely have kept quiet. They have insisted on their right to practice religion out loud, implicitly advancing alternative understandings of religion and its place in the modern world. In *Religion Out Loud*, Isaac Weiner takes such sonic disputes seriously. Weaving the story of religious "noise" through multiple historical eras and diverse religious communities, he convincingly demonstrates that religious pluralism has never been solely a matter of competing values, truth claims, or moral doctrines, but of different styles of public practice, of fundamentally different ways of using body and space—and that these differences ultimately have expressed very different conceptions of religion itself. Weiner's innovative work encourages scholars to pay much greater attention to the publicly contested sensory cultures of American religious life. In the *North American Religions* series Isaac Weiner is Assistant Professor of Religion and Culture in the Department of Comparative Studies at the Ohio State University.

Extremely Loud Juliette Volcser, 2015-06-02 "Everything you ever suspected or feared about music as a weapon, sound as torture . . . Disturbingly illuminating in the possible ramifications" (Kirkus Reviews). In this troubling and wide-ranging account, acclaimed journalist Juliette Volcser looks at the long history of efforts by military and police forces to deploy sound against enemies, criminals, and law-abiding citizens. During the 2004 battle over the Iraqi city of Fallujah, US Marines bolted large speakers to the roofs of their Humvees, blasting AC/DC, Eminem, and Metallica songs through the city's narrow streets as part of a targeted psychological operation against militants that has now become standard practice in American military operations in Afghanistan. In the historic center of Brussels, nausea-inducing sound waves are unleashed to prevent teenagers from lingering after hours. High-decibel, "nonlethal" sonic weapons have become the tools of choice for crowd control at major political demonstrations from Gaza to Wall Street and as a form of torture at Guantanamo and elsewhere. In an insidious merger of music, technology, and political repression, loud sound has emerged in the last decade as an unlikely mechanism for intimidating individuals as well as controlling large groups. "Thorough and well researched," *Extremely Loud* documents and interrogates this little-known modern phenomenon, exposing it as a sinister threat to the peace and quiet that societies have traditionally craved (Publishers Weekly). "Extremely Loud makes you shiver, or cover your ears, at the technological buildup now at the service of the most sophisticated forms of repression." —Libération
