Dating from the Inside Out Paulette Kouffman Sherman, 2008-02-19 Dr. Sherman's methods have worked for her clients and even herself. Now with her help, find the perfect match for you! Each of us deserves to love and be loved in return. How can you find real, deep, and lasting love in a world that appears so superficial? Rather than looking at the world of dating like an obstacle course to be conquered, Dr. Paulette Kouffman Sherman shows that it can become an enlightening journey toward love that begins from within. By examining past experiences, understanding family dynamics, and exploring the place of spiritual connection in the dating world, Dr. Sherman illuminates the path to self-awareness -- the path that leads to the kind of real love you have been searching for. Finding your dating style and the set of beliefs you hold about your self-worth liberates you from just spinning your wheels and repeating mistakes. Dr. Sherman shows how we can become the partner we wish to attract, and asserts that anyone can learn how to truly let go of their past, embrace the present, and use the Law of Attraction to draw in a partner who is perfect for who you are -- without pretending to be someone you're not.

Modern Trends in Islamic Theological Discourse in 20th Century Indonesia Fauzan Saleh, 2001 This book provides new information about the development of Indonesian Muslims' thinking on issues of theology. Shades of Difference Evelyn Nakano Glenn, 2009-01-23
Shades of Difference addresses the widespread but little studied phenomenon of colorism—the preference for lighter skin and the ranking of individual worth according to skin tone. Examining the social and cultural significance of skin color in a broad range of societies and historical periods, this insightful collection looks at how skin color affects people's opportunities in Latin America, Asia, Africa, and North America. Is skin color bias distinct from racial bias? How does skin color preference relate to gender, given the association of lightness with desirability and beauty in women? The authors of this volume explore these and other questions as they take a closer look at the role Western-dominated culture and media have played in disseminating the ideal of light skin globally. With its comparative, international focus, this enlightening book will provide innovative insights and expand the dialogue around race and gender in the social sciences, ethnic studies, African American studies, and gender and women's studies.

Project Everlasting Mathew Boggs, Jason Miller, 2007-06-05 A heartwarming and revealing look at the wisdom drawn from successful marriages and the secrets to making love last, not from Ph.D.s or therapists but from more than 200 real couples who have walked the walk to more than forty years of marriage. Jaded by his parents' divorce, Mathew Boggs was a young man who'd lost all belief in lifelong love. After observing his grandparents who were madly in love after sixty-three years of marriage, Mat talked his best friend Jason into joining him on a cross-country search for

America's greatest marriages. The two bumbling bachelors jumped in an RV and embarked on Project Everlasting, a 12,000-mile cross-country adventure to discover what it takes to make love last. Each chapter of Project Everlasting is dedicated to one of the pressing questions the bachelors asked the couples, such as: —How do you know you've found The One? —What's missing from today's marriages? —How do you keep the romance alive? —What's the most important ingredient for a solid marriage? As the traveled the country, meeting happy couples from all walks of life, Mat and Jason began to understand why their own relationships hadn't worked out quite as planned. They also realized that what they were learning from their wise new friends could change everything for them and—through Project Everlasting—show their generation and generations to come how to build a marriage to last.

Healthy Meals for Healthy Kids Catherine Atkinson, 2008

Eating healthily is now recognised as one of the best ways of keeping in good shape and ensuring a happier, longer life. Children who eat a healthy varied diet are more likely to be full of energy, suffer fewer illnesses and concentrate better at school. Children grow rapidly between the ages of five and twelve, so they need a good supply of nutrients, especially protein, calcium and iron. Encouraging good food habits from an early age could have a significant effect on health throughout adolescence and in later life. However, making sure that kids eat healthily is not always easy, and good intentions can often fall by the wayside. Healthy Meals for Healthy Kids focuses on a way of eating that is about adding healthy foods to your diet, rather than denying yourself the things you love. The recipes in this book are about striking a balance between healthy eating and foods that children enjoy. Eating well shouldn't mean boring meals or denying treats, but providing a diet that is healthy and varied, as well as delicious. The chapters cover healthy breakfasts, lunches and snacks, main meals, pasta and grains and desserts and cakes. Each recipe has a

nutritional note, highlighting the benefits of a particular ingredient, and there will be useful tips and variations throughout

Intel Inside New Mexico SouthWest Organizing Project, 1995 INTEL INSIDE documents the growth of the electronics industry in New Mexico & focuses on the growth of computer chip giant Intel Corporation & its largest & most profitable chip factory near Albuquerque. Attracted to this southwestern desert state by low wages, weak regulatory enforcement, generous public subsidy, & - - amazingly -- cheap water, high-tech companies have left sick workers & contaminated air & water in their wake. INTEL INSIDE tells the story of the siting of Intel's FAB 11 Pentium chip plant in New Mexico & the company's instigation of a bidding war for the new facility between New Mexico & the other states. The book is highly critical of economic development decision making in this era of free trade -- including the inability of local & state governments to look at long term environmental & economic implications of their decisions. A final section of INTEL INSIDE speaks to the need for communities to define for ourselves what development is sustainable, & lists recommendations for governments, communities & the industry. Nine and a Half Weeks Elizabeth McNeill, 2014-07-01 The classic erotic memoir of an intense and haunting relationship that spawned the film. This is a love story so unusual, so passionate, and so extreme in its psychology and sexuality that it takes the reader's breath away. Unlike *The Story of O*, *Nine and a Half Weeks* is not a novel or fantasy; it is a true account of an episode in the life of a real woman. Elizabeth McNeill was an executive for a large corporation when she began an affair with a man she met casually. From the beginning, their sexual excitement escalates through domination and humiliation. As the affair progresses, woman and man play out ever more dangerous and more elaborate sado-masochistic variations. By the end, she has relinquished all control over her body and mind. With a cool detachment that makes the experiences and sensations she describes all the more frightening in their intensity, Elizabeth McNeill beautifully unfolds her story and invites you to experience the mesmerizing, electrifying, and unforgettably private world of *Nine and a Half Weeks*.

Bitcoin Manifesto: ONE CPU ONE VOTE Satoshi Nakamoto, 2014-12-10 Original annotated and commented edition of the masterpiece of the mysterious Satoshi Nakamoto, inventor of Bitcoin, the digital currency on everyone's lips. However, few noticed that the innovative power of Bitcoin is not strictly financial,

but it fundamentally impacts the creation of political consensus, by transforming it into a technological mechanism. Exactly for this reason, the present edition is enriched by a critical apparatus that should make possible, even for the less tech-savvy reader, to comprehend and reflect on such a key phenomenon of our times.
