Cantonese Society in Hong Kong and Singapore

Marjorie Topley, Jean DeBernardi, 2011-01-01 The volume collects the published articles of Dr. Marjorie Topley, who was a pioneer in the field of social anthropology in the postwar period and also the first president of the revived Hong Kong Branch of the Royal Asiatic Society. Her ethnographic research in Singapore and Hong Kong set a high standard for urban anthropology, and helped creating the fields of religious studies, migration studies, gender studies, and medical anthropology, focusing on topics that remain current and important in the disciplines. The essays in this collection showcase Dr. Topley's groundbreaking contributions in several areas of scholarship. These include "Chinese Women's Vegetarian Houses in Singapore" (1954) and "The Great Way of Former Heaven: A Group of Chinese Secret Religious Sects" (1963), both important research on the study of subcultural groups in a complex urban society; "Marriage Resistance in Rural Kwangtung" (1978), now a classic in Chinese anthropology and women's studies; her widely known and cited article, "Cosmic Antagonisms: A Mother-Child Syndrome" (1974), which investigates widely shared everyday practices and cosmological explanations that Cantonese mothers invoked when they encountered difficulties in child-rearing; and "Capital, Saving and Credit among Indigenous Rice Farmers and Immigrant Vegetable Farmers in Hong Kong's New Territories" (2004 [1964]).

Secularization in the Long 1960s Clive D. Field, 2017 Secularization in the Long 1960s: Numerating Religion in Britain provides a major empirical contribution to the literature of secularization. It moves beyond the now largely

sterile and theoretical debates about the validity of the secularization thesis or paradigm. Combining historical and social scientific perspectives, Clive D. Field uses a wide range of quantitative sources to probe the extent and pace of religious change in Britain during the long 1960s. In most cases, data is presented for the years 1955-80, with particular attention to the methodological and other challenges posed by each source type. Following an introductory chapter, which reviews the historiography, introduces the sources, and defines the chronological and other parameters, Field provides evidence for all major facets of religious belonging, behaving, and believing, as well as for institutional church measures. The work engages with, and largely refutes, Callum G. Brown's influential assertion that Britain experienced 'revolutionary' secularization in the 1960s, which was highly gendered in nature, and with 1963 the major tipping-point. Instead, a more nuanced picture emerges with some religious indicators in crisis, others continuing on an existing downward trajectory, and yet others remaining stable. Building on previous research by the author and other scholars, and rejecting recent proponents of counter-secularization, the long 1960s are ultimately located within the context of a longstanding gradualist, and still ongoing, process of secularization in Britain.

For Gods, Ghosts and Ancestors Janet Lee Scott, 2007-05-01 Offerings of various kinds - food, incense, paper money and figures - have been central to Chinese culture for millennia, and as a public, visual display of spiritual belief, they are still evident today in China and in Chinatowns around the world. Using Hong Kong as a case study, Janet Scott looks at paper offerings from every conceivable angle - how they are made, sold, and used. Her comprehensive investigation touches on virtually every aspect of Chinese popular religion as it explores the many forms of these intricate objects, their manufacture, their significance, and their importance in rituals to honor gods, care for ancestors, and contend with ghosts. Throughout *For Gods, Ghosts and Ancestors*, paper offerings are presented as a vibrant and living tradition expressing worshippers' respect and gratitude for the gods, as well as love and concern for departed family members. Ranging from fake paper money to paper furniture, servant dolls, cigarettes, and toiletries - all multihued and artfully constructed - paper offerings are intended to provide for the needs of those in the spirit world. Readers are introduced to the variety of paper offerings and their uses in worship, in assisting worshippers with personal

difficulties, and in rituals directed to gods, ghosts, and ancestors. We learn of the manufacture and sale of paper goods, life in paper shops, the training of those who make paper offerings, and the symbolic and artistic dimensions of the objects. Finally, the book considers the survival of this traditional craft, the importance of flexibility and innovation, and the role of compassion and filial piety in the use of paper offerings.

The 'Empty' Church Revisited Robin

Gill, 2017-07-05 When did churches start to appear more empty than full - and why? The very physicality of largely empty churches and chapels in Britain plays a powerful role in popular perceptions of 'religion'. Empty churches are frequently cited in the media as evidence of large scale religious decline. The 'Empty' Church Revisited presents a systematic account of British churchgoing patterns over the last two hundred years, uncovering the factors and the statistics behind the considerable process of decline in church attendance. Dispelling as myth the commonly held views that the process of secularization in British culture has led to the decline in churchgoing and resulted in the predominantly

empty churches of today, Gill points to physical factors, economics and issues of social space to shed new light on the origins of empty churches. This thoroughly updated edition of Robin Gill's earlier work, *The Myth of the Empty Church*, presents new data throughout to explore afresh the paradox of church building activity in a context of decline, the patterns of urbanisation followed by sub-urbanisation affecting churches, changes in patterns of worship, and changes within the sociology of religion in the last decade.
