DEBBIE NOTKIN, THE SECRET FEMINIST CABAL

- 🔍 **An Exploration of Space 1999 Through the Lens of Video Games: Payne 1999** John K. Balor,2019-07-02 This book contains transcripts from Online Alpha discussions where the video game PAYNE 1999, game theory and game-study theories are used for analysing and commenting on problems of conflict and cooperation in SPACE 1999. The discussions build on more than a decade of conversations and debate about PAYNE 1999, and the aim of the book is to put the various threads together while also developing new ideas and providing direction for further investigations. The book has been developed on an idealistic basis, and it is sold at the lowest price the publisher was willing to accept. - 🔍 **Is The Universe An App? Exploring the Physics of Awareness** Andrea Diem-Lane,David Lane,
- 🔍 **Exploring the Conscious Self**J.L. Harter,2014-10-04 For the serious student of life here in the Earth School, this work may help you push your own boundaries of beliefs, perceptions and assumptions and lead you into a deeper course of inquiry within the heart and soul of you. It’s in large part why you are here. So, I’ve gathered together three works that explore different aspects of consciousness with a small c and along with painting a different perspective of the big C in terms of the Cosmic Consciousness, Source or God, however it is you might like to reference it. It is my contribution towards helping to create that little instruction book we all could use. It is my greatest hope that you might find something of value, something to make you think or something that might give you pause to realize you are so much more than you’ve been taught by conventional religion and various courses of earliest teachings from elementary school and beyond.
- 🔍 **The Lost Daughter**Mary Williams,2013-04-09 “I always hoped [Mary Williams] would tell her incredible story. She’s a writer of uncommon clarity and humor, and the arrival of her memoir is cause for celebration. —Dave Eggers, author of *What Is the What* As she grew up in 1970s Oakland, California, role models for Mary Williams were few and far between: her father was often in prison, her older sister was a teenage prostitute, and her hot-tempered mother struggled to raise six children alone. For all Mary knew, she was heading down a similar path. But her life changed when she met Jane Fonda at summer camp in 1978. Fonda grew attached to the bright girl and eventually invited her to become part of her family, becoming the mother Mary never had. Mary’s life since has been one of adventure and opportunity—from hiking the Appalachian Trail solo, working with the Lost Boys of Sudan, and living in the frozen reaches of Antarctica. Her most courageous trip, though, involved returning to Oakland and reconnecting with her biological mother and family, many of whom she hadn’t seen since the day she left home. *The Lost Daughter* is a chronicle of her journey back in time, an exploration of fractured family bonds, and a moving epic of self-discovery.

This definitive study includes case histories from around the world, as well as intriguing theories about the relationship between body and soul - from general social beliefs about past lives to detailed questions about karma and past-life regression therapy. An outstanding introduction to reincarnation from a historical, scientific, and philosophical point of view. Exploring Reincarnation is the now classic panorama on reincarnation ideas and experiences.

- 🔍 **Only Connect ... Discovery Pathways, Library Explorations, and the Information Adventure** Andrew Walsh,Emma Coonan,2013 Librarians, learning support and academic staff could benefit from knowing more about the pathways that learners take through academic information: how they perceive, model and negotiate the information environment. With a richer understanding of our learners’ individual journeys, we can make our interventions more relevant and more timely; we can structure our courses to allow pathfinding to develop; and we can help our learners to navigate reflectively through the sea of information. We present a range of information discovery journeys, from reflections upon formal search processes to a library fairy story. This book represents the richness of information discovery.
- 🔍 **Exploring Mantric Ayurveda: Secrets and Insights of Mantra-Yoga and Healing** Durgadas (Rodney) Lingham,2013-11-03 This book explores the ancient and deeper aspects of Mantric Ayurveda and the secrets of the ancient Tantric Tradition of Ayurveda that Mantra-Yoga forms an integral aspect of. Here one learns the traditional considerations before using mantras as well as special rituals for protection, energisation of deities, gemstones and working with the deities on an inner level for healing applications.
- 🔍 **God and I: Exploring the Connections Between God, Self and Ego** Philip St. Romain,2014-06-06 What do we mean when we use the terms God, Self and Ego? To what experiences do these terms point? What are the relationships between them? This book by Philip St. Romain, M.S., D. Min., goes beyond semantics to provide an experiential approach to understanding God, Self and Ego. It also situates this understanding in an anthropology that will be agreeable to most psychologists and Christian spiritual directors. Different zones of intimacy between God, Self and Ego are identified, each with differing requirements.
- 🔍 **Mirage** Bandula Chandraratna,2003 Set in a closed desert kingdom in our own times, it tells how Sayeed, a good but unexceptional man, finds love with a woman who would have been beyond his reach had not poverty and widowhood brought her low. The scene is set with unpretending tenderness: the hospital where Sayeed works, the kindness of his friends, the struggle to make a decent home for his new wife Latifa and her child, the bustle of his brother’s home, the simple wedding. Heat, dirt and squalor are the backdrop to the tragedy, Latifa, confused and far from home, the terrified victim. Petty jealousy, sexual desire and religious fervour combine to bring her down and to leave the reader stunned.
- 🔍 **The Scientism Delusion Techno Mysticism And Techno Spiritual Warfare Exploring the Connections Between Scientism and Luciferianism** Gregory Garrett,2018-02-14 This enthralling page turner breaks all the molds, and fearlessly exposes the deepest darkest intrigue in history...The Luciferian Agenda for a New World Order. In it, we learn of the Luciferian roots of modern science, as the reader is transported back in time to the insidious origins of modern-day scientism, the current religion of most scientists today. Through an excursion into the roots of scientism, Mr. Garrett deftly retraces the historical antecedents of scientism, echoing back to The Secret Mystery Schools of Kabbalistic, Egyptian Hermeticism, onwards into the true nature of Freemason and Alchemical Occultist, Sir Isaac Newton, and then further into the nefarious Vatican Jesuit Priesthood, whose hidden hand can be linked to the creation of The Illuminati, as well as the current Luciferian New Age Religion. Finally, the serpentine path leads up into modern Freemasonic Luciferian, NASA, and then to The Jesuit Controlled Alien Deception about to take hold of the world. --Christian Chesterfield Ph.D.
- 🔍 **Return to the Fountainhead of the Faith: Explore World Ideologies, Church History & Christianity’s Jewish Roots: Second Revised Edition** Shelley Wood Gauld,
- 🔍 **On Vision and Being Human: Exploring the Menstrual, Neurological and Symbolic Origins of Religious Experience** Bruce Rimell,2015-07 Visionary and religious experiences are ubiquitous among human beings, but why do we experience them as coming from a hidden reality beyond the senses? Why should we believe in the existence of deities despite the mundane evidence of our own eyes? Why do we as intelligent primates ascribe any importance to these ‘imaginary’ realities at all? This creative and speculative thesis seeks to answer these questions in a new way, gazing into the content of visions themselves and exploring the various inner realities that gave rise to these transformative and meaningful aspects of our humanity. Focusing upon symbolic cognition as a fundamental organising principle of human experience, a diverse series of musings upon the nature of reality, consciousness, and our evolutionary origins seeks to transcend our modern artificial boundaries to arrive at a holistic, and delightfully playful, human image for the twenty-first century. An original visionary thesis illustrated with 30 beautiful drawings.
- 🔍 **Flying Cups & Saucers: Gender Explorations in Science Fiction & Fantasy** Debbie Notkin,The Secret Feminist Cabal,2008 Ever wonder what happened to the rest of the tea party when the saucers went off into space? Here’s your chance to find out! What would it be like to go to a club where you could buy an injection of sexiness? To grow up in a world where you didn’t know what gender you would be until puberty -- and the discovery could be painful? To find yourself and your secret pitted against the entire United States government? The James Tiptree, Jr. Award has been recognizing science fiction and fantasy novels and stories that explore and expand gender since 1992. Although the award itself is given to one or two works of fiction a year, each jury also produces an honor list of notable works that were considered for the award. This anthology contains almost all of the short fiction that either won or was honored in the first five years of the award.
