Pacific Search ,1972

The Search for Certainty W.W. Spradlin,P.B. Porterfield,2012-12-06 Who are we? What are we? How do we fit into the world? Or into the universe? These and other questions pertaining to ourselves and our environment are as compelling to us today as they were to our primitive ancestors. Throughout our history we have developed paradigms of thought that have attempted to answer these questions, each conceptual framework being particularly relevant to its age. We are, in the twentieth century, witnessing a complete reorganization of our thinking. We are now, with the aid of technology, able to bring together both ancient and new patterns of thought and to observe the emergence of a kaleidoscopic world view that is uniting the once dissonant theories of philosophy, religion, and science. This book sketches an historical picture of three world views that have shaped our ideas about ourselves. These conceptual formats that have so influenced us are not mutually exclusive and are present in all of us simultaneously, although to varying degrees depending upon our individual biases.

In this essential and illuminating history of Western science, Bill Mesler and H. James Cleaves II seek to answer the most crucial question in science: How did life begin? They trace the trials and triumphs of the iconoclastic scientists who have sought to

solve the mystery, from Darwin's theory of evolution to Crick and Watson's unveiling of DNA. This fascinating exploration not only examines the origin-of-life question, but also interrogates the very nature of scientific discovery and objectivity.

The Guide to Chinese Horoscopes Gerry Maguire, 2012-11-01 This is a simple yet comprehensive guide to using the ancient Chinese system of horoscopes in order to do your own readings. Much more is involved than just the twelve famous animal signs. Gerry Maguire Thompson shows how the animal-year sign cycle is enmeshed with a repeating cycle of the five elements, and how this in turn is modified by the hour-of-birth cycle. Yin and yang forces also play a part in the system, which has a classic beauty of design, yet is supple enough to embrace the multiplicity of human experience. The book includes extensive year charts, followed by a 14-page section for each animal sign, covering personality and aptitude traits, as well as tendencies and potential outcomes with regard to leisure, career, health, money and family life. A separate section covers the relationship potential for each sign, giving helpful scores for every possible combination, with an ingenious graphic chart offering an at-a-glance summary. The last major section enables you to work out upcoming astrological influences for years to come, helping you to make decisions, deal with change, and cope with other life challenges.
