Rebecca Williams is about to achieve her goal of graduating from a prestigious university and winning a coveted spot in her mentor's cutting-edge psychology practice. Kurt, a brilliant psychologist in the field of sexual therapy, is a scientist to the core. Attraction and lust are nothing more than chemical reactions, in his clinical opinion. Love? It's just a figment of the imagination born of nature's directives. He's on the brink of proving it with a new machine that uncovers latent desires. In short order, Becca's forbidden lust for her boss is exposed. As Kurt continues to enlighten her on the darker facets of her sexuality, the student unexpectedly becomes the teacher. And suddenly Kurt is confronted with the irrefutable proof that love is so much more than a societal construction. Warning: This book is only suitable for readers who are turned on by hot doctors engaging in sexual experiments, bondage, ménage à trois, exhibitionism, suspension, anal sex and other deviant behavior using mechanical stimulation devices they've invented to make your wildest dreams come true.

Metaphor and Emotion Zoltán Kövecses, 2003-09 Are human emotions best characterized as biological, psychological, or cultural entities? Many researchers claim that emotions arise either from human biology (i.e., biological reductionism) or as products of culture (i.e., social constructionism). This book challenges this simplistic division between the body and culture by showing how human emotions are to a large extent constructed from individuals' embodied experiences in different cultural settings. The view proposed here demonstrates how cultural aspects of emotions, metaphorical language about the emotions, and human physiology in emotion are all part of an integrated system and shows how this system points to the reconciliation of the seemingly contradictory views of biological reductionism and social constructionism in contemporary debates about human emotion.

Souls in the Great Machine Sean McMullen, 2002-12-15 The great Calculor of Libris was forced to watch as Overmayor Zarvora had four of its components lined up against a wall and shot for negligence. And all the while a faint mirrorsun hangs in the night sky, warning of the cold to come. In Sean McMullen's glittering, dynamic, and exotic world two millennia from now, there is no more electricity, wind engines are leading-edge technology, librarians fight duels to settle disputes, steam power is banned by every major religion, and a mysterious siren Call lures people to their death. Nevertheless, the brilliant and ruthless Zarvora intends to start a war in space against inconceivably ancient nuclear battle stations. Unbeknownst to Zarvora,

however, the greatest threat to humanity is neither a machine nor a force but her demented and implacable enemy Lemorel, who has resurrected an obscene and evil concept from the distant past: Total War. *Souls in the Great Machine* is the first volume of Sean McMullen's brilliant future history of the world of Greatwinter. The Oxford Handbook of Jewish Music Studies Tina Frühauf,2023-10-29 The Oxford Handbook of Jewish Music Studies is the most comprehensive and expansive critical handbook of Jewish music published to date. It is the

first endeavor to address the diverse range of sounds, texts, archives, traditions, histories, geographic and political contexts, and critical discourses in the field. The thirty-one experts from thirteen countries who prepared the thirty original and groundbreaking chapters in this handbook are leaders in the disciplines of musicology and Jewish studies as well as adjacent fields. Chapters in the handbook provide a broad coverage of the subject area with considerable expansion of the topics that are normally covered in a resource of this type. Designed around eight distinct sections - Land, City, Ghetto, Stage, Sacred and Ritual Spaces, Destruction / Remembrance, and Spirit -- the range and scope of *The Oxford Handbook of Jewish Music Studies* most significantly suggests a new framework for the study of Jewish music centered on spatiality and taking into consideration temporality and collectivity. Within each chapter, authors have selected what they consider to be the most important material relevant to their topic and, drawing on the most authoritative insights from historical and ethnomusicology, Jewish studies, history, anthropology, philology, religious studies, and the visual arts, have taken a genuinely inter- or transdisciplinary approach. Integrated chapter bibliographies provide material for further reading. Together the chapters form a first truly global look at Jewish music, incorporating studies from Central and East Asia, Europe, Australia, the Americas, and the Arab world. Together they span world history, from antiquity until the present day. As such, the Handbook provides a resource that researchers, scholars, and educators will use as the most important and authoritative overview of work within music and Jewish studies.

The Dybbuk Century Debra Caplan, Rachel Merrill Moss, 2023-10-11 A little over 100 years ago, the first production of An-sky's *The Dybbuk*, a play about the possession of a young woman by a dislocated spirit, opened in Warsaw. In the century that followed, *The Dybbuk* became a theatrical conduit for a wide range of discourses about Jews, belonging, and modernity. This timeless Yiddish play about spiritual possession beyond the grave would go on to exert a remarkable and unforgettable impact on modern theater, film, literature, music, and culture. *The Dybbuk Century* collects essays from an interdisciplinary group of scholars who explore the play's original Yiddish and Hebrew productions and offer critical reflections on the play's enduring influence. The collection will appeal to scholars, students, and theater practitioners, as well as general readers.

Erotica 104 James Dawson, 2016-08-05 These extremely close encounters feature titillating technology (Flip, Dick at Nite, The Dream Machine, Another First), torrid telepathy (Head Games, Mindgames, Mindskeiving) and tantalizing time travel (X2K, Faire Tale). *Fuck for Your Life!* is a filthy alien-invasion frightfest, *The Professors and Marianne* is a smutty search for a mythical monster, and *Master of the Chambers* shows what happens when a videogame designer gets too immersed in his work. Other stories take place in the provocative past (*The Cro-Magnon Chronicle*), the prurient present (*Read Me*) and a ridiculously ribald future (*Lust in Space*), on the moon (*Sex Machine*), within an altered consciousness (*You Are Everything and Everything Is You*) and in the realm of fairy (*A Late Summer's Daydream*). The other four explicit escapades are *Now Playing*, *Nothing But the Truth*, *Schrodinger's Pussy* and *Mist Opportunities*. All have been revised and expanded since their

original publication in a dozen different men's magazines by author James Dawson, who PENTHOUSE MAGAZINE has said is considered by many to be the greatest writer of his generation.

The Things They Love Vincenza Arpeggio, These hardcore erotic stories are geared toward the objectum sexual community, those with romantic and sexual feelings for objects. If you've wondered how it all happens, or want spicy hot images to fuel your own objectum sexuality fantasies, this is for you! The first story is Girl Meets Camaro. Jade knows all about Camaros. She'd had an ongoing love affair with them since she'd been very young. But not until she was a teenager and she took her first ride in a passion-red 1967 model with a special performance V-8 package had she realized her attraction was physical...even erotic. It seemed, though, that her realization came too late. The Camaro was taken out of production in 2002. She would never know the thrill of discovering the one meant for her, one unsullied by a previous owner. Still, she never lets go of the hope that one day her lover might appear. One day he does...the 2015 Green Flash edition in emerald green. The second story is Girl Meets Toaster. Sabina has long had a thing for machines. Not just any machines...ones with motors and gears, ones with levers and life, ones that produced food. For much of her life, they were just friends. The waffle maker with its crosshatch grin greeted her every morning. The dough mixer was a wonderful sister with a delicate bowl and dainty size. Then she meets him: Hobart, an industrial toaster that can crisp four slices of bread at once. Its slots can accommodate whole wheat as easily as hefty slabs of Texas toast, and its knobs...well, she finds out more about the knobs when she is finally alone with Hobart in the diner. Toasty hot girl on machine action!

Machine Jennifer Pelland, 2012 Celia's body is not her own, but even her conscious mind can barely tell the difference. Living on the cutting edge of biomechanical science was supposed to allow her to lead a normal life in a near-perfect copy of her physical self while awaiting a cure for a rare and deadly genetic disorder. But a bioandroid isn't a real person. Not according to the protesters outside Celia's house, her coworkers, or even her wife. Not according to her own evolving view of herself. As she begins to strip away the human affectations and inhibitions programmed into her new body, the chasm between the warm pains of flesh-and-blood life and the chilly comfort of the machine begins to deepen. Love, passion, reality, and memory war within Celia's body until she must decide whether to betray old friends or new ones in the choice between human and machine. *Don't forget to check out Jennifer's short fiction collection Unwelcome Bodies also from Apex Publications The novel is unrelenting, driven by Pelland's unflinching eye and her absolute willingness to shatter her very vulnerable, not very emotionally resilient protagonist. It's a powerful novel, certain to emerge as one of the best of the year. I'll be remembering it next award season. Adam-Troy Castro, SCI FI Magazine I'm not sure anyone else could take material like posthuman politics, kinky sex and body modification, and explicit metaphors for the abortion debate and euthanasia, and turn it all into a heartrending love story, but Jennifer Pelland nails the dismount every time. NK Jemesin, Hugo-nominated author of The Hundred Thousand Kingdoms Jennifer Pelland's MACHINE is the kind of book that sticks in your soul. The story and characters sink under your skin and challenge the way you think and haunt you long afterwards. This is what science fiction is meant to be. Lyda

Morehouse, author of Resurrection Code and Archangel Protocol Science fiction, at its very best, fearlessly challenges readers and compels them to look at the world around them in a different light and that is exactly what Jennifer Pelland's brilliant debut novel *Machine* does in grand style. B&N Bookclub It's at times disturbing, at times heartbreaking and it always keeps the reader on their toes. The novel offers an awful lot of questions for the reader to mull over. So many in fact that a couple of days after I finished it, I still haven't been able to pick my next read. Not many books manage to do that. Val's Random Comments Good science fiction makes you think. Pulp science fiction entertains you. Great science fiction, on the other hand, makes you think while entertaining you. Such is the case with *Machine* by Jennifer Pelland. Library Book Lust
