Luton's Transport David Beddall,2022-10-24 Located in the Chiltern Hills, Luton has a rich transport history, being home to London Luton Airport and Vauxhall Motors. This south Bedfordshire town has also had an interesting public transport history, most notable being Luton Corporation Transport, Eastern National, United Counties and London Transport. The towns of Luton and Dunstable are linked by one of the longest guided busways in the world. Luton's Transport takes a look at the development of Luton's tramway, along with the development of bus and coach services in the Luton, Dunstable and Houghton Regis areas of Bedfordshire.

The Prevent Strategy and Right-wing Extremism Craig J.J. McCann,2019-04-05 In 2011 the U.K. Government reviewed its counter terrorism Prevent Strategy to include all forms of extremism with an emphasis on right-wing extremism. This book - written by the former Head of Strategy and Policy at the Office of the National Coordinator for Prevent - provides the most detailed assessment yet of this shift in emphasis. It explores how the inclusion of right-wing extremism within the counter terrorism Prevent Strategy impacted local responses to the English Defence League. This is explored through numerous interviews and several case studies which were carried out by the author while he was serving as a senior police officer within the Counter Terrorism Command of the Metropolitan Police Service. The book balances empirical research with practical recommendations for policymakers and practitioners from a unique insider perspective. This book will be of appeal to an array of audiences including scholars and students of Terrorism Studies, professionals working in the areas of counter terrorism, public order policing and the promotion of community cohesion, and to those who have an interest in wider non-political responses to right-wing extremism.

Studies in Industrial Organization H. A. Silverman,2013-10-08 The studies in this volume are a result of the Social Reconstruction Survey carried out by Nuffield College, Oxford between 1941 and 1944. The Survey studied the position and prospects of towns or areas in Britain in order to find out what was likely to happen to their industrial development with a view to planning for the post-war location of industry and distribution of population. The result is an invaluable source of empirical material for the study of British industry in the mid twentieth century. Industries covered include: * Natural Textiles, Artificial Textiles, Carpets, Footwear * Extensive use of statistical information for imports and exports, production costs, employment figures etc.

The Social Analysis of Class Structure FRANK Parkin,2018-05-11 Originally published in 1974, The Social Analysis of Class Structure is an edited collection addressing class formation and class relations in industrial society. The range and variety of the contributions provide a useful guide to the central concerns of British sociology in the 1970s. Encompassing general theorizing and empirical investigation, the book examines the treatment of crucial issues of the day, such as the relationships between race and class formation, and sexual subordination, as well addressing historical questions such as the Victorian labour aristocracy and the incorporation of the working class.
