The Greatest Policeman? Tom Andrews,2021-05-04 Could it be possible that just one man is responsible for modernising the British Police service and transforming it from its Victorian era, firmly rooted in 'Beat' policing, to today's highly-mobile responsive model? If there is a candidate for such an accolade then it is to be Capt Athelstan Popkess, Chief Constable of Nottingham City Police from 1930 to 1959. Tom Andrews makes a strong case that the man who sounds like a character from a Rudyard Kipling novel and who had no prior policing experience before commencing his post transformed the whole operating model of the Police service. He is credited with the introduction of police wireless communications, enhanced police use of forensics and the burglar alarm, amongst myriad others. With first-hand accounts and thorough research, this book explores just what it was that made this man possibly the Twentieth century's Greatest Policeman.

Business and Consumer Analytics: New Ideas Pablo Moscato,Natalie Jane de Vries,2019-05-30 This two-volume handbook presents a collection of novel methodologies with applications and illustrative examples in the areas of data-driven computational social sciences. Throughout this handbook, the focus is kept specifically on business and consumer-oriented applications with interesting sections ranging from clustering and network analysis, meta-analytics, memetic algorithms, machine learning, recommender systems methodologies, parallel pattern mining and data mining to specific applications in market segmentation, travel, fashion or entertainment analytics. A must-read for anyone in data-analytics, marketing, behavior modelling and computational social science, interested in the latest applications of new computer science methodologies. The chapters are contributed by leading experts in the associated fields. The chapters cover technical aspects at different levels, some of which are introductory and could be used for teaching. Some chapters aim at building a common understanding of the methodologies and recent application areas including the introduction of new theoretical results in the complexity of core problems. Business and marketing professionals may use the book to familiarize themselves with some important foundations of data science. The work is a good starting point to establish an open dialogue of communication between professionals and researchers from different fields. Together, the two volumes present a number of different new directions in Business and Customer Analytics with an emphasis in personalization of services, the development of new mathematical models and new algorithms, heuristics and metaheuristics applied to the challenging problems in the field. Sections of the book have introductory material to more specific and advanced themes in some of the chapters, allowing the volumes to be used as an advanced textbook. Clustering, Proximity Graphs, Pattern Mining, Frequent Itemset Mining, Feature Engineering, Network and Community Detection, Network-based Recommending Systems and Visualization, are some of the topics in the first volume. Techniques on Memetic Algorithms and their applications to Business Analytics and Data Science are surveyed in the second volume; applications in Team Orienteering, Competitive Facility-location, and Visualization of Products and Consumers are also discussed. The second volume also includes an introduction to Meta-Analytics, and to the application areas of Fashion and Travel Analytics. Overall, the two-volume set helps to describe some fundamentals, acts as a bridge between different disciplines, and presents important results in a rapidly moving field combining powerful optimization techniques allied to new mathematical models critical for personalization of services. Academics and professionals working in the area of business analytics, data science, operations research and marketing will find this handbook valuable as a reference. Students studying these fields will find this handbook useful and helpful as a secondary textbook.

Memoirs of My Services in the World War, 1917-1918 George Catlett Marshall, 1976 George C. Marshall was an American military leader, Chief of Staff of the Army, Secretary of State, and the third Secretary of Defense. Once noted as the organizer of victory by Winston Churchill for his leadership of the Allied victory in World War II, Marshall served as the United States Army Chief of Staff during the war and as the chief military adviser to President Franklin D. Roosevelt. As Secretary of State, his name was given to the Marshall Plan, for which he was awarded the Nobel Peace Prize in 1953. He drafted this manuscript while he was in Washington, D.C., between 1919 and 1924 as aide-de-camp to General of the Armies John J. Pershing. However, given the growing bitterness of the memoirs wars of the period he decided against publication, and the draft sat unused until the 1970s when Marshall's step-daughter and her husband decided to publish it.

This Bridge Called My Back Cherríe Moraga, 1983 This groundbreaking collection reflects an uncompromised definition of feminism by women of color. 65,000 copies in print.

Mapping COVID-19 in Space and Time Shih-Lung Shaw, Daniel Sui, 2021-07-14 This book describes the spatial and temporal perspectives on COVID-19 and its impacts and deepens our understanding of human dynamics during and after the global pandemic. It critically examines the role smart city technologies play in shaping our lives in the years to come. The book covers a wide-range of issues related to conceptual, theoretical and data issues, analysis and modeling, and applications and policy implications such as socio-ecological perspectives, geospatial data ethics, mobility and migration during COVID-19, population health resilience and much more. With accelerated pace of technological advances and growing divide on political and policy options, a better understanding of disruptive global events such as COVID-19 with spatial and temporal perspectives is an imperative and will make the ultimate difference in public health and economic decision making. Through in-depth analyses of concepts, data, methods, and policies, this book stimulates future studies on global pandemics and their impacts on society at different levels.

Advances in Digital Forensics XII Gilbert Peterson, Sujeet Sheno, 2016-09-19 Digital forensics deals with the acquisition, preservation, examination, analysis and presentation of electronic evidence. Networked computing, wireless communications and portable electronic devices have expanded the role of digital forensics beyond traditional computer crime investigations. Practically every crime now involves some aspect of digital evidence; digital forensics provides the techniques and tools to articulate this evidence. Digital forensics also has myriad intelligence applications. Furthermore, it has a vital role in information assurance -- investigations of security breaches yield valuable information that can be used to design more secure systems. Advances in Digital Forensics XII describes original research results and innovative applications in the discipline of digital forensics. In addition, it highlights some of the major technical and legal issues related to digital evidence and electronic crime investigations. The areas of coverage include: Themes and Issues, Mobile Device Forensics, Network Forensics, Cloud Forensics, Social Media Forensics, Image Forensics, Forensic Techniques, and Forensic Tools. This book is the twelfth volume in the annual series produced by the International Federation for Information Processing (IFIP) Working Group 11.9 on Digital Forensics, an international community of scientists, engineers and practitioners dedicated to advancing the state of the art of research and practice in digital forensics. The book contains a selection of twenty edited papers from the Twelfth Annual IFIP WG 11.9 International Conference on Digital Forensics, held in New Delhi, India in the winter of 2016. Advances in Digital Forensics XII is an important resource for researchers, faculty members and graduate students, as well as for practitioners and individuals engaged in research and development efforts for the law enforcement and intelligence communities. Gilbert Peterson, Chair, IFIP WG 11.9 on Digital Forensics, is a Professor of Computer Engineering at the Air Force Institute of Technology, Wright-Patterson Air Force Base, Ohio, USA. Sujeet Sheno is the F.P. Walter Professor of Computer Science and a Professor of Chemical Engineering at the University of Tulsa, Tulsa, Oklahoma, USA.

The New York Times Manual of Style and Usage, 5th Edition Allan M. Siegal, William Connolly, 2015-09-29 The premier source for journalists,

now revised and updated for 2015. Does the White House tweet? Or does the White House post on Twitter? Can text be a verb and also a noun? When should you link? For anyone who writes--short stories or business plans, book reports or news articles--knotty choices of spelling, grammar, punctuation and meaning lurk in every line: Lay or lie? Who or whom? That or which? Is Band-Aid still a trademark? It's enough to send you in search of a Martini. (Or is that a martini?) Now everyone can find answers to these and thousands of other questions in the handy alphabetical guide used by the writers and editors of the world's most authoritative news organization. The guidelines to hyphenation, punctuation, capitalization and spelling are crisp and compact, created for instant reference in the rush of daily deadlines. The 2015 edition is a revised and condensed version of the classic guide, updated with solutions to problems that plague writers in the Internet age: · How to cite links and blogs · How to handle tweets, hashtags and other social-media content · How to use current terms like "transgender," or to choose thoughtfully between same-sex marriage and gay marriage With wry wit, the authors have created an essential and entertaining reference tool.

Police Chief 101 Gerald W. Garner, 2010 Based on forty years of extensive experience, the author draws on current knowledge to provide a thorough overview of the highs and lows of the job. The book provides practical, common sense advice for doing the multitude of jobs the chief faces with effectiveness and efficiency. It furnishes sound advice intended to help the chief retain his physical, emotional and ethical health while leading a professional law enforcement agency. Chapter topics include advice on taking control of the police department and setting the agenda in place, emphasizing the extreme importance of role modeling the behavior that the chief expects of his people, the requirements for a productive relationship with the chief's top staff, exploring the multifaceted relationship a chief has with his employees, guidelines for managing relations with the various factions that make up the community, getting along with the boss, discipline and the role of the chief in this vital process, deciding on a course of action when things go wrong, the death of a police officer, officer-involved shootings, misconduct, and a good working relationship with the media. Each chapter concludes with OC Points to Remember that will be beneficial to the new police chief in order to avoid previous mistakes and build on the body of knowledge that constitutes professional law enforcement leadership. This resource will be invaluable to all law enforcement professionals, policymakers, and police academics.

Handbook of Risk and Crisis Communication Robert L. Heath, H. Dan O'Hair, 2020-10-28 The Handbook of Risk and Crisis Communication explores the scope and purpose of risk, and its counterpart, crisis, to facilitate the understanding of these issues from conceptual and strategic perspectives. Recognizing that risk is a central feature of our daily lives, found in relationships, organizations, governments, the environment, and a wide variety of interactions, contributors to this volume explore such questions as What is likely to happen, to whom, and with what consequences? To what extent can science and vigilance prevent or mitigate negative outcomes? and What obligation do some segments of local, national, and global populations have to help other segments manage risks?, shedding light on the issues in the quest for definitive answers. The Handbook offers a broad approach to the study of risk and crisis as joint concerns. Chapters explore the reach of crisis and risk communication, define and examine key constructs, and parse the contexts of these vital areas. As a whole, the volume presents a comprehensive array of studies that highlight the standard principles and theories on both topics, serving as the largest effort to date focused on engaging risk communication discussions in a comprehensive manner. Now available in paperback, the Handbook of Risk and Crisis Communication can be readily used in graduate coursework and individual research programs. With perspectives from psychology, sociology, anthropology, political science, economics, and communication, the Handbook provides vital insights for all disciplines studying risk, and is required reading for scholars and researchers investigating risk and crisis in various contexts.

Physical Activity and Health Promotion in the Early Years Hannah Brewer, Mary Renck Jalongo, 2018-06-19 This book focuses on improving well-being among young children. It provides a theoretical base explaining why physical activity is important, and offers practical strategies for increasing

health and well-being in early childhood settings. It takes ancient wisdom on the mind and body connection, applies it to the youngest children, and supports it with current empirical and international evidence—all with an eye toward improving wellness across the lifespan. The many topics discussed in the book include children's motor skills, movement, interaction, physical literacy, the use of video games, dog ownership, developmental delays, as well as strategies to improve physical activities in the classroom and broader contexts. In recent years, children's health has become a priority worldwide. Topics such as "screen time" "sedentary behavior" and "childhood obesity" have become important issues everywhere- in the news, in schools, in community and commercial settings, and among health care providers. Limiting sedentary behavior, increasing physical activity, and maintaining a nutritious diet are three fundamental needs during early childhood. Preschool years are a time when children begin to explore the world around them, and develop more vivid understandings of their surroundings. As this book shows, the early years may be the best time to teach wellness concepts and assist young children in establishing healthy lifestyle habits.

Permanently Online, Permanently Connected Peter Vorderer, Dorothee Hefner, Leonard Reinecke, Christoph Klimmt, 2017-07-28 Permanently Online, Permanently Connected establishes the conceptual grounds needed for a solid understanding of the permanently online/permanently connected phenomenon, its causes and consequences, and its applied implications. Due to the diffusion of mobile devices, the ways people communicate and interact with each other and use electronic media have changed substantially within a short period of time. This megatrend comes with fundamental challenges to communication, both theoretical and empirical. The book offers a compendium of perspectives and theoretical approaches from leading thinkers in the field to empower communication scholars to develop this research systematically, exhaustively, and quickly. It is essential reading for media and communication scholars and students studying new media, media effects, and communication theory.

Making Sergeant Gerald W. Garner, 2021-02-24 Whether you are just pondering if you should go for the gold or are already radar-locked on getting there, this book, MAKING SERGEANT, is for you. Written by a veteran police chief with over 50 years of law enforcement experience, 15 of them spent as a sergeant, it contains practical advice for (1) deciding on whether you are ready for the job and (2) getting it and succeeding at it if you are. Short on theory and long on pragmatic advice, the text also will help the already-promoted supervisor successfully meet the challenges of this complex but vital position. As most law enforcement agency CEOs will acknowledge, first-line supervisor or sergeant is often the single most important position in the police organization. Without the best efforts of the highly competent man or woman wearing the stripes, the organization is destined to flounder in relative ineffectiveness. In the worst-case scenario, the agency may fail. In other words, the sergeant has got to get it right. This book will help you decide if you want to be that sergeant. If you do, it will help you be him or her. If, at least at this stage of your career, you decide that the answer is no, that's fine, too. There is not a law enforcement agency anywhere that has enough talented first-line officers. Your goals may change later. But if you choose to go for it, the tips contained in this book will help you get there. If you are already a supervisor, MAKING SERGEANT will help you get better at what you are already doing.

Floating Ocean Platform Ronald N. Kostoff, 2003-08-01 In FY 1990, Congress directed the Secretary of the Navy to commission a study by the National Academy of Sciences for the production of an integrated technology plan for the evolution of aircraft carriers in the first half of the twenty-first century. The House-Senate conferees emphasized that the product of this study is to be a technology plan for the evolution of sea bases for the most efficient and economical accommodation of tactical air power in the first half of the twenty-first century. Based on this broad charter of evaluating sea bases, an examination of the floating ocean platform concept was included in the study. The floating ocean platform is a generic description of a large, relatively stationary or slowly mobile, platform that can be positioned in most areas of the ocean, and can serve a variety of purposes. The present report was the author's input to the study. It was based on technical analyses, literature reviews and surveys, and discussions/visits with the main

groups and organizations involved in developing the floating ocean platform. All discussion material was unclassified, as are the contents of this report. All the external inputs and discussions, too numerous to mention, made this report possible, and are greatly appreciated. The first part of this report is the summary narrative that was submitted by the author to the Technology Group of the study. The second part is the viewgraphs that were presented to the Technology Group by the author on 12 February 1991. The third part is a selected bibliography of studies on the floating ocean platform over the past two decades, with over three thousand references identified.
