Introducing the QR Code Judith Sansweet,2011 A QR Code primer A 'starter kit' of information and application ideas for your use as we enter the new dimension of QR Codes. The reality of QR Codes is that they are matrix type codes (much like the barcodes in universal use today) primarily designed to be scanned by a mobile device. They were developed to accomplish four primary goals: *To provide immediate connectivity *To enable fast, multi-directional scanning *To provide high capacity storage within a small area *To put unlimited portable information at your fingertips The magic comes in as we get our heads - and imaginations - around this new technological paradigm; it seems that the virtual magic of this immediate interactive connectivity - held in the palm of our hands - has no limits; once we enter, it goes on and on and on . . . Take a look at the staggering potential for use in applications ranging from Mobile Marketing to Education and Entertainment, as well as into the worlds of Culture and Fashion as mobile phones and other hand-held devices proliferate globally. Get in on the ground floor with this handbook of practical information, resources, and applications - for fast and easy entry into this new dimension.

Location-Aware Services and QR Codes for Libraries Joseph H. Murphy,2012 The go-to resource for straightforward instruction on using Foursquare, Facebook Places, Gowalla, Bizzy, Google Wallet, augmented reality programs, and QR codes in your library! The book guides you through each step in the implementation process, giving you the information you need to successfully use location aware technologies in library environments. It covers how to create a Foursquare campaign and use it to enhance staff training, use Facebook Places to connect with patrons, create an augmented reality program, create a QR code campaign, create a Gowalla marketing initiative, implement a mobile payment service with Google Wallet and Near Field communication. Once you learn these location-based services and applications, you can meet your mobile user’s digital-age needs successfully.
