San Francisco Noir Fred Lyon, 2017-06-06 This collection by the acclaimed photographer reveals the shadowy side of the City by the Bay. Following in the footsteps of classic films like *The Maltese Falcon* and *The Lady from Shanghai*, veteran photographer Fred Lyon creates images of San Francisco in high contrast with a sense of mystery. In this latest offering from the photographer of *San Francisco: Portrait of a City 1940–1960*, Lyon presents a darker tone, exploring the hidden corners of his native city. Images taken in the foggy night are illuminated only by streetlights, neon signs, apartment windows, and the headlights of classic cars. Sharply dressed couples stroll out for evening shows, drivers travel down steep hills, and sailors work through the night at the old Fisherman's Wharf. In many of the photographs, the noir tone is enhanced by double exposures, elements of collage, and blurred motion. These strikingly evocative duotone images expose a view of San Francisco as only Fred Lyon could capture.

From the moment we first saw riders experiencing the joy and the freedom that can only be found riding a powerful motorcycle down an open road, many of us have been hooked on the life Harley-Davidson. *The Life: Harley-Davidson* celebrates that freedom. *The Life Harley-Davidson* covers all aspects of the Harley lifestyle, profiling celebrity Harley fans like Elvis Presley, Hunter S. Thompson, Peter Fonda, and Arnold Schwarzenegger. All the iconic machines are here, too, like

the Sporster, Electra Glide, and Fat Boy. The book also explores all the major types of custom Harleys, like Bobbers, Choppers, and Cafe racers. This is about more than just motorcycles, though. It's about community, gear, and tattoos. It's about B movies, like *The Wild One*, *The Wild Angels*, and *Wild Hogs*. And, of course, television's *Sons of Anarchy*, a program that ignited interest in the life Harley-Davidson among a younger generation of rebels. Chapters cover the one percenter outlaw club scene, focusing on international clubs like the Hells Angels, Outlaws, Pagans, and Dragons.

The Gender of Photography Nicole Hudgins, 2020-09-02 It would be unthinkable now to omit early female pioneers from any survey of photography's history in the Western world. Yet for many years the gendered language of American, British and French photographic literature made it appear that women's interactions with early photography did not count as significant contributions. Using French and English photo journals, cartoons, art criticism, novels, and early career guides aimed at women, this volume will show why and how early photographic clubs, journals, exhibitions, and studios insisted on masculine values and authority, and how Victorian women engaged with photography despite that dominant trend. Focusing on the period before 1890, when women were yet to develop the self-assurance that would lead to broader recognition of the value of their work, this study probes the mechanisms by which exclusion took place and explores how women practiced photography anyway, both as amateurs and professionals. Challenging the marginalization of women's work in the early history of photography, this is essential reading for students and scholars of photography, history and gender studies.

Picturing the Century Bruce I. Bustard, 1999 To mark the end of

At the same time, they demonstrate the role of government photography in the United States. Photographs from the vast collections of the National Archives and Records Administration, including the Presidential libraries, depict momentous events & capture the hopes and fears of the American people throughout the 20th century. South Lyon Jennifer Redfern, 2014 When settlers were moving west from Detroit into the unknowns of Michigan, they went six days to the northwest and came upon what would become Lyon Township. It is unknown who settled first in the southwest corner of the township, but when William Thompson, his mother, and his brothers acquired land, along with three corners of an Indian Trail, the area became known as Thompson's Corners. Later, the area was renamed South Lyon for the town's location in the township. Known for its rich farmland, it started to grow when the railroads came to town. This made South Lyon a booming town with a rich history--one that includes a Witch's Hat depot and a buffalo. A series of 200 images tells the community's story from its founding until the present day.

Valuing Labour in Greco-Roman Antiquity ,2024-03-11 How did ancient Greeks and Romans regard work? It has long been assumed that elite thinkers disparaged physical work, and that working people rarely commented on their own labors. The papers in this volume challenge these notions by investigating philosophical, literary and working people's own ideas about what it meant to work. From Plato's terminology of labor to Roman prostitutes' self-proclaimed pride in their work, these chapters find ancient people assigning value to multiple different kinds of work, and many different concepts of labor.

George VI and Elizabeth Sally Bedell Smith,2023-04-04 A revelatory account of how the loving marriage of King George VI and Queen Elizabeth saved the monarchy during World War II, and how

they raised their daughter to become Queen Elizabeth II, based on exclusive access to the Royal Archives—from the bestselling author of *Elizabeth the Queen* and *Prince Charles* “An intimate and gripping portrait of a royal marriage that survived betrayal, tragedy, and war.”—Amanda Foreman, bestselling author of *Georgiana: Duchess of Devonshire*

Granted special access by Queen Elizabeth II to her parents’ letters and diaries and to the papers of their close friends and family, Sally Bedell Smith brings the love story of this iconic royal couple to vibrant life. This deeply researched and revealing book shows how a loving and devoted marriage helped the King and Queen meet the challenges of World War II, lead a nation, solidify the public’s faith in the monarchy, and raise their daughters, Princess Elizabeth and Princess Margaret. When King Edward VIII abdicated the throne in 1936, shattering the Crown’s reputation, his younger brother, known as Bertie, assumed his father’s name and became King George VI. Shy, sensitive, and afflicted with a stutter, George VI had never imagined that he would become King. His wife, Elizabeth, a pretty, confident, and outgoing woman who became known later in life as “the Queen Mum,” strengthened and advised her husband. With his wife’s support, guidance, and love, George VI was able to overcome his insecurities and become an exceptional leader, navigating the country through World War II, establishing a relationship with Winston Churchill, visiting Franklin and Eleanor Roosevelt in Washington and in Hyde Park, and inspiring the British people with his courage and compassion during the Blitz. Simultaneously, George VI and Elizabeth trained their daughter Princess Elizabeth from an early age to be a highly successful monarch, and she would reign for an unprecedented seventy years. Sally Bedell Smith gives us an inside view of the lives, struggles,

hopes, and triumphs of King George VI and Elizabeth during a dramatic time in history.

Who Shot Sports Gail Buckland,2016-07-05 From the creator/editor of *Who Shot Rock & Roll* (“I loved this book” —Dwight Garner, *The New York Times*. “Whatever Gail Buckland writes, I want to read”), a book that brings together the work of 165 extraordinary photographers, most of their images heralded, most of their names unknown; photographs that capture the essence of athletes’ mastery of mind/body/soul against the odds, doing the impossible, seeming to defy the laws of gravity, the laws of physics, and showing what human will, discipline, drive, and desire look like when suspended in time. The first book to show the range, cultural importance, and aesthetics of sports photography, much of it legendary, all of it powerful. Here, in more than 280 spectacular images—more than 130 in full color—are great action photographs; portraits of athletes, famous and unknown; athletes off the field and behind the scenes; athletes practicing, working out, the daily relentless effort of training and achieving physical perfection. Buckland writes that sports photographers have always been central to the technical advancement of photography, that they have designed longer lenses, faster shutters, motor drives, underwater casings, and remote controls, allowing us to see what we could never see—and hold on to—with the naked eye. Here are photographs by such masters as Henri Cartier-Bresson, Robert Capa, Danny Lyon, Walker Evans, Annie Leibovitz, and 160 more, names not necessarily known

to the public but whose photographic work is considered iconic . . . Here are photographs of Willie Mays . . . Carl Lewis . . . Ian Botham . . . Kobe Bryant . . . Magic Johnson . . . Muhammad Ali . . . Serena Williams . . . Bobby Orr . . . Stirling Moss . . . Jesse Owens . . . Mark Spitz . . . Roger Federer . . . Jackie Robinson. Here is the work of the great sports photographers Neil Leifer, Walter Iooss Jr., Bob Martin, Al Bello, Robert Riger, and Heinz Kleutmeier of Sports Illustrated, who was the first to put a camera at the bottom of an Olympic swimming pool and photograph swimmers from below . . . Here are pictures by Charles Hoff, the New York Daily News photographer of the 1930s, 1940s, and 1950s, whose images of the 1936 Berlin Olympics still inspire shock and awe . . . and those of Ernst Haas, whose innovative color pictures of bullfighting of the 1950s remain poetic evocations of a bloody sport . . . To make the selections for *Who Shot Sports*, Buckland, a former curator of the Royal Photographic Society of Great Britain and Benjamin Menschel Distinguished Visiting Professor at Cooper Union, has drawn upon the work of more than fifty archives, from the Museum of Fine Arts, Houston, to Sports Illustrated, Condé Nast, Getty Images, the National Baseball Hall of Fame, L'Équipe, The New York Times, and the archives of the International Olympic Committee in Lausanne. Here are classic and unknown sports images that capture the uncapturable, that allow us to experience “kinetic beauty,” and that give us the essence and meaning—the transcendent power—of sports.

Press, Revolution, and Social Identities in France, 1830-1835

Jeremy D. Popkin,2010-11-01 In this innovative study of the press during the French Revolutionary crisis of the early 1830s, Jeremy Popkin shows that newspapers played a crucial role in defining a new repertoire of identities--for workers, women, and members of the middle classes--that redefined Europe's public sphere. Nowhere was this process more visible than in Lyon, the great manufacturing center where the aftershocks of the July Revolution of 1830 were strongest. In July 1830 Lyon's population had rallied around its liberal newspaper and opposed the conservative Restoration government. In less than two years, however, Lyon's press and its public opinion, like those of the country as a whole, had become irrevocably fragmented. Popkin shows how the structure of the journalistic field in liberal society multiplied political conflicts and produced new tensions between the domains of politics and culture. New periodicals appeared claiming to speak for workers, for women, and for the local interests of Lyon. The public was becoming inherently plural with the emergence of new imagined communities that would dominate French public life well into the twentieth century. Jeremy Popkin is well known for his earlier studies of journalism during the eighteenth century and the French Revolution. In *Press, Revolution, and Social Identities in France*, he not only moves forward in time but also offers a new model for a cultural history of journalism and its relationship to literature.

Capturing the South Scott L. Matthews,2018-10-26 In his expansive history of documentary work in the South during the

twentieth century, Scott L. Matthews examines the motivations and methodologies of several pivotal documentarians, including sociologist Howard Odum, photographers Jack Delano and Danny Lyon, and music ethnographer John Cohen. Their work salvaged and celebrated folk cultures threatened by modernization or strived to reveal and reform problems linked to the region's racial caste system and exploitative agricultural economy. Images of alluring primitivism and troubling pathology often blurred together, neutralizing the aims of documentary work carried out in the name of reform during the Progressive era, New Deal, and civil rights movement. Black and white southerners in turn often resisted documentarians' attempts to turn their private lives into public symbols. The accumulation of these influential and, occasionally, controversial documentary images created an enduring, complex, and sometimes self-defeating mythology about the South that persists into the twenty-first century.
