Social Networks Offline Carolina Guerini,2014-01-14T00:00:00+01:00 Il marketing di rete rappresenta una realtà empirica interessante e, al contempo, un concetto complesso e multiforme. Contando su relazioni di fiducia esistenti e consolidate, nelle quali, certamente, i fattori emozionali e personali sono rilevanti, il networker trasforma la fiducia, l'amicizia, la reputazione e la benevolenza personale in vero e proprio valore economico. Tuttavia, senza la promozione diretta e il coordinamento di un ente centrale (la Network Marketing Direct Selling Organization) che assicuri chiari incentivi all'unità e alla coesione, l'impresa a rete non ottiene le desiderate performance. Il libro analizza il tema della crescita aziendale nelle imprese organizzate secondo il modello del marketing di rete e presenta alcuni case study di successo: ACN S.p.A., Care Holding s.r.l., Lyoness S.p.A. e Pef S.p.A.

Wenn nicht jetzt, wann dann?! Sven Mattheus,2014-02-18 Es steht außer Frage, dass jeder von uns Wünsche und Träume hegt. Die Wenigsten sind jedoch in der Lage, diese auch zu verwirklichen, denn unzählige Vorwände und meist fadenscheinige Begründungen stehen der Umsetzung im Weg. „Wenn nicht jetzt, wann dann?!“ zeigt anhand vieler Beispiele und auf humorvolle Weise, wie jeder einzelne seine Ziele erreichen kann, seien sie noch so hochgesteckt. Mit Wille, Konsequenz und Lebensfreude kann ein jeder seine Pläne in die Tat umsetzen und seines eigenen Glückes Schmied werden.

Latent Variable Path Modeling with Partial Least Squares Jan-Bernd Lohmöller,2013-11-11 Partial Least Squares (PLS) is an estimation method and an algorithm for latent variable path (LVP) models. PLS is a component technique and estimates the latent variables as weighted aggregates. The implications of this choice are considered and compared to covariance structure techniques like LISREL, COSAN and EQS. The properties of special cases of PLS (regression, factor scores, structural equations, principal components, canonical correlation, hierarchical components, correspondence analysis, three-mode path and component analysis) are examined step by step and contribute to the understanding of the general PLS technique. The proof of the convergence of the PLS algorithm is extended beyond two-block models. Some 10 computer programs and 100 applications of PLS are referenced. The book gives the statistical underpinning for the computer programs PLS 1.8, which is in use in some 100 university computer centers, and for PLS/PC. It is intended to be the background reference for the users of PLS 1.8, not as textbook or program manual.

Discrimination, Vulnerable Consumers and Financial Inclusion Cătălin-Gabriel Stănescu,Asress Adimi Gikay,2020-12-28 This book addresses the questions of discrimination, vulnerable consumers, and financial inclusion in the light of the emerging legal, socioeconomic, and technological challenges. New technologies – such as artificial intelligence-driven consumer credit risk assessment and Fintech platforms, the changing nature of vulnerability due to the ongoing COVID-19 pandemic, as well as the sophistication of digital technologies, which help circumvent legal barriers and protections – necessitate the continuous study of the existing legal frameworks and measures that are capable of tackling these challenges. Organized in two major parts, the first addresses, from multiple national angles, the idea of a human rights approach to consumer law, in order to replace the mantra of economic efficiency that characterizes financial services

with those of human dignity and freedom from discrimination and from debt-induced servitude. The second tackles the challenges posed by increased usage of technology in connection with financial services, which tends to solve, but also creates, additional issues for consumers in general, and for vulnerable groups in particular.

Giulio Romano Barbara Furlotti,Guido Rebecchini,Linda Wolk-Simon,2019 Palazzo Te torna a celebrare, a distanza di trent'anni dalla grande monografica del 1989, il genio di Giulio Romano. L'esposizione, allestita nelle Sale Napoleoniche, indaga la relazione tra immagini erotiche del mondo classico e invenzioni figurative prodotte nella prima metà del Cinquecento in Italia, esponendo dipinti, disegni e oggetti preziosi provenienti da venti istituzioni, tra cui il Metropolitan Museum of Art di New York e l'Ermitage di San Pietroburgo. Concentrandosi sul lavoro di Giulio Romano, il percorso espositivo evidenzia la capillare diffusione di un vasto repertorio di rappresentazioni erotiche nella cultura artistica cinquecentesca e svela le influenze esistenti tra cultura alta e cultura bassa nella produzione di tali immagini. Exhibition: Palazzo Te, Mantova, Italy (06.10.2019-06.01.2020).

Showdown Iain Carter,2014-10 A gripping account of the Ryder Cup battle at Gleneagles, September 2014 As the Ryder Cup arrives at Gleneagles in Autumn 2014, Europe is the indisputable dominant force. They have won five of the last six matches, including the Medinah Miracle two years earlier. On that occasion they had rallied from 10-4 down to snatch victory and retain the trophy. It was the second consecutive match that had been settled by a single point. For America it was a sickening defeat. Following the devastating loss, the Americans pulled out all the stops for 2014, sending a clear signal with the appointment of veteran Ryder Cup hero Tom Watson as captain. Opinionated and complicated, Watson is one of the legends of the game and hugely popular in both the United States and Europe. Put under pressure, the Europeans eschewed veterans such as Colin Montgomerie in favor of an outlier: Irishman Paul McGinley, a diminutive stalwart touring pro, a team man, and an astute tactician. It will be a fight between acumen and aura. This book tells the inside story of this enthralling contest from the build-up through to the dramas of the week at Gleneagles. Will the American team snatch victory from the jaws of

defeat, re-entering the race and asserting themselves as the dominant force in world golf once more?

Sports Tourism Mike Weed, Chris Bull, 2012-06-14 *Sports Tourism: Participants, Policy and Providers* is an unparalleled text that explains sports tourism as a social, economic and cultural phenomenon that stems from the unique interaction of activity, people and place. Unlike other texts, it establishes sports tourism as a unique area that produces its own unique issues, concerns and controversies. Extensively revised with cutting edge new material based on the latest research in the field, this edition uses recent international case studies to illustrate how theory is used in practice. The text tackles the complex and distinctive issues this sector faces from three viewpoints: participants: examining the profiles, motivations and behaviour patterns of sports tourists to create a participation model policy: analyzes the response by policy makers to this phenomenon and the problems of achieving integration between two sectors with historically different cultures providers: their motivations, aims, objectives and strategies. Now in its second edition, this book is an essential resource for those studying, teaching or working in sports tourism.
