Kural Tiruvalluvar,2005-03-04 A celebrated work by the greatest poet of classical Tamil literature Tiruvalluvar probably lived and wrote between the second century BC and the eighth century AD though his dates have not been conclusively established. The work by which he is known, the Kural, comprises 1,330 couplets and is divided into three sections—Virtue, Wealth and Love—and is based on the first three of the four supreme aims prescribed by Hindu tradition: dharma (virtue), artha (wealth), kama (love) and moksha (salvation). Taken together, the three books of the Kural inform, criticize and teach the reader, in brilliantly styled and pithy verse, about life, love and the ways of the world. Translated and edited with an introduction by P.S. Sundaram

Passions of the Tongue Sumathi Ramaswamy,2023-09-01 Why would love for their language lead several men in southern India to burn themselves alive in its name? *Passions of the Tongue* analyzes the discourses of love, labor, and life that transformed Tamil into an object of such passionate attachment, producing in the process one of modern India's most intense movements for linguistic revival and separatism. Sumathi Ramaswamy suggests that these discourses cannot be contained within a singular metanarrative of linguistic nationalism and instead proposes a new analytic, language devotion. She uses this concept to track the many ways in which Tamil was imagined by its speakers and connects these multiple imaginings to their experience of colonial and post-colonial modernity. Focusing in particular on the transformation of the language into a goddess, mother, and maiden, Ramaswamy explores the pious, filial, and erotic aspects of Tamil devotion. She considers why, as its speakers sought political and social empowerment, metaphors of motherhood eventually came to dominate representations of the language.

Indic Manuscript Cultures through the Ages Vincenzo Vergiani, Daniele Cuneo, Camillo Alessio Formigatti, 2017-12-18 This collection of essays explores the history of the book in pre-modern South Asia looking at the production, circulation, fruition and preservation of manuscripts in different areas and across time. Edited by the team of the Cambridge-based Sanskrit Manuscripts Project and including contributions of the researchers who collaborated with it, it covers a wide range of topics related to South Asian manuscript culture: from the material dimension (palaeography, layout, decoration) and the complicated interactions of manuscripts with printing in late medieval Tibet and in modern Tamil Nadu, to reading, writing, editing and educational practices, from manuscripts as sources for the study of religious, literary and intellectual traditions, to the creation of collections in medieval India and Cambodia (one major centre of the so-called Sanskrit cosmopolis), and the formation of the Cambridge collections in the colonial period. The contributions reflect the variety of idioms, literary genres, religious movements, and social actors (intellectuals, scribes, patrons) of ancient South Asia, as well as the variety of approaches, interests and specialisms of the authors, and their impassionate engagement with manuscripts.

A Herzen Reader Alexander Herzen, 2012-11-30 A Herzen Reader presents in English for the first time one hundred essays and editorials by the radical Russian thinker Alexander Herzen (1812–1870). Herzen wrote most of these pieces for The Bell, a revolutionary newspaper he launched with the poet Nikolai Ogaryov in London in 1857. Smugglers secretly carried copies of The Bell into Russia, where it influenced debates over the emancipation of the serfs and other reforms. With his characteristic irony, Herzen addressed such issues as freedom of speech, a nonviolent path to socialism, and corruption and paranoia at the highest levels of government. He discussed what he saw as the inability of even a liberator like Czar Alexander II to commit to change. A Herzen Reader stands on its own for its fascinating glimpse into Russian intellectual life of the 1850s and 1860s. It also provides invaluable context for understanding Herzen's contemporaries, including Fyodor Dostoevsky and Ivan Turgenev.

Sumerian Lexicon John Alan Halloran, 2006 With 6,400 entries, this is the most complete available lexicon of ancient Sumerian vocabulary. It replaces version 3 of the author's Sumerian Lexicon, which has served an audience of over 380,000 visitors at the web site www.sumerian.org since 1999. This

published version adds over 2,600 new entries, and corrects or expands many of the previous entries. Also, following the express wish of a majority of online lexicon users, it has merged together and sorted the logogram words and the compound words into purely alphabetical order. This book will be an indispensable reference for anyone trying to translate Sumerian texts. Also, due to the historical position of ancient Sumer as the world's first urban civilisation, cultural and linguistic archaeologists will discover a wealth of information for research.

Rajinikanth Naman Ramachandran,2014-01-15 Rajinikanth is, quite simply, the biggest superstar cinema-crazy India has ever seen. His stylized dialogues and screen mannerisms are legion, and his guy-next-door-cum-superhero image has found a hysterically appreciative following among millions of moviegoers. Naman Ramachandran's marvellous biography recounts Rajini's career in meticulous detail, tracing his incredible cinematic journey from Apoorva Raagangal (1975) to Kochadaiyaan (2013). Along the way, the book provides rare insights into the Thalaivar's personal life, from his childhood days to his times of struggle—when he was still Shivaji Rao Gaekwad—and then his eventual stardom: revealing how a legend was born.

François Valentijn's Description of Ceylon S. Arasaratnam,2017-05-15 François Valentijn's Oud en Nieuw Oost-Indien (Old and New East Indies) has for long been regarded as a primary source of information on a number of regions of maritime Asia. It is a veritable encyclopaedia, bringing together an array of facts, trivial and vital, from a wide range of contemporary and earlier literature, acknowledged and unacknowledged, and contains valuable excerpts from contemporary documents of the Dutch East India Company and from

private papers. It is indeed a public archive. Despite this historic character of the work, it was never republished in full in a critical edition or made available in English translation. It has therefore remained relatively unknown and little read, except by the specialist wanting to quarry this mine of information for his particular purpose. This edition of Valentijn embraces the part dealing with Ceylon (now Sri Lanka) in the fifth volume of Old and New East Indies. The island of Ceylon is one of three areas that has received the most detailed treatment in the work, with substantial sections devoted to geography, topography, society, natural history and the record of historical tradition. He also provides an almost contemporaneous account of the Dutch conquest of the island. For his description of Ceylon, Valentijn has had access to a variety of sources - Sinalese, Portuguese and Dutch - and has presented this material to us with his characteristic attention to detail. The volume now published with an introduction and explanatory notes is many things for many people: a geographer's manual, a naturalist's handbook, an anthropologist's collection of caste and custom, an antiquarian's record of tradition and a chronicler's narrative of history. One of the most informative writings on Ceylon is made available, for the first time, to the English-reading public.
