Charles Storrs Halsey

An Etymology of Latin and Greek Charles Storrs Halsey,1882

The Recognitions William Gaddis,2020-11-24 A postmodern masterpiece about fraud and forgery by one of the most distinctive, accomplished novelists of the last century. The *Recognitions* is a sweeping depiction of a world in which everything that anyone recognizes as beautiful or true or good emerges as anything but: our world. The book is a masquerade, moving from New England to New York to Madrid, from the art world to the underworld, but it centers on the story of Wyatt Gwyon, the son of a New England minister, who forsakes religion to devote himself to painting, only to despair of his inspiration. In expiation, he will paint nothing but flawless copies of his revered old masters—copies, however, that find their way into the hands of a sinister financial wizard by the name of Recktall Brown, who of course sells them as the real thing. Dismissed uncomprehendingly by reviewers on publication in 1955 and ignored by the literary world for decades after, *The Recognitions* is now established as one of the great American novels, immensely ambitious and entirely unique, a book of wild, Boschian inspiration and outrageous comedy that is also profoundly serious and sad.

Fielding,2017-10-19 This book highlights Ovid's influence on important later Latin authors writing from the fourth to the sixth centuries in Europe and Africa.

Lucian's The Ass Lucian (of Samosata.),Evan Hayes,Stephen A. Nims,2012 The aim of this book is to make Lucian's *The Ass* accessible to intermediate students of Ancient Greek. The running vocabulary and commentary are meant to provide everything necessary to read each page. *The Ass* is a great intermediate Greek text. The narrative is fast-paced and funny, and the language is fairly simple and easy to follow. Unlike its better-known Latin relative, Apuleius' *Golden Ass*, Lucian's *The Ass* is an unpretentious satirical text that tells a funny story in a casual and light-hearted manner. There is little moralizing or didacticism in the story, and unlike the hero of Apuleius's version of the story, there is no religious or philosophical illumination at the end. The final episode is a funny twist of events completely in tune with the tenor of the rest of the novel. There is a hilarious love-making episode with lots of double-entendre, and other episodes that portray the doings of various low-life characters who are rarely present in ancient literature at all. Thieves, religious charlatans, witches, millers, servants, soldiers and bakers all find a place in this strange story of chance and magic.

An Etymological Dictionary of the Latin Language Francis Edward Jackson Valpy,1828 *An Etymological Dictionary of the Latin Language* by Francis Edward Jackson Valpy, first published in 1828, is a rare manuscript, the original residing in one of the great libraries of the world. This book is a reproduction of that original, which has been scanned and cleaned by state-of-the-art publishing tools for better readability and enhanced appreciation. Restoration

Editors' mission is to bring long out of print manuscripts back to life. Some smudges, annotations or unclear text may still exist, due to permanent damage to the original work. We believe the literary significance of the text justifies offering this reproduction, allowing a new generation to appreciate it.

Capital, Interrupted Vinay K. Gidwani, The central Gujarat region of western India is home to the entrepreneurial landowning Patel caste who have leveraged their rural dominance to become a powerful global diaspora of merchants, industrialists, and professionals. Investigating the Patels' intriguing ascent, Vinay Gidwani analyzes its broad implications for the nature of labor and capital worldwide. With the Patels as his central case, Gidwani interrogates established concepts of value, development, and the relationship between capital and history. Capitalism, he argues, is not a frame of economic organization based on the smooth, consistent operation of a series of laws, but rather an assemblage of contingent and interrupted logics stitched together into the appearance of a *deus ex machina*. Following this line of thinking, Gidwani points to ways in which political economy might be freed of its lingering Eurocentrism, raises questions about the adequacy of postcolonial studies' critique of Marx and capitalism, and opens the possibility of situating capitalism as a geographically uneven social formation in which different normative or value-creating practices are imperfectly sutured together in ways that can equally impair and enable profit and accumulation. Both theoretically astute and empirically informed, *Capital, Interrupted* unsettles encrusted understandings of staple concepts within the human sciences such as hegemony, governmentality, caste, and agency and, ultimately, does nothing less than rethink the very constitution of capitalism. Vinay Gidwani is associate professor of geography and global studies at the University of Minnesota.

Inter Cives Necnon Peregrinos Jan Hallebeek, Roberto Fiori, Martin Josef Schermaier, Jean-Pierre Coriat, Ernest Metzger, 2014 The contributions to this volume are concerned with

the Roman law of antiquity in its broadest sense, covering both private and public law from the Roman Republic to the Byzantine era, including legal papyrology. They also examine the reception of Roman law in Western Europe and its colonies (specifically the Dutch East Indies) from the Middle Ages to the promulgation of the German Burgerliche Gesetzbuch in 1900. They reflect the wide interests of Professor Boudewijn Sirks, whom the volume honours on the occasion of his retirement and whose work and career have transcended frontiers and nations.

The History of the Origins of Christianity Book VII - Marcus-Aurelius Joseph Ernest Renan, 2017-01-06 In this last and final volume of this series, Renan argues that the Roman emperor's acceptance of Stoic philosophy had great influence on the Christian church as he pushed these beliefs onto others in his empire. Although Aurelius was known as an even handed and fair ruler he influence all those around him in his philosophical thinking.

The Sacred Bridge Eric Werner, 1959 This is the first full-length comparative study of the music of the Christian and Jewish liturgies. It is designed to show the liturgical and musical interdependence of Church and Synagogue during the first millennium of the Christian era and to highlight the series of cultural exchanges between East and West that occurred during those centuries. With a wealth of scholarly evidence, the author tells the story of the development of the Christian forms of worship, both Eastern and Roman. At the same time he explains the modifications made in Jewish ceremonies and rituals, in areas where Jews and Christians lived side by side, with resulting exchange in both directions, from Church to Synagogue as well as from Synagogue to Church. Professor Werner first examines Jewish practices of worship at the time of the beginnings of Christianity and then traces the spread and modifications of these ancient Jewish, and even pre-Jewish, conceptions of sacred music and ritual as they were adapted by various Christian groups. Historical,

philological, and musicological scholarship is used to discover the complex interrelationship between Christian and Hebraic elements in prayer books, poetry and psalmody, hymns, devotional music, and all the other aspects of sacred liturgy. Professor Werner has used many sources previously neglected and has reexamined those already available. Scholars of theology, liturgy, and music, and historians as well, will find much that will stimulate further research, and all interested in the formation of the religions of the West will stand to profit from this scholarly work on the interplay of two great religious movements. --Jacket.

Mental Health and Psychopathology Ami Rokach, 2021-12-26

This volume is a compilation of articles that shed light on psychopathology, how the one struggling with it experiences its implications, and how it affects everyday life. For one to be categorized as exhibiting positive mental health, an individual should not experience psychopathology, and additionally exhibit high levels of emotional well-being as well as high levels of psychological and social functioning. The dual-factor model of mental health suggests that enhancing positive mental health and alleviating psychopathology do not automatically go together and are not opposite of one another. There is accumulating evidence that psychopathology and positive mental health function along two different continua that are only moderately interrelated. However, to know what wellbeing is, understand good mental health, and enhance adaptive functioning, we need to explore and understand psychopathology, and how it affects us. The volume is divided into three conceptual sections: The Experience of Psychopathology, which is devoted to describing what it is and how it is experienced; The Effect of Psychopathology on Everyday Life, describes various effects that psychopathology has on the daily life of the sufferer; Coherence, Resilience and Recovery, which focuses on dealing with it, coping with the symptoms, and developing resilience. The chapters in this book were originally published in The Journal of Psychology.

The Philistines and Other “Sea Peoples” in Text and Archaeology Ann E. Killebrew,2013-04-21 The search for the biblical Philistines, one of ancient Israel’s most storied enemies, has long intrigued both scholars and the public. Archaeological and textual evidence examined in its broader eastern Mediterranean context reveals that the Philistines, well-known from biblical and extrabiblical texts, together with other related groups of “Sea Peoples,” played a transformative role in the development of new ethnic groups and polities that emerged from the ruins of the Late Bronze Age empires. The essays in this book, representing recent research in the fields of archaeology, Bible, and history, reassess the origins, identity, material culture, and impact of the Philistines and other Sea Peoples on the Iron Age cultures and peoples of the eastern Mediterranean. The contributors are Matthew J. Adams, Michal Artzy, Tristan J. Barako, David Ben-Shlomo, Mario Benzi, Margaret E. Cohen, Anat Cohen-Weinberger, Trude Dothan, Elizabeth French, Marie-Henriette Gates, Hermann Genz, Ayelet Gilboa, Maria Iacovou, Ann E. Killebrew, Sabine Laemmel, Gunnar Lehmann, Aren M. Maeir, Amihai Mazar, Linda Meiberg, Penelope A. Mountjoy, Hermann Michael Niemann, Jeremy B. Rutter, Ilan Sharon, Susan Sherratt, Neil Asher Silberman, and Itamar Singer.

The Origins of Christianity: The apostles Ernest Renan,1866

Language in Time of Revolution Benjamin Harshav,2023-04-28 This book deals with two remarkable events--the worldwide transformations of the Jews in the modern age and the revival of the ancient Hebrew language. It is a book about social and cultural history addressed not only to the professional historian, and a book about Jews addressed not only to Jewish readers. It tries to rethink a wide field of cultural phenomena and present the main ideas to the intelligent reader, or, better, present a family picture of related and contiguous ideas. Many names and

details are mentioned, which may not all be familiar to the uninitiated; their function is to provide some concrete texture for this dramatic story, but the focus is on the story itself.

Baphomet Tracy R Twyman,Alexander Rivera,2015-10-31
This is the most exhaustive study ever written on the history and origins of Baphomet, worshipped by the Knights Templar. This investigation into the roots of the figure deals with Gnosticism, Hermeticism, alchemy, demonology, Cabalism, Sufism, the Yezidis, the Mandaeans, the Assassins, Freemasonry, witchcraft, Satanism, and biblical mysteries.
