Reality, Magic, and Other Lies Pauline Greenhill,2020-10-13 Exploration of fairy-tale movies that blur the line between reality and magic.

HCI International 2018 - Posters' Extended Abstracts Constantine Stephanidis,2018-06-28 The three-volume set CCIS 850, CCIS 851, and CCIS 852 contains the extended abstracts of the posters presented during the 20th International Conference on Human-Computer Interaction, HCI 2018, which took place in Las Vegas, Nevada, in July 2018. The total of 1171 papers and 160 posters included in the 30 HCII 2018 proceedings volumes was carefully reviewed and selected from 4346 submissions. The 207 papers presented in these three volumes are organized in topical sections as follows: Part I: interaction and information; images and visualizations; design, usability and user experience; psychological, cognitive and neurocognitive issues in HCI; social media and analytics. Part II: design for all, assistive and rehabilitation technologies; aging and HCI; virtual and augmented reality; emotions, anxiety, stress and well-being. Part III: learning and interaction; interacting with cultural heritage; HCI in commerce and business; interacting and driving; smart cities and smart environments. The chapter 'Information at Hand - Using Wearable Devices to Display Task Information in the Context of Industry 4.0' is open access under a CC BY 4.0 license via link.springer.com.

From Paris to Pompeii Göran Blix,2013-09-04 In the early nineteenth century, as amateur archaeologists excavated Pompeii, Egypt, Assyria, and the first prehistoric sites, a myth arose of archaeology as a magical science capable of unearthing and reconstructing worlds thought to be irretrievably lost. This timely myth provided an urgent antidote to the French anxiety of amnesia that undermined faith in progress, and it armed writers from Chateaubriand and Hugo to Michelet and Renan with the intellectual tools needed to affirm the indestructible character of the past. From Paris to Pompeii reveals how the nascent science of archaeology lay at the core of the romantic experience of history and shaped the way historians, novelists, artists, and the public at large sought to cope with the relentless change that relegated every new present to history. In postrevolutionary France, the widespread desire to claim that no being, city, culture, or language was ever definitively erased ran much deeper than mere nostalgic and reactionary impulses. Göran Blix contends that this desire was the cornerstone of the substitution of a weak secular form of immortality for the lost certainties of the Christian afterlife. Taking the iconic city of Pompeii as its central example, and ranging widely across French romantic culture, this book examines the formation of a modern archaeological gaze and analyzes its historical ontology, rhetoric of retrieval, and secular theology of memory, before turning to its broader political implications.

Behind the Magic Mirror Sandra Hart,2002 Former Romper Room Teacher and Anchorwoman Sandra Hart has written her powerful memoir - a story of betrayal, murder and survival revolving around schizophrenia. A visually rich journey begins with the author's childhood in a gloomy Ohio Valley steel town and follows her through her early career on Romper Room and then her final investigation into the disappearance of her ex-husband. Surviving an early life-threatening illness, Sandra finally finds happiness in adulthood only to discover that her utopian life is a mirage. A confident personality in front of the camera, few knew that behind the scenes she was fearful of a stalker intent on destroying her. It is a searing story of a woman who leads a double life. Her public persona was that of a successful television personality, but her private life was one of personal pain and constant terror. A compassionate kaleidoscope of events of a life as it is.- Janice Lieberman, NBC-TV. A suspenseful and compelling love story in which both the reader and author are spectators in an awesome discovery. - M. Cohen. Major credit cards accepted. Magical Images Geoff Ogram,2019-11 Magical Images: A Handbook of Stereo Photography provides both practical and theoretical understanding of stereoscopic imaging, primarily via photographic techniques, both film and digital. The book is in 3 parts Part 1 consists of fifteen chapters primarily devoted to the practical aspects of three-dimensional photography and imaging. This part of the book deals with the capture, processing and viewing of stereo images. Part 2 comprises six chapters in which the theoretical principles of the subject are analyzed in detail, to emphasize how different variables can affect the quality of stereoscopic images. Part 3 is made up of fourteen supplements which contain further technical information on various features of stereo photography, both theoretical and practical! The book also contains a number of stereoscopic images taken by the author purely for readers to enjoy!
