**PoC or GTFO** Manul Laphroaig,2017-10-31 This highly anticipated print collection gathers articles published in the much-loved International Journal of Proof-of-Concept or Get The Fuck Out. PoC||GTFO follows in the tradition of Phrack and Uninformed by publishing on the subjects of offensive security research, reverse engineering, and file format internals. Until now, the journal has only been available online or printed and distributed for free at hacker conferences worldwide. Consistent with the journal's quirky, biblical style, this book comes with all the trimmings: a leatherette cover, ribbon bookmark, bible paper, and gilt-edged pages. The book features more than 80 technical essays from numerous famous hackers, authors of classics like Reliable Code Execution on a Tamagotchi, ELF's are Dorky, Elves are Cool, Burning a Phone, Forget Not the Humble Timing Attack, and A Sermon on Hacker Privilege. Twenty-four full-color pages by Ange Albertini illustrate many of the clever tricks described in the text.

The Nineties Chuck Klosterman,2022-02-08 An instant New York Times bestseller! From the bestselling author of But What if We're Wrong, a wise and funny reckoning with the decade that gave us slacker/grunge irony about the sin of trying too hard, during the greatest shift in human consciousness of any decade in American history. It was long ago, but not as long as it seems: The Berlin Wall fell and the Twin Towers collapsed. In between, one presidential election was allegedly decided by Ross Perot while another was plausibly decided by Ralph Nader. In the beginning, almost every name and address was listed in a phone book, and everyone answered their landlines because you didn't know who it was. By the end, exposing someone's address was an act of emotional violence, and nobody picked up their new cell phone if they didn't know who it was. The 90s brought about a revolution in the human condition we're still groping to understand. Happily, Chuck Klosterman is more than up to the job. Beyond epiphenomena like Cop Killer and Titanic and Zima, there were wholesale shifts in how society was perceived: the rise of the internet, pre-9/11 politics, and the paradoxical belief that nothing was more humiliating than trying too hard. Pop culture accelerated without the aid of a machine that remembered everything, generating an odd comfort in never being certain about anything. On a 90's Thursday night, more people watched any random episode of Seinfeld than the finale of Game of Thrones. But nobody thought that was important; if you missed it, you simply missed it. It was the last era that held to the idea of a true, hegemonic mainstream before it all began to fracture, whether you found a home in it or defined yourself against it. In The Nineties, Chuck Klosterman makes a home in all of it: the film, the music, the sports, the TV, the politics, the changes regarding race and class and sexuality, the yin/yang of Oprah and Alan Greenspan. In perhaps no other book ever written would a sentence like, "The video for 'Smells Like Teen Spirit' was not more consequential than the reunification of Germany" make complete sense. Chuck Klosterman has written a multi-dimensional masterpiece, a work of synthesis so smart and delightful that future historians might well refer to this entire period as Klostermanian.

**The Making of Tomb Raider** Daryl Baxter,2021-12-20 Back in 1994 at the game company ‘CORE Design’ in Derby, Lara Croft was born. Through eighteen months of pure hard work from the team, Tomb Raider was released in 1996 and became the success that we see today; taking part in the mid-nineties celebrations of Brit-Pop and Girl Power. This is the story of the team who were involved in creating the first two games, then leaving the series to a new team in 1998. Lara Croft brought class, comedy, and a James Bondian role to the game, dreamt up by Toby Gard and helped to become a pitch with Paul Douglas. The game was a gamble, but because everyone at the company believed in it, it led to huge success for everyone, except for Toby and Paul. ‘The Making of Tomb Raider’ goes into detail of how Lara and the games were born, alongside why Toby Gard and Paul Douglas left before the sequel was released. Throughout eleven chapters of countless interviews, this book will tell you who was responsible for creating the first two games; from its levels, its music, the many voices of Lara Croft, and much more. The team also reveals all about the star of the second game; Winston the Butler, and how he came to be by Joss Charmet. Over twenty people were interviewed for this story; from the pitch for what would be Tomb Raider, alongside the challenges along the way, up until the release of Tomb Raider 2 in 1997...

**The Assistants** Camille Perri,2016-05-03 “Ocean’s Eleven meets The Devil Wears Prada” (The Skimm) in this hilarious, razor-sharp debut novel about a group of overeducated and underpaid women who decide they’ve finally had enough... Rule #1: All important men have assistants. Rule #2: Men rule the world. Still. Rule #3: There is enough money. There is so much money. Tina Fontana is a thirty-year-old executive assistant to Robert Barlow, the CEO of Titan Corp., a multinational media conglomerate. She’s excellent at her job and beloved by her famous boss—but after six years of making reservations and pouring drinks from bottles that cost more than her rent, the glamour of working for a media company in New York has completely faded, but her student loan debt has not. When a technical error with Robert’s expense report presents Tina with the opportunity to pay off the entire balance of her loans with what would essentially be pocket change for her boss, she hesitates. She’s always played by the rules, but this would be a life-changer. As Tina begins to fall down the rabbit hole of her morally questionable plan, other assistants with crushing debt and fewer scruples approach her to say that they want in. Before she knows it, she’s at the forefront of a movement that has implications far beyond what anyone anticipated...

**Dog Days** Ivan Franceschini,Nicholas Loubere,2019-04-05 According to the Chinese zodiac, 2018 was the year of the ‘earthly dog’. In the middle of the long, hot, and feverish dog days of the summer of 2018, some workers at Shenzhen Jasic Technology took their chances and attempted to form an independent union. While this action was met by the harshest repression, it also led to extraordinary demonstrations of solidarity from small groups of radical students from all over the country, which in turn were immediately and severely suppressed. China’s year of the dog was also imbued with the spirit of another canine, Cerberus—the three-headed hound of Hades—with the ravenous advance of the surveillance state and the increasing securitisation of Chinese society, starting from the northwestern region of Xinjiang. This Yearbook traces these latest developments in Chinese society through a collection of 50 original essays on labour, civil society, and human rights in China and beyond, penned by leading scholars and practitioners from around the world.
