202 Methods of Forcing Theodore Annemann, 2011-03-09 Theodore Theo Annemann (stage name Ted Anneman) born Theodore John Squires (February 22, 1907 – January 12, 1942) was an American professional magician who specialized in the field of mentalism. Annemann is most famous for inventing and refining many of the standard mentalism routines that continue to be used by magicians today. Early in his life, Annemann began working as a railroad clerk and then got into showbusiness as a tenor singer and a magician's assistant. He eventually became interested in mentalism and used his invention and performance skills to become one of the most talented and respected magicians of the 1930s. Annemann perfected his own version of the famous bullet catch illusion, performing the effect outdoors. Accounts of his performance describe the feat as a dramatic effect wherein Annemann would collapse from the apparent force of the gun and then produce the bullet from his blood-drenched mouth. In 1934 he began publishing the famous magazine *The Jinx*, for magicians. The magazine was focused on mentalism, but also featured ground-breaking effects from other fields of magic. The publication of this magazine ceased after Annemann's death and copies of it have become collector's items. Effects from the magazine have been published in several books and manuscripts, among them Annemann's *Practical Mental Magic*. This book is considered a classic in the field of mentalism. Annemann was married twice and had a daughter by his first wife. His personality is the subject of much speculation. On the night of January 12, 1942, Annemann was scheduled to perform his bullet catch indoors for the first time. Before the performance, he committed suicide. Since the subject of suicide is complicated, we may never know exactly why Theo decided to end his own life.

Fooing Houdini Alex Stone,2012-06-19 An exploration of the world of magic that teaches the reader many tricks--including how better to understand the real world. Alex Stone--journalist and part-time conjurer--is here to amaze you. But first he had to amaze his fellow magicians. Fooing Houdini is his fascinating, revealing, and nailbiting account of his attempt to win the 23rd World Championships of Magic, the Magic Olympics, the largest and most prestigious competition of its kind. Alex Stone managed to qualify for entry and began preparing to astonish people who astonish others for a living. It didn't help his nerves that he was placed on the bill straight after Canadian magician Shawn Farquhar, winner of more magic competitions than anyone in history. Stone's preparations and participation provide his readers with in-depth exploration of the world of magic, and magic's meaning. He spills many professional secrets, arguing that what is important is to ask questions about what lies behind the tricks: how the mind perceives the world and parses everyday experience, about how the mind works--and why sometimes it doesn't, about why people need to believe. As we become more attuned to the limits of our own perception, we become better at distinguishing reality from illusion, at reading the angles and decoding the fine print, he says. We gain intuition and understanding into how people behave. We even learn ways to influence this behavior. This makes us less susceptible to all manner of deception. It is to gain and maintain this sixth sense that Alex Stone--a schoolboy prestidigitator--has continued performing magic well into adulthood. In Fooing Houdini he takes us into that other world, populated by truly astounding characters, and leaves us with a heightened sense of awareness about the supposedly real world.

Mentalism from A to Z Giochidimagia,2020-07-07 Thank you and congratulations for buying the eBook "Mentalism from A to Z". The title sums up the spirit of the guide, in fact with this eBook the purpose was precisely to give an overview of the art of Mentalism, talking about the techniques used, psychology, Cold Reading and much more, not getting lost in descriptions of details that only the individual performer can and must necessarily learn and refine by trying and trying again. For this reason, no room has been given to the presentations. It seems a paradox not to mention the presence of an illusionistic effect when this is probably more than 90 percent of the effect itself, but, as said little, the presentation is something so subjective and that must be created according to the character of the performer, the context, and many other factors. In this case, it was not considered to have to report presentations, leaving the reader free to create and build those more suitable for himself and the show he wants to propose. The manual also wants to clarify many controversial aspects of Mentalism. The reason is simple: to give the illusion that the effects of Mentalism are made with NDP, non-verbal communication techniques, reading of micro-facial expressions, and those who have more. The biggest mental effect of the performers in recent years, for example, Derren Brown, whose style was then taken and brought back to the individual countries by local artists, is just this. I have received hundreds of calls and emails from people who have become passionate, in recent years to Mentalism, seeing live shows, and on TV or performances on YouTube. By talking to these people, I realized the confusion that had arisen, or rather, the illusion worked and people believed it. Of course, psychology has to do with mentalism, but how will you understand it by reading the manual. With this guide, you will clarify your ideas on the Mentalism issue and you will have the tools to be able to create YOUR MENTAL EFFECTS!
