Composition Photo Workshop Blue Fier,2007-07-02 The hands-on instruction that digital photographers need to compose great shots Introducing readers to the basic elements of design, this full-color guide shows photographers step by step how to frame great compositions before they take the shot. Instructions, advice, examples, and assignments cover all types of photography.

Kiplinger's Personal Finance ,1983-10 The most trustworthy source of information available today on savings and investments, taxes, money management, home ownership and many other personal finance topics.

The Underwater Photographer Martin Edge,2006-03-17 A superb hand-on manual containing a wealth of underwater tips, hints and advice - all beautifully illustrated with brand new, full colour images. Martin Edge, a leading authority on underwater photography, will help you capture stunning effects using his popular 'think and consider' system - offering a heightened awareness and understanding of the subject matter, lighting and environment to take the perfect picture. Practical examples take you step-by-step through the basic techniaques from photographing shipwrecks, divers, marine life and abstract images to taking photographs at night and 'dual lighting'. In 1999 the late Jim Church, guru of underwater photography, said: 'As a member of the new generation of underwater photography writers, [Martin has] set a standard that will only be surpassed when [he writes] a third edition.' Here it is, we hope you enjoy it.

The Wildlife Photography Workshop Ross & Hall Hoddinott, Ben,2014-05-12 Wildlife watchers and aspiring natural-history photographers - collect up your kit and get ready for a practical course with a difference. Photographic workshops are exceptionally popular but not everybody has the time or budget to attend one in person. This 'workshop in book form' allows you to absorb the benefits of the workshop experience without actually being on location with the professionals.

Photographing Nature Ralph A. Clevenger,2009-10-29 25 years of nature photography instruction in one gorgeous, full-color, hands-on course Anyone can photograph nature—just step outside and you’re on location. But becoming a good nature photographer takes expert training. In *Photographing Nature*, Ralph Clevenger, whose images have appeared in such publications as *Nature’s Best* and *National Geographic*, shares the techniques he’s been personally using and teaching to aspiring photographers for the last 25 years in his popular nature photography course at the elite Brooks Institute. In this stunning, four-color course-in-a-book, each chapter opens with a spectacular photo spread from the natural world that Clevenger uses to illustrate themes and techniques essential to mastering nature photography. Just as he does in his classroom at Brooks, Clevenger explains how each photo was captured, the tools and techniques used, and typical problems related to capturing such a photo, along with solutions. Chapters also include sample Q&A sessions as well as assignments you can try yourself. By the time you’ve worked through all of the techniques in this beautiful, yet informative book, you’ll not only photograph the world differently, you’ll see it differently as well. With a foreword by George Lepp, one of North America’s best-known contemporary outdoor and nature photographers.

Low Vision Rehabilitation Mitchell Scheiman,Maxine Scheiman,Steven Whittaker,2007 Presents an emerging model in which occupational therapists practice as part of a team of vision rehabilitation professionals serving adults with low vision. Occupational therapists offer a unique contribution to the vision rehabilitation team, with a focus on meaningful occupational goals, the incorporation of occupation into therapy, and the orchestration of environmental, social, and non-visual personal factors into a treatment plan. The authors have developed a practical and straightforward text outlining an evaluation approach to interventions that focus on recovering occupational performance in adults.

Science as Active Inquiry Selma Wassermann,J. W. George Ivany,2022-04-25 A practical guidebook to enable teachers to address their concerns about teaching science as active inquiry, in addition to providing them with the tools and techniques for developing a science program that models how real scientists work.

Close-up Photography Michael Freeman,2004 An acclaimed professional photographer, with a display of more than 400 beautiful color images, shows how to get close-up and personal with a digital camera. Michael Freeman teaches amateurs how to meet the challenges of this very special type of photography, with plenty of information on the ins and outs of magnification, parallax control, and depth of field. See how to apply selective focus to enhance the subject and make it stand out from the background. Such issues as using found and commonplace objects and capturing the beauty of shadows, all receive detailed attention. With technical tips and software retouching projects too, this guide is simply an indispensable resource for the avid digital photographer who wants to take great close-up shots.

Boys' Life ,1979-04 Boys' Life is the official youth magazine for the Boy Scouts of America. Published since 1911, it contains a proven mix of news, nature, sports, history, fiction, science, comics, and Scouting.

John Shaw's Nature Photography Field Guide John Shaw,2011-05-03 An updated bestseller, this book of extraordinarily beautiful photographs of nature contains state-of-the-art instruction on how any photographer can aim for equally impressive results every time a camera is focused on the great outdoors. Even highly skilled photographers are often baffled by the problems facing them when they work outdoors. But with this exceptional field guide in hand, every photographer—beginner, serious amateur, semi-pro, and pro—can conquer the problems encountered in the field. Using his own exceptional work as examples, the author discusses each type of nature subject and how to

approach photographing it. Specific advice and information cover selection of equipment and lenses; how to compose a shot; how to get close ups; and other tips covering a range of techniques to enrich various types of nature photographs.
