Dirty Hungarian Mark Adamsbaum, Réka Lengyel, 2012-06-05 Improve your vulgar vocabulary with this guide to Hungarian slang, swear words, and more! Next time you're in Hungary, or just chatting in Hungarian with your friends, drop the textbook formality and bust out with expressions they never teach you in school, including: • cool slang • funny insults • explicit sex terms • raw swear words Dirty Hungarian teaches the casual expressions heard every day on the streets of Hungary: Mi a helyzet? (What's up?) Állat jó pasi a barátod. (Your boyfriend is hot shit.) Öcsém, úgy betintáztam. (Dude, I'm so wasted.) Mennem kell szarni. (I gotta take a dump.) Menj a halál faszára! (Go fuck yourself!) Lecidázol? (Can I get a blowey?) Szeretném megdöngölni. (I'd love to hit that.) And much more!

The Storyteller Anne Porter, 2009-12-01 As a child growing up in the once-beautiful city of Budapest, Anna Porter's grandfather told her stories of heroes and strife and survival, some as old as the Carpathian basin, some still holding the sting of recent war and hardship. Some were fanciful, most were true, and all gave her a personal sense of history, both national and familial. This compulsively readable saga blends one family's story with that of its homeland during one of the 20th century's most tumultuous periods.

A United Europe of Things Jakub Sawicki, Michael Lewis, Mária

Vargha, 2024-01-01 This volume studies high and late medieval material culture in a Pan-European context. The idea of 'unity of culture' in Medieval Latin Europe is well known in historical texts, especially when it concerns the so-called 'Europe North of the Alps'. This book investigates the similarities and differences in material culture between areas, regions and political entities and opens the dialogue for a more interregional discussion. The editors acknowledge that there are numerous challenges in understanding the phenomenon the volume addresses, the fundamental one being defining (or even redefining) a common material culture of Europe. Important in determining this is greater appreciation of how objects reflect interactions between peoples, both local and foreign, which can be driven by a variety of factors, including trade, conflict and diplomacy etc. But just as important is observing the differences between 'things' across Europe, reflecting developments and transformations its cultural, social and economic history. These works are traditionally presented in isolation or at the local level, maybe even in very specialized tomes, as often it is thought their observation are not relevant to wider discourses. Conversely, what is clear,

however, is that by interconnecting these seemingly introvert studies of specific artefact types or sites etc., readers can better appreciate the similarities and differences in material culture across Europe. This book is of interest to researchers in archaeology and material culture.

Twenty-Five Sides of a Post-Communist Mafia State Bálint Magyar,Júlia Vásárhelyi,2017-01-01 The twenty-five essays accompany, illustrate and underpin the conceptual framework elaborated in *Post-Communist Mafia State*, published in conjunction with this volume. Leading specialists analyze the manifestations of the current political regime in Hungary from twenty-five angles. Topics discussed include the ideology, constitutional issues, social policy, the judiciary, foreign relations, nationalism, media, memory politics, corruption, civil society, education, culture and so on. Beyond the basic features of the economy the domains of taxation, banking system, energy policies and the agriculture are treated in dedicated studies. The essays are based on detailed empirical investigation about conditions in today's Hungary. They nevertheless contribute to the exploration of the characteristic features of post-communist authoritarian regimes, shared by an increasing number of countries in Europe and Central Asia.

Magyar concordántzia, avagy az Ó és Új Testamentomra mutató tábla ...
Mihály Körösi,1788

A Balaton regénye Bodrossy Leo, Eötvös Károly száz évvel ezelőtt megjelent útirajza óta ez az első olyan kötet, amely a tájegységet teljes egészében mutatja be. A Balatonról szóló, ez idáig kiadott nagyszámú írásmű a tó és a táj egy-egy kiragadott részletét érinti és tárja föl, azonban a magyar tenger - a maga hússzezer éves történelmével - sokkal több figyelmet érdemel ennél. A Balaton regénye kultúrtörténeti, tudományos ismeretterjesztő mű, amelyben hiteles adatokra épülő leírások kapcsolódnak az életképekhez és a szájhagyományhoz. A számos illusztráció mellett benne van mindaz, amiről a tó és környéke olvasmányos formában regélni képes.
