Craft in Art Therapy Lauren Leone, 2020-07-27 Craft in Art Therapy is the first book dedicated to illustrating the incorporation of craft materials and methods into art therapy theory and practice. Contributing authors provide examples of how they have used a range of crafts including pottery, glass work, textiles (sewing, knitting, crochet, embroidery, and quilting), paper (artist books, altered books, book binding, origami, and zines), leatherwork, and Indian crafts like mendhi and kolam/rangoli in their own art and self-care, and in individual, group, and community art therapy practice. The book explores the therapeutic benefits of a range of craft materials and media, as well as craft's potential to build community, to support individuals in caring for themselves and each other, and to play a valuable role in art therapy practice. Craft in Art Therapy demonstrates that when practiced in a culturally sensitive and socially conscious manner, craft practices are more than therapeutic—they also hold transformational potential.

Mahjong Annelise Heinz, 2021-04-05 How has a game brought together Americans and defined separate ethnic communities? This book tells the first history of mahjong and its meaning in American culture. Click-click-click. The sound of mahjong tiles connects American expatriates in Shanghai, Jazz Age white Americans, urban Chinese Americans in the 1930s, incarcerated Japanese Americans in wartime, Jewish American suburban mothers, and Air Force officers' wives in the postwar era. Mahjong: A Chinese Game and the Making of Modern American Culture illustrates how the spaces between tiles and the moments between games have fostered distinct social cultures in the United States. This mass-produced game crossed the Pacific, creating waves of popularity over the twentieth century. Annelise

Heinz narrates the history of this game to show how it has created a variety of meanings, among them American modernity, Chinese American heritage, and Jewish American women's culture. As it traveled from China to the United States and caught on with Hollywood starlets, high society, middle-class housewives, and immigrants alike, mahjong became a quintessentially American game. Heinz also reveals the ways in which women leveraged a game to gain access to respectable leisure. The result was the forging of friendships that lasted decades and the creation of organizations that raised funds for the war effort and philanthropy. No other game has signified both belonging and standing apart in American culture. Drawing on photographs, advertising, popular media, and dozens of oral histories, Heinz's rich and colorful account offers the first history of the wildly popular game of mahjong.

***Mah Jongg: The Art of the Game* Ann Israel,Gregg**

Swain,2014-11-18 I thoroughly enjoyed this book. Whether used as a reference or a beautiful keepsake, it's a very worthy addition to the world of Mah Jongg. —Ruth Unger, President, National Mah Jongg League This is the first book to fully capture the story of the exotic and exciting game of Mahjong or Mah Jongg, offering an intimate look at the history of the game as well as the visual beauty of the tiles.

When authors Ann Israel and Gregg Swain began playing Mahjong, they were unaware of the vintage collections that existed not only in the United States but also across the globe. Slowly, they started to collect their own sets of Mahjong and as their collections grew, so did their appreciation of the history of, and interest in, the game. Finding few references, Israel and Swain set out to create a book that chronicles the early beginnings of the game and documents Mahjong sets from the most basic, made simply of paper, to the most precious materials such as ivory and mother-of-pearl. Recognized and respected scholars and game experts have collaborated with Israel and Swain, contributing important chapters on the game's history and its pieces as well as technical information on the tiles. Lastly, great collectors from around the globe have shared their incredible sets and memories for the first time in one book for everyone to enjoy. With hundreds of beautiful new images by renowned photographer Michel Arnaud, and including historical documentation and ephemera, *Mah Jongg: The Art of the Game* fills the void between the past's and today's game, providing vision, inspiration and resources. Anyone who has ever been intrigued by a Mahjong tile will find in these pages visually stunning photographs that will entice them into becoming an enthusiast of the timeless game of Mahjong.

Economy, Emotion, and Ethics in Chinese Cinema David Leiwei Li, 2016-02-05 The First and Second Comings of capitalism are conceptual shorthands used to capture the radical changes in global geopolitics from the Opium War to the end of the Cold War and beyond. Centring the role of capitalism in the Chinese everyday, the framework can be employed to comprehend contemporary Chinese culture in general and, as in this study, Chinese cinema in particular. This book investigates major Chinese-language films from mainland China, Taiwan, and Hong Kong in order to unpack a hyper-compressed capitalist modernity with distinctive Chinese characteristics. As a dialogue between the film genre as a mediation of microscopic social life, and the narrative of economic development as a macroscopic political abstraction, it engages the two otherwise remotely related worlds, illustrating how the State and the Subject are reconstituted cinematically in late capitalism. A deeply cultural, determinedly historical, and deliberately interdisciplinary study, it approaches culture anthropologically, as a way of life emanating from the everyday, and aesthetically, as imaginative forms and creative expressions. *Economy, Emotion, and Ethics in Chinese Cinema* will appeal to students and scholars of Chinese cinema, cultural studies, Asian studies, and interdisciplinary studies of politics and culture.

The Art of Business Greg Clydesdale, 2017-09-14 When we look at Chinese history for a guide to business, we commonly reach for Sun Tzu's *The Art of War*, but that is a military text. It focuses on an enemy, not a trading partner, and it certainly doesn't mention customers and their role in strategy. To come to terms with Chinese commerce, we don't need to know the *Art of War*. We need to know the art of business. This book explains Chinese business in history: its practices, values and achievements. As we explore business through time, we discover the strategies which enabled Chinese merchants to become rich and gain insights into how Chinese business evolved, and continues to evolve. *The Art of Business* goes beyond the Silk Road, Marco Polo and the opium trade to examine how the many different Chinese businesses made money. It asks how merchants mastered the spatial and temporal dimensions of the market and built substantial wealth in doing so. It explores the commercial revolutions that occurred in the Tang and Song dynasties and the late Ming, and reveals business practices carried into the Ching dynasty. It explores salt merchants, the porcelain industry, Huizhou and Shanxi merchant groups, and Howqua, who became the world's richest man. The evolving nature of world commerce will place new demands on tomorrow's businesses. By examining the past, we can better understand the future in which China will once again stand like a giant.

Sensuous Surfaces Jonathan Hay, 2010-06-25 With *Sensuous Surfaces*, Jonathan Hay offers one of the most richly illustrated and in-depth introductions to the decorative arts of Ming and Qing dynasty China to date. Examining an immense number of works, he explores the materials and techniques, as well as the effects of patronage and

taste, that together have formed a loose system of informal rules that define the decorative arts in early modern China. Hay demonstrates how this system—by engaging the actual and metaphorical potential of surface—guided the production and use of decorative arts from the late sixteenth century through the middle of the nineteenth, a period of explosive growth. He shows how the understanding of decorative arts made a fundamental contribution to the sensory education of China's early modern urban population. Enriching his study with 280 color plates, he ultimately offers an elegant meditation, not only on Ming and Qing art but on the importance of the erotic in the form and function of decorations of all eras.

Scales of Injustice Hô Lōa, 2018-04-27 Lōa Hô (also Lai He, 1894-1943) was a pioneering writer from Taiwan often called the 'father of New Taiwanese Literature'. As a doctor during the colonial period in Taiwan, Loa witnessed the cruelty of Japanese rule and wrote stories which display both his sense of justice and social insight. His writing often utilized irony and satire to criticize the status quo, and his work provides a fascinating window into the struggle for Taiwanese self-determination during the early twentieth century. *Scales of Injustice* contains the complete fiction of Loa Hô, with an expert introduction from Pei-yin Lin and explanatory notes by translator Darryl Sterk.

Ink Art Maxwell K. Hearn, 2013 Featuring 70 works in various media--paintings, calligraphy, photographs, woodblock prints, video, and sculpture--that were created during the past three decades, **Ink Art: Past as Present in Contemporary China** will demonstrate how China's ancient pattern of seeking cultural renewal through the reinterpretation of past models remains a viable creative path. Although all of the artists have transformed their sources through new modes of expression, visitors will recognize thematic, aesthetic, or technical attributes in their creations that have meaningful links to China's artistic past. The exhibition will be organized thematically into four parts and will include such highlights as Xu Bing's dramatic **Book from the Sky** (ca. 1988), an installation that will fill an entire gallery; **Family Tree** (2000), a set of vivid photographs documenting a performance by Zhang Huan in which his facial features--and his

identity--are obscured gradually by physiognomic texts that are inscribed directly onto his face; and Map of China (2006) by Ai Weiwei, which is constructed entirely of wood salvaged from demolished Qing dynasty temples. --
