Mah Jongg: The Art of the Game Ann Israel, Gregg Swain, 2014-11-18 I thoroughly enjoyed this book. Whether used as a reference or a beautiful keepsake, it's a very worthy addition to the world of Mah Jongg. —Ruth Unger, President, National Mah Jongg League This is the first book to fully capture the story of the exotic and exciting game of Mahjong or Mah Jongg, offering an intimate look at the history of the game as well as the visual beauty of the tiles. When authors Ann Israel and Gregg Swain began playing Mahjong, they were unaware of the vintage collections that existed not only in the United States but also across the globe. Slowly, they started to collect their own sets of Mahjong and as their collections grew, so did their appreciation of the history of, and interest in, the game. Finding few references, Israel and Swain set out to create a book that chronicles the early beginnings of the game and documents Mahjong sets from the most basic, made simply of paper, to the most precious materials such as ivory and mother-of-pearl. Recognized and respected scholars and game experts have collaborated with Israel and Swain, contributing important chapters on the game's history and its pieces as well as technical information on the tiles. Lastly, great collectors from around the globe have shared their incredible sets and memories for the first time in one book for everyone to enjoy. With hundreds of beautiful new images by renowned photographer Michel Arnaud, and including historical documentation and ephemera, Mah Jongg: The Art of the Game fills the void between the past's and today's game, providing vision, inspiration and resources. Anyone who has ever been intrigued by a Mahjong tile will find in these pages visually stunning photographs that will entice them into becoming an enthusiast of the timeless game of Mahjong.

The Global Rules of Art Larissa Buchholz, 2022-11-22 A trailblazing look at the historical emergence of a global field in contemporary art and the diverse ways artists become valued worldwide Prior to the 1980s, the postwar canon of “international” contemporary art was made up almost exclusively of artists from North America and Western Europe, while cultural agents from other parts of the world often found themselves on the margins. The Global Rules of Art examines how this discriminatory situation has changed in recent decades. Drawing from abundant sources—including objective indicators from more than one hundred countries, multiple institutional histories and discourses, extensive fieldwork, and interviews with artists, critics, curators, gallerists, and auction house agents—Larissa Buchholz examines the emergence of a world-spanning art field whose logics have increasingly become defined in global terms. Deftly blending comprehensive historical analyses with illuminating case studies, The Global Rules of Art breaks new ground in its exploration of valuation and how cultural hierarchies take shape in a global context. The book’s innovative global field approach will appeal to scholars in the sociology of art, cultural and economic sociology, interdisciplinary global studies, and anyone interested in the dynamics of global art and culture.

The Art of Modern China Julia F. Andrews, Kuiyi Shen, 2012-09-24 “The Art of Modern China is a long-awaited, much-needed survey. The authors’ combined experience in this field is exceptional. In addition to presenting key arguments for students and arts professionals, Andrews and Shen enliven modern Chinese art for all readers. The Art of Modern China gives just treatment to an expanded field of overlooked artworks that confront the challenges of modernization.”—De-nin Deanna Lee, author of The Night Banquet: A Chinese Scroll through Time.

Chinese Contemporary Art in the Global Auction Market Anita Archer, 2022-04-04 Chinese Contemporary Art in the Global Auction Market charts the rapid emergence of a multi-million-dollar global market for Chinese Contemporary art by revealing the strategic activities of art world agents in promoting the work of ‘avant-garde’ Chinese artists to a Western audience.

Mahjong Annelise Heinz, 2021 Mahjong: A Chinese Game and the Making of Modern American Culture illustrates how the spaces between tiles and the moments between games have fostered distinct social cultures in the United States. This mass-produced game crossed the Pacific, creating waves of popularity over the twentieth century. Mahjong narrates the history of this game to show how it has created a variety of meanings, among them American modernity, Chinese American heritage, and Jewish American women's culture. As it travelled from China to the United States and caught on with Hollywood starlets, high society, middle-class housewives, and immigrants alike, mahjong became a quintessentially American pastime. This book also reveals the ways in which women leveraged a game for a variety of economic and cultural purposes, including entrepreneurship, self-expression, philanthropy, and ethnic community building. One result was the forging of friendships within mahjong groups that lasted decades. This study unfolds in two parts: the first half is focused on mahjong's history as related to consumerism, with a close examination of its economic and cultural origins. The second half of the book explores how mahjong interwove with the experiences of racial inclusion and exclusion in the evolving definition of what it means to be

American. Mahjong players, promoters, entrepreneurs, and critics tell a broad story of American modernity. The apparent contradictions of the game - as both American and foreign, modern and supposedly ancient, domestic and disruptive of domesticity - reveal the tensions that lie at the heart of modern American culture--

The Mahjong Murder Mysteries Dale A. Johnson,

Modern Chinese Religion II: 1850 - 2015 (2 vols) ,2015-10-20 This book examines the transformation of values in China since 1850, first in the “secular” realms of economics, science, medicine, aesthetics, media and gender, and then in each of the major religions (Confucianism, Buddhism, Daoism, Christianity) and in Marxist discourse.

Digital Forensic Education Xiaolu Zhang,Kim-Kwang Raymond Choo,2019-07-24 In this book, the editors explain how students enrolled in two digital forensic courses at their institution are exposed to experiential learning opportunities, where the students acquire the knowledge and skills of the subject-matter while also learning how to adapt to the ever-changing digital forensic landscape. Their findings (e.g., forensic examination of different IoT devices) are also presented in the book. Digital forensics is a topic of increasing importance as our society becomes “smarter” with more of the “things” around us been internet- and inter-connected (e.g., Internet of Things (IoT) and smart home devices); thus, the increasing likelihood that we will need to acquire data from these things in a forensically sound manner. This book is of interest to both digital forensic educators and digital forensic practitioners, as well as students seeking to learn about digital forensics.

Moments of Valuation Ariane Berthoin Antal,Michael Hutter,David Stark,2015 The outcome of innovation processes are determined by complex, historically grown valuation practices. In this book, a wide range of innovations are taken into consideration, from small inventions like entertainment novelties to large societal changes through new technologies. The chapters observe the particular local or distributed sites in which their episodes of innovation take place, and they identify the initial dissonance among those judging a newly proposed alternative. The emphasis of the inquiry, however, is on the practices of valuation that are at work when something succeeds in being new. The authors represent a wide variety of sub-disciplines and national backgrounds in the social sciences. They share an interest in social valuation and a pragmatist approach. The differences between their empirical evidence reflect the wide variety of appearances that valuation takes in contemporary society. They are anthropologists, economic or cultural sociologists, organization researchers, historians or political scientists. A number of chapters deals with aesthetic valuation, as in the tasting of a new vintage, or in the socio-technical process that shaped successful synthesizer sounds. Other chapters discuss the judgment processes in organizations, like architect offices or consultancy firms, and processes of evaluation and valorization in larger fields of practice, like accounting or mathematics. The studies are both of interest in their various professional fields, and contribute to a more general understanding of the social and cultural conditions under which innovations fail and succeed.

Cosmopolitan Canvases Olav Velthuis,Stefano Baia Curioni,2015-03-12 Since the late 1990s, contemporary art markets have emerged rapidly outside of Europe and the United States. China is now the world's second largest art market. In counties as diverse as Brazil, Turkey and India, modern and contemporary art has been recognized as a source of status, or a potential investment tool among the new middle classes. At art auctions in the US, London and Hong Kong, new buyers from emerging economies have driven up prices to record levels. The result of these changes has been an increase in complexity, interconnectedness, stratification and differentiation of contemporary art markets. Our understanding of them is still in its early stages and empirical research in the field of globalization of high arts is still scarce. This book brings together recent, multidisciplinary, cutting edge research on the globalization of art markets. Focusing on different regions, including China, Russia, India and Japan, as well as different institutions and organizations, the chapters in this volume study the extent to which art markets indeed become global. They show the various barriers to, and the effects of, globalization on the art market's organizational dynamics and the everyday narratives of people working within the art industry. In doing so, they recognize the coexistence of various ecologies of contemporary art exchange, and sketch the presence of resilient local networks of actors and organizations. Some chapters show Europe and the US continue to dominate, especially when taking art market rankings and the most powerful events such as Art Basel into account. However, other chapters argue that things such as art fairs are truly global events and that the 'architecture of the art market' which has originally been developed in Europe and the US from the 19th century onwards, is increasingly adopted across the world.

Local Invisibility, Postcolonial Feminisms Laura Fantone,2018-03-22 This book offers gendered, postcolonial insights into the poetic and artistic work of four generations of female Asian American artists in the San Francisco Bay Area. Nancy Hom, Betty Kano, Flo Oy Wong, Trinh T. Minh-ha, Theresa H.K. Cha, and Hung Liu are discussed in relation to the cultural politics of their time, and their art is examined in light of the question of what it means to be an Asian American artist. Laura Fantone’s exploration of this dynamic, understudied artistic community begets a sensitive and timely reflection on the state of Asian American women in the USA and in Californian cultural institutions.

Negotiating Difference John Clark,Juliane Noth,Birgit Hopfener,Brianne Cohen,Silke von Berswordt,Wang Ching-ling,Doris Ha-lin Sung,Adele Tan,Zheng Bo,Beatrice Leanza,Thomas Berghuis,Peggy Wang,Pauline Yao,Paul Gladston,Joe Martin Hill,Lee Ambrozy,Wenny Teo,Franziska Koch,Andreas Schmid,David Quadrio,2012-07-12 Contemporary Chinese art is still a young field now being opened up to critical academic research. Negotiating Difference is a pioneering collection of articles which engage with contemporary Chinese art in a global context. The contributions collectively address the urgent methodological question of how to describe, contextualize and theorize artworks and artistic processes in and beyond the People's Republic of China since the end of the Cultural Revolution. The studies break new ground as they chalk out the transcultural entanglements of which art and its practices partake and which they in turn reconfigure. The book features 20 essays written by a select group of international junior and senior scholars engaged in ambitious and methodologically innovative research on contemporary Chinese art. Their multi-faceted, in part interdisciplinary approaches are complemented by four contributions by distinguished practitioners in the field, who - as art curators and critics - are located in China and explore key developments within Chinese art and the changing art scene of the last three decades.

Historical Dictionary of Chinese Cinema Tan Ye,Yun Zhu,2012-10-04 Motion pictures were first introduced to China in 1896 and today China has become a major player in the film industry. However, the story of how Chinese cinema became what it is today is an exceptionally turbulent one. It encompasses incursions by foreign powers, warfare among contending rulers, the collapse of the Chinese empire, and the massive setback of the Cultural Revolution. The Historical Dictionary of Chinese Cinema covers the history of Chinese cinema from its very beginning in 1896 to the present. This is done through a chronology, an introductory essay, appendixes, and an extensive bibliography. The dictionary section contains several hundred cross-referenced dictionary entries on films, directors, and historical figures. This book is an excellent access point for anyone interested in Chinese cinema and for scholars interested in investigating ideas for future research.
