Kimelman addresses the most pressing questions of our time (such as oil and immigration) and shows you how to raise your economic IQ so you can enjoy a more comfortable, assured, and intelligent life. Cents and Sensibility Gary Saul Morson,Morton Schapiro,2018-09-25 In Cents and Sensibility, an eminent literary critic and a leading economist make the case that the humanities—especially the study of literature—offer economists ways to make their models more realistic, their predictions more accurate, and their policies more effective and just. Arguing that Adam Smith’s heirs include Austen, Chekhov, and Tolstoy as much as Keynes and Friedman, Gary Saul Morson and Morton Schapiro trace the connection between Adam Smith’s great classic, The Wealth of Nations, and his less celebrated book on ethics, The Theory of Moral Sentiments. The authors contend that a few decades later, Jane Austen invented her groundbreaking method of novelistic narration in order to give life to the empathy that Smith believed essential to humanity. More than anyone, the great writers can offer economists something they need—a richer appreciation of behavior, ethics, culture, and narrative. Original, provocative, and inspiring, Cents and Sensibility demonstrates the benefits of a dialogue between economics and the humanities and also shows how looking at real-world problems can revitalize the study of literature itself. Featuring a new preface, this book brings economics back to its place in the human conversation.

Hustle Harder, Hustle Smarter Curtis "50 Cent" Jackson,2020-04-28 NEW YORK TIMES BESTSELLER For the first time, Curtis “50 Cent” Jackson opens up about his amazing comeback—from tragic personal loss to thriving businessman and cable’s highest-paid executive—in this unique self-help guide, his first since his blockbuster New York Times bestseller The 50th Law. In his early twenties Curtis Jackson, known as 50 Cent rose to the heights of fame and power in the cutthroat music business. A decade ago the multi-platinum selling rap artist decided to pivot. His ability to adapt to change was demonstrated when he became the executive producer and star of Power, a high-octane, gripping crime drama centered around a drug kingpin’s family. The series quickly became “appointment” television, leading to Jackson inking a four-year, \$150 million contract with the Starz network—the most lucrative deal in premium cable history. Now, in his most personal book, Jackson shakes up the self-help category with his unique, cutting-edge lessons and hard-earned advice on embracing change. Where The 50th Law tells readers “fear nothing and you shall succeed,” Hustle Harder, Hustle Smarter builds on this message, combining it with Jackson’s street smarts and hard-learned corporate savvy to help readers successfully achieve their own comeback—and to learn to flow with the changes that disrupt their own lives.
