

Make Change Not Waste

JS Bruner

Waste Not Erin Rhoads, 2018-07-01 'This is a much-needed guidebook from a true agent of change.' Sarah Wilson The one book you need to reduce waste at home and in everyday life. We need to talk about waste. Shrink-wrapped vegies, disposable coffee cups, clothes and electronics designed to be upgraded every year: we are surrounded by stuff that we often use once and then throw away. Globally, many individual households produce enough rubbish to fill a three-bedroom home every year. This includes thousands of dollars worth of food and an ever-increasing amount of plastic, which takes hundreds of years to break down and often ends up in our oceans or our food chain. But what to do about such a huge problem? Is it just the price we pay for the conveniences of modern life? What if it were possible to have it both ways - to live a modern life with less waste? That's where Erin Rhoads, aka The Rogue Ginger, comes in. Erin went from eating plastic-packaged takeaway while shopping online for fast fashion, to becoming one of Australia's leading eco-bloggers. Erin knows that small changes can have a big impact. In *Waste Not* she shares everything she's learnt from her own funny, inspiring - and far-from-perfect - journey to living with less waste, to help you tackle your own war on waste. Learn how to: switch out the disposable plastics from your shopping trolley make simple cleaning solutions free from harmful chemicals find your favourite beauty products without all the packaging give a baby shower present that won't end up in the charity shop bag plan your own zero-waste wedding (and what 'zero waste' even means!) Edited, produced and printed using low-waste principles on sustainably sourced paper with soy inks

The Waste-Free World Ron Gonen, 2021-04-06 The next revolution in business will provide for a

sustainable future, from founder, CEO and circular economy expert Ron Gonen Our take-make-waste economy has cost consumers and taxpayers billions while cheating us out of a habitable planet. But it doesn't have to be this way. The Waste-Free World makes a persuasive, forward-looking case for a circular economic model, a "closed-loop" system that wastes no natural resources. Entrepreneur, CEO and sustainability expert Ron Gonen argues that circularity is not only crucial for the planet but holds immense business opportunity. As the founder of an investment firm focused on the circular economy, Gonen reveals brilliant innovations emerging worldwide- "smart" packaging, robotics that optimize recycling, nutrient rich fabrics, technologies that convert food waste into energy for your home, and many more. Drawing on his experience in technology, business, and city government and interviews with leading entrepreneurs and top companies, he introduces a vital and growing movement. The Waste-Free World invites us all to take part in a sustainable and prosperous future where companies foster innovation, investors recognize long term value creation, and consumers can align their values with the products they buy.

Things You Can Do Eduardo Garcia, 2022-04-19
Learn what you can do right now to reduce your carbon footprint with this inspiring, accessible, stunningly illustrated book based on Eduardo Garcia's popular New York Times column. "This beautiful and practical book on the climate crisis is for people of all ages, packed with wonderful pictures, powerful stats, and sound advice."-Mike Berners-Lee, author of There Is No Planet B Award-winning climate journalist Eduardo Garcia offers a deeply researched and user-friendly guide to the things we can do every day to fight climate change. book proposes simple solutions for an overwhelming problem. No lectures here—just accessible and inspiring ideas to slash emissions and waste in our daily lives, with over 350 explanatory illustrations by talented painter Sara Boccaccini Meadows. In each chapter, Garcia digs into the issue, explaining how everyday choices lead to carbon emissions, then delivers a wealth of “Things You Can Do” to make a positive impact, such as: • Eat a climate-friendly diet • Reduce food waste • Cool your home without an air conditioner • Save energy at home • Adopt zero-waste practices • Increase the fuel efficiency of your car • Buy low-carbon pet food • Hack your toilet to save water • Slash the carbon footprint of your online shopping Delivering a decisive hit of knowledge with every turn of the page, Things You Can Do is the book for people who want to know more—and do more—to save the planet.

Cook More, Waste Less Christine

Tizzard, 2021-09-07 An indispensable cookbook of delicious, flexible recipes, and easy, everyday solutions to reduce the amount of food waste you produce—for life. THE STATS ON FOOD WASTE ARE STAGGERING: currently one-third of all the food produced in the world is thrown away. Going zero-waste with food isn’t some-thing we’ll reach overnight, nor is it a hard and fast rule; but it’s something we should all be moving towards—to help the environment, and our own wallets too! Cook More, Waste Less uses recipe icons to guide you, and shows you how, for example, to cook a hearty Pot Roast and turn the leftovers into a Savory Pie, and then use the bones to make a stock to freeze for when you next make soup. And, how to make a meal of Simple Roasted Vegetables, then whip up a frittata the next morning, and use any scraps for Stone Soup. If you’ve got some extra rice? Turn it into Fancy Fried Rice with other ingredients in your fridge, or Leftover Rice

Pudding for dessert. Fruit going soft? Turn it into Any Way Marmalade, or use banana peels for This Bread is Bananas. Fresh herbs or greens wilting? Put them in a pesto! Christine also includes guides on how to mix and match any array of vegetables, meats, and plant-based proteins for flexible, fast recipe ideas like Pasta Night or Taco Tuesdays. This definitive cookbook even looks beyond meals to other creative uses for extra foods, like making pet treats, beauty treatments, and home cleaning products, and it features advice from other experts—such as composting tips from Carson Arthur, and food waste solutions from Anna Olson, Bob Blumer, and Todd Perrin. *Cook More, Waste Less* is a life-changing cookbook that gives you simple and actionable steps on what you'll cook next—and what you won't throw away.

Routledge Handbook of Food Waste Christian Reynolds, Tammara Soma, Charlotte Spring, Jordon Lazell, 2020-01-13 This comprehensive handbook represents a definitive state of the current art and science of food waste from multiple perspectives. The issue of food waste has emerged in recent years as a major global problem. Recent research has enabled greater understanding and measurement of loss and waste throughout food supply chains, shedding light on contributing factors and practical solutions. This book includes perspectives and disciplines ranging from agriculture, food science, industrial ecology, history, economics, consumer behaviour, geography, theology, planning, sociology, and environmental policy among others. The *Routledge Handbook of Food Waste* addresses new and ongoing debates around systemic causes and solutions, including behaviour change, social innovation, new technologies, spirituality, redistribution, animal feed, and activism. The chapters describe and evaluate country case studies, waste management, treatment, prevention, and reduction approaches,

and compares research methodologies for better understanding food wastage. This book is essential reading for the growing number of food waste scholars, practitioners, and policy makers interested in researching, theorising, debating, and solving the multifaceted phenomenon of food waste.

HowExpert Guide to Recycling HowExpert, Jen Thilman, 2023-01-03 If you want to learn how to recycle, eliminate disposables, reduce waste & pollution, conserve resources, save energy, and protect the environment, then check out HowExpert Guide to Recycling. Have you ever been gaslighted? You know, grossly misled to believe something for the benefit of someone else? Unfortunately, we've all been victims of this for decades by big corporations, especially the oil industry. They have spent billions to convince us that climate change is our fault. That if we dispose of our trash the right way and lower our carbon footprint, we wouldn't have the environmental problems we are now facing. Nothing could be further from the truth. This guide will show how we've been misled to believe this narrative in order to protect corporate profits and how changing our disposable habits, and fighting misinformation is the best thing we can do to beat climate change. Corporations have lied to keep us buying their products and distracted from the fact that waste and emissions are caused by how they do business. - Single-use plastics are a big money-maker for the fossil fuel industry. - They created the triangle symbol to make us think plastics will recycle, even though that can't easily be done. - Manufacturers choose not to invest in recycled packaging and materials. - Virgin materials mined from Earth are cheaper and often subsidized. - Technology exists to eliminate most of the greenhouse gas emissions they cause. - It's time

to fight for the truth and take matters into our own hands. What we buy and how it's made affects how well reduce, reuse, and recycle works. Using the power of our voices and wallets, we can make corporations change how they do business. - They answer to us, the people who buy their products and invest in their stock. - We can insist they take responsibility for the damage they cause. - We have the power to fight climate change at home and in our cities. - I don't know about you, but I'm not ready to leave the health and well-being of my family in the hands of people who I hope will figure this mess out. - We all need to change for the better of our planet and our lives. - There are alternatives to buying disposable goods and packaging. - Buy durable goods and reusable packaging to save money and the planet. - Reduce and reuse packaging. First, eliminate plastic shopping bags. - We can do things differently to change our eating and buying habits. - A lot of trash comes with convenience dining, like packaged and fast foods. - Buying used products reduces wasted energy, materials, and water. - It's time we use our buying power and our votes to change for the better. - Waste of anything - food, energy, goods - needs to be eliminated. - Elect representatives who put people before corporations. - Your voice can create change. Check out HowExpert Guide to Recycling to learn how to recycle, eliminate disposables, reduce waste & pollution, conserve resources, save energy, and protect the environment. About the Author Jen Thilman has been a recycling and zero-waste volunteer for decades, which is how she learned that recycling doesn't always work. She has spent years working in green energy technology and studies sustainable living while she strives for it in her own life. Jen completed training from the Climate Reality Project in June of 2022. Marrying her love for writing and the environment,

Jen writes blogs about how to buy sustainable products, recycle everyday items, and save the planet. Jen lives with her wirehaired terrier, Teddy Bear, in the San Francisco Bay Area. She writes non-fiction and fiction in many genres and formats. HowExpert publishes how to guides on all topics from A to Z by everyday experts.

Zero Waste Kids Robin Greenfield,2022-01-18

Inspired by internationally acclaimed environmental activist, humanitarian, and adventurer Rob Greenfield, Zero Waste Kids fun and easy illustrated projects and activities that will help your family reduce, reuse, and recycle at home, at school, and in your community. While most kids probably aren't going to grow all their own food for a year like Rob has, Zero Waste Kids features fun and practical projects for growing some of your own food, with advice and encouragement for why doing so is important. And, instead of wearing all their trash for a week like Rob did, with Zero Waste Kids, they'll learn how to audit their trash, to really understand how much waste they're personally contributing to the earth's landfills. Zero Waste Kids helps children to understand the world they live in and inspire them to start living in a more sustainable way. Of all the environmental problems we face, "trash" is one that is easiest to understand because it is very visual, whereas many other problems are more abstract. Zero-waste isn't the solution to the world's problems, but a very good place to start. Zero-Waste projects include: Conduct a household trash audit to discover who throws away what and why. Swap disposable shopping bags and lunch boxes for reusable, zero-waste options. Compost your food scraps and grow your own food. Make natural-dye play dough, leaf prints, and more. Zero Waste

Kids is every kid's go-to guide for making a difference. This book is printed on FSC-certified paper using soy inks. And, leading by example, Rob is donating all of his proceeds from the book to environmental nonprofit organizations. Activities contributed by April Hepokoski, Zion Lights, Heidi Rose, Alyssa Binns Gunderson, and Michelle Cassar.

The Zero-Waste Chef Anne-Marie

Bonneau,2021-04-13 *SHORTLISTED for the 2021 Gourmand World Cookbook Award* *SHORTLISTED for the 2022 Taste Canada Award for Single-Subject Cookbooks* A sustainable lifestyle starts in the kitchen with these use-what-you-have, spend-less-money recipes and tips, from the friendly voice behind @ZeroWasteChef. In her decade of living with as little plastic, food waste, and stuff as possible, Anne-Marie Bonneau, who blogs under the moniker Zero-Waste Chef, has preached that zero-waste is above all an intention, not a hard-and-fast rule. Because, sure, one person eliminating all their waste is great, but thousands of people doing 20 percent better will have a much bigger impact. And you likely already have all the tools you need to begin. In her debut book, Bonneau gives readers the facts to motivate them to do

better, the simple (and usually free) fixes to ease them into wasting less, and finally, the recipes and strategies to turn them into self-reliant, money-saving cooks and makers. Rescue a hunk of bread from being sent to the landfill by making Mexican Hot Chocolate Bread Pudding, or revive some sad greens to make a pesto. Save 10 dollars (and the plastic tub) at the supermarket with Yes Whey, You Can Make Ricotta Cheese, then use the cheese in a galette and the leftover whey to make sourdough tortillas. With 75 vegan and vegetarian recipes for cooking with scraps, creating fermented staples, and using up all your groceries before they go bad—including end-of-recipe notes on what to do with your ingredients next--Bonneau lays out an attainable vision for a zero-waste kitchen.

A Zero Waste Life Anita Vandyke,2020-04-21 A practical guide to improving your life—and your impact on the world—in thirty simple days by radically reducing waste without losing your

lifestyle. Overwhelmed by clutter, anxious about your environmental footprint, and looking to make a change? You don't have to be a rocket scientist to reconfigure your consumption—still, it doesn't hurt that Anita Vandyke is. A qualified engineer and the eco-luxe lifestyle champion behind the popular zero-waste Instagram @Rocket-Science, Anita Vandyke has made the change to a zero-waste life, and through hands-on advice and charming illustrations, she shows us that with ease and style, we can too. By incorporating thirty simple rules one day at a time, *A Zero Waste Life* is a manageable guide to forming a more conscientious, intentional life in just one month. Offered inside is guidance for tackling waste and making ethical choices when it comes to shopping, eating, travel, beauty, and more. With her signature elegance and encouraging voice, Vandyke proves that we can stop depending on plastics, tidy our homes, and clear the way for a cleaner future—and that when we stop wasting, we start living.
