**Tween Pop** Tyler Bickford, 2020-04-03 In the early years of the twenty-first century, the US music industry created a new market for tweens, selling music that was cooler than Barney, but that still felt safe for children. In *Tween Pop* Tyler Bickford traces the dramatic rise of the “tween” music industry, showing how it marshaled childishness as a key element in legitimizing children's participation in public culture. The industry played on long-standing gendered and racialized constructions of childhood as feminine and white—both central markers of innocence and childishness. In addition to *Kidz Bop*, *High School Musical*, and the Disney Channel's music programs, Bickford examines Taylor Swift in relation to girlhood and whiteness, Justin Bieber's childish immaturity, and Miley Cyrus/Hannah Montana and postfeminist discourses of work-life balance. In outlining how tween pop imagined and positioned childhood as both intimate and public as well as a cultural identity to be marketed to, Bickford demonstrates the importance of children's music to core questions of identity politics, consumer culture, and the public sphere.

Packaging Girlhood Sharon Lamb, Ed.D., Lyn Mikel Brown, Ed.D., 2007-04-01 The stereotype-laden message, delivered

through clothes, music, books, and TV, is essentially a continuous plea for girls to put their energies into beauty products, shopping, fashion, and boys. This constant marketing, cheapening of relationships, absence of good women role models, and stereotyping and sexualization of girls is something that parents need to first understand before they can take action. Lamb and Brown teach parents how to understand these influences, give them guidance on how to talk to their daughters about these negative images, and provide the tools to help girls make positive choices about the way they are in the world. In the tradition of books like *Reviving Ophelia*, *Odd Girl Out*, *Queen Bees* and *Wannabees* that examine the world of girls, this book promises to not only spark debate but help parents to help their daughters.

So Sexy So Soon Diane E. Levin, Ph.D., Jean Kilbourne, Ed.D., 2009-07-21 Risqué Halloween costumes for young girls. T-shirts that boast “Chick Magnet” for toddler boys. Sexy content on almost every television channel, as well as in movies and video games. Popular culture and technology inundate our boys and girls with an onslaught of graphic sexual messages at earlier ages than ever before. Without the emotional sophistication to understand what they are doing and seeing, kids are getting into increasing

trouble emotionally and socially. Parents are left shaking their heads, wondering: How did this happen? What can we do? Diane E. Levin, Ph.D., and Jean Kilbourne, Ed.D., internationally recognized experts in, respectively, early childhood development and the impact of the media on children and teens, offer parents essential, age-appropriate strategies to counter the assault. Filled with savvy suggestions, helpful sample dialogues, and poignant stories from families dealing with these issues, *So Sexy So Soon* provides parents with the information, skills, and confidence they need to discuss sensitive topics openly and effectively—so their kids can just be kids.

Event planner and famous blogger Clare Finnegan expected to go back to work after her daughter was born. After all, she worked hard for her success...and it's not like now that she has a child she has to buy a minivan, wear Mom Jeans, and give up her career! Right? Despite more than a few pounds of baby weight still left to lose, Clare dons her Miss Piggy Pants and returns to work. Prodigal Sons and Material Girls Nathan Dungan, 2003-05-13

In today's society many young people have lost sight of the value

of money and seem to believe that money really does grow on trees. Part expose and part survival guide, *Prodigal Sons and Material Girls* addresses the nagging issue faced by many parents today – why do their children have such unrealistic expectations about money? The book is divided into two comprehensive parts. Part I outlines the disturbing facts about America’s possession-crazed youth and the society that has distorted their views. You’ll be introduced to everything from the three-headed monster—a high-powered triumvirate of consumer products companies, media conglomerates, and advertising agencies that has tremendous influence over your children—to the distorted view of the American Dream as shaped by principles known as The Teen Commandments. In learning what you’re up against you can teach financial responsibility from a position of strength. In Part II, Dungan offers creative and convincing examples on how to leverage his highly successful Share-Save-Spend approach to money – critical elements for you to help your children break free from the materialism that has become ingrained in our society. Through insightful anecdotes and simple exercises, you will learn how to: Talk to your children about money Understand the difference between financial wants and needs Increase the

probability of your children having a prosperous life Raise your children's marketing IQ Maintain healthy financial boundaries Set a healthy example for your children to follow The Share-Save-Spend methodology will help your children establish healthy financial habits and will undoubtedly become their foundation for making a lifetime of responsible financial decisions. Nathan Dungan is an innovative leader in the financial services industry. Over the past 15 years, he has been a top-performing financial advisor outside of Philadelphia, PA and most recently served as Vice President of Marketing for Lutheran Brotherhood (now Thrivent Financial for Lutherans), a \$57 billion member-owned financial services company with nearly 3 million members. Dungan is a frequent speaker and workshop leader and has been widely quoted on this subject in the New York Times, the Wall Street Journal, USA Today and has appeared on CNN and PBS.

**Hot Feminist** Polly Vernon, 2016-01-28 'Bold, brilliant, sharp and funny...it urges women to be less judgemental of each other and of themselves. It's an idea that shouldn't be revolutionary but is.' Elizabeth Day Polly Vernon, Grazia columnist, Times feature writer (hair-flicker, Brazilian-waxer, jeans obsessive, outrageous flirt) presents a brave new perspective on feminism. Drawing on

her dedicated, life-long pursuit of hotness - having dismissed many of the rules on 'good' feminism at some point in the early 90s - she'll teach you everything you ever wanted to know about being a feminist when you care about how you look. When part of your brain is constantly monologuing on fashion. When you check out your own reflection in every reflective surface. When your depilation practices are pretty much out of control. When you just really want to be fancied. Hot Feminist is based on a principle of non-judgment (because there's enough already), honesty about how often we mess this up, and empowerment through looks. Part memoir, part road map, it's a rolling, raucous rejection of all those things we're convinced we shouldn't think / wear/ feel/ say/ buy/ want - and a celebration of all the things we can. It is modern feminism, with style, without judgment

### **Kabul Beauty School Deborah Rodriguez,Kristin**

Ohlson,2007-04-10 Soon after the fall of the Taliban, in 2001, Deborah Rodriguez went to Afghanistan as part of a group offering humanitarian aid to this war-torn nation. Surrounded by men and women whose skills—as doctors, nurses, and therapists—seemed eminently more practical than her own, Rodriguez, a hairdresser and mother of two from Michigan, despaired of being of any real use. Yet she soon found she had a gift for befriending Afghans, and once her profession became known she was eagerly sought out by Westerners desperate for a good haircut and by Afghan women, who have a long and proud tradition of running their own beauty salons. Thus an idea was born. With the help of corporate and international sponsors, the Kabul Beauty School welcomed its first class in 2003. Well meaning but sometimes brazen, Rodriguez stumbled through language barriers, overstepped cultural customs, and constantly juggled the challenges of a postwar nation even as she learned how to empower her students to become their families' breadwinners by learning the fundamentals of coloring techniques,

haircutting, and makeup. Yet within the small haven of the beauty school, the line between teacher and student quickly blurred as these vibrant women shared with Rodriguez their stories and their hearts: the newlywed who faked her virginity on her wedding night, the twelve-year-old bride sold into marriage to pay her family's debts, the Taliban member's wife who pursued her training despite her husband's constant beatings. Through these and other stories, Rodriguez found the strength to leave her own unhealthy marriage and allow herself to love again, Afghan style. With warmth and humor, Rodriguez details the lushness of a seemingly desolate region and reveals the magnificence behind the burqa. Kabul Beauty School is a remarkable tale of an extraordinary community of women who come together and learn the arts of perms, friendship, and freedom.
