You Can't Make This \$#!+ Up! Mike Triggs, This can't be happening! Mike Triggs had spent most of his life in politics, primarily working for the Republican Party. In fact, he was considered a political golden boy until his career is forever tarnished. While managing a governor's re-election campaign, a right-wing opposing candidate unceremoniously OUTs him and he quickly spirals from the top echelons of the GOP to selling underwear at a high-end department store in Sheboygan, WI. Seriously! Going from his comfortable closet to the retail world, Mike never expected the crazy drama he would encounter. From hoity-toity Sheboygan shoppers to crafty shoplifters, religious fanatics, screaming kids, racists, entitled "Karens,"

and drag queens to an evil store manager and her slimy sidekick, a co-worker who thinks she's an African queen and vicious coworkers scrapping over a whopping 1% commission—you just can't make this \$#!+ up! And Mike takes it all on with satiric flair while revealing his struggle with coming out, coping with the aftermath of the AIDs epidemic and finding true friends in unlikely places. Based on true experiences, *Seriously, You Can't Make This \$#!+ Up!* is just as laugh-out-loud fun as it is undeniably heartwarming.

Color Theory for the Makeup Artist Katie Middleton, 2018-06-12 *Color Theory for the Make-up Artist: Understanding Color and Light for Beauty and Special Effects* analyzes and explains traditional color theory for fine artists and applies it to the make-up artist. This book is suitable for both professionals and beginners who wish to train their eye further to understand and recognize distinctions in color. It explains why we see color, how to categorize and identify color, relationships between colors, and it relates these concepts to beauty and special effects make-up. The book teaches the reader how to mix flesh tones by using only primary colors, and explains how these colors in paints and make-up are sourced and created. It also discusses the reason for variations in skin colors and undertones, and how to identify and match these using make-up, while choosing flattering colors for the eyes, lips, and cheeks. Colors found inside the body are explained for special effects make-up, like why we bruise, bleed, or appear sick. Ideas and techniques are also described for painting prosthetics, in addition to using

color as inspiration in make-up designs. The book also discusses how lighting affects color on film, television, theater, and photography sets, and how to properly light a workspace for successful applications.

Make: Drones David McGriffy, 2016-10-10 Make: Drones will help the widest possible audience understand how drones work by providing several DIY drone projects based on the world's most popular robot controller--the Arduino. The information imparted in this book will show Makers how to build better drones and be better drone pilots, and incidentally it will have applications in almost any robotics project. Why Arduino? Makers know Arduinos and their accessories, they are widely available and inexpensive, and there is strong community support. Open source flight-control code is available for Arduino, and flying is the hook that makes it exciting, even magical, for so many people. Arduino is not only a powerful board in its own right, but it's used

as the controller of most inexpensive 3d printers, many desktop CNCs, and the majority of open source drone platforms.

The Quarterly Musical Magazine and Review ,1821

Maybe We'll Make It Margo Price,2022-10-04 An October 2022 IndieNext pick "[An] engaging and beautifully narrated quest for personal fulfillment and musical recognition...This is a fast-paced tale in which music and love always take center stage...A truly gifted musician, Price writes about her journey with refreshing candor."—Kirkus, starred review "Brutally honest...a vivid and poignant memoir."—The Guardian Country music star Margo Price shares the story of her struggle to make it in an industry that preys on its ingenues while trying to move on from devastating personal tragedies. When Margo Price was nineteen years old, she dropped out of college and moved to

Nashville to become a musician. She busked on the street, played open mics, and even threw out her TV so that she would do nothing but write songs. She met Jeremy Ivey, a fellow musician who would become her closest collaborator and her husband. But after working on their craft for more than a decade, Price and Ivey had no label, no band, and plenty of heartache. *Maybe We'll Make It* is a memoir of loss, motherhood, and the search for artistic freedom in the midst of the agony experienced by so many aspiring musicians: bad gigs and long tours, rejection and sexual harassment, too much drinking and barely enough money to live on. Price, though, refused to break, and turned her lowest moments into the classic country songs that eventually comprised the debut album that launched her career. In the authentic voice hailed by Pitchfork for tackling Steinbeck-sized issues with no-bullshit humility, Price shares the stories that became songs, and the small acts of love and camaraderie it takes to survive in a music industry that is often unkind to women. Now a Grammy-nominated "Best New Artist," Price tells a love story of music, collaboration, and the struggle to build a career while trying to maintain her singular voice and style.
