Three Guys from Miami Cook Cuban Glenn M. Lindgren, Raúl Musibay, Jorge G. Castillo, 2004 Written by the trio that has spawned a renewal of interest in Cuban cuisine, his guide to the flavors of Cuba reveals the island as a tasty confluence of Spanish spices, tropical ingredients, and African influence.

Loblolly House Stephen Kieran, James Timberlake, 2008-06-19 Situated on idyllic Taylors Island, off the coast of Maryland's Chesapeake Bay, Loblolly House inaugurates a new, more efficient way of building. Through the use of state-of-the-art building information modeling, the architects were able to streamline the design-build process. This is a manual for the componentized prefab.

Biological Monitoring of Toxic Metals Thomas W. Clarkson, Lars Friberg, Gunnar F. Nordberg, Polly R. Sager, 2011-10-31 This document is the result of a conference on Biological Monitoring of Metals held in Rochester, June 2-6, 1986, organized jointly by the Environmental Health Sciences Center of the School of Medicine and Dentistry of the University of Rochester, NY, and the Scientific Committee on the Toxicology of Metals within the International Commission on Occupational Health (ICOH) at the Karolinska Institute and the National (Swedish) Institute of Environmental Medicine and the University of Umea, Sweden. The aim of the Conference was to define and evaluate the scientific basis for the biological monitoring of metals. The conference was co-sponsored by the World Health Organization through its International Program on Chemical Safety and received substantial encouragement and support from the Swedish Work Environmental Fund and the United States Environmental Protection Agency. This was the second conference organized jointly by the Scientific Committee on the Toxicology of Metals and The Toxicology Division of the University of Rochester. The previous joint conference was held in 1982 on the Reproductive and Developmental Toxicity of Metals. In addition, conferences have been organized by each group (see Appendices A and B). Several of these conferences are specially relevant to the topic of the current conference. These include the joint conference mentioned above and the conferences on dose-effect and dose-response relationship held in Tokyo in 1974 and on accumulation of metals held in Buenos Aires in 1972.

Arts, Health and Well-Being Norma Daykin, 2019-09-04 This important book develops a critical understanding of the bridging of arts and health domains, drawing on models and perspectives from social sciences to develop the case for arts and health as a social movement. This interdisciplinary perspective offers a new research agenda that can help to inform future developments and sustainability in arts, health and well-being. Daykin begins with an overview of the current evidence base and a review of current challenges for research, policy and practice. Later chapters explore the international field of health and the arts; arts, with well-being as a social movement; and boundary work and the role of boundary objects in the field. The book also includes sections summarising research findings and evidence in arts and health research and examples from specific research projects conducted by the author, chosen to highlight particularly widespread challenges across many

arts, health and well-being contexts. *Arts, Health and Well-Being: A Critical Perspective on Research, Policy and Practice* is valuable reading for students in sociology, psychology, social work, nursing, psychiatry, creative and performing arts, public health and policymakers and practitioners in these fields.

Three Guys from Miami Celebrate Cuban Glenn M. Lindgren, Raul Musibay, Jorge Castillo, 2013-01-31 "Miami masters of fun, good times, and easy-to-do Cuban." –Southern Living Magazine Every party starts with food—especially Cuban parties. Learn how to easily prepare some classic, and some not-so-classic Cuban dishes—all reinterpreted in the Miami style. Materialities of Care Christina Buse, Daryl Martin, Sarah Nettleton, 2018-09-04 *Materialities of Care* addresses the role of material culture within health and social care encounters, including everyday objects, dress, furniture and architecture. Makes visible the mundane and often unnoticed aspects of material culture and attends to interrelations between materials and care in practice Examines material practice across a range of clinical and non-clinical spaces including hospitals, hospices, care homes, museums, domestic spaces and community spaces such as shops and tenement stairwells Addresses fleeting moments of care, as well as choreographed routines that order bodies and materials Focuses on practice and relations between materials and care as ongoing, emergent and processual International contributions from leading scholars draw attention to methodological approaches for capturing the material and sensory aspects of health and social care encounters

Successful STEM Education National Research Council, Division of Behavioral and Social Sciences and Education, Board on Testing and Assessment, Board on Science Education, Committee on Highly Successful Schools or Programs for K-12 STEM Education, 2011-10-15 What students learn about the science disciplines, technology, engineering, and mathematics during their K-12 schooling shapes their intellectual development, opportunities for future study and work, and

choices of career, as well as their capacity to make informed decisions about political and civic issues and about their own lives. Most people share the vision that a highly capable STEM workforce and a population that understands and supports the scientific enterprise are key to the future place of the United States in global economics and politics and to the well-being of the nation. Indeed, the solutions to some of the most daunting problems facing the nation will require not only the expertise of top STEM professionals but also the wisdom and understanding of its citizens. Although much is known about why schools may not succeed, it is far less clear what makes STEM education effective. **Successful STEM Education: A Workshop Summary** discusses the importance of STEM education. The report describes the primary types of K-12 schools and programs that can support successful education in the STEM disciplines and examines data and research that demonstrate the effectiveness of these school types. It also summarizes research that helps to identify both the elements that make such programs effective and what is needed to implement these elements.

Black Girls' Literacies Detra Price-Dennis, Gholnecsar E.

Muhammad, 2021-06-22 Bringing together the voices of leading and emerging scholars, this volume highlights the many facets of Black girls' literacies. As a comprehensive survey of the research, theories, and practices that highlight the literacies of Black girls and women in diverse spaces, the text addresses how sustaining and advancing their literacy achievement in and outside the classroom traverses the multiple dimensions of writing, comprehending literature, digital media, and community engagement. The **Black Girls' Literacies Framework** lays a foundation for the understanding of Black girl epistemologies as multi-layered, nuanced, and complex. The authors in this volume draw on their collective yet individual experiences as Black women scholars and teacher educators to share ways to transform the identity development of Black girls within and beyond official school contexts. Addressing historical and contemporary issues within the broader context of inclusive education, chapters highlight empowering pedagogies and practices. In between chapters, the book features four Kitchen Table Talk conversations among contributors and leading Black women scholars, representing the rich history of spaces where Black women come together to share experiences and assert their voices. A crucial resource for educators, researchers, professors, and graduate students in language and literacy education, this book offers readers a fuller vision of the roles of literacy and English educators in the work to undo educational wrongs against Black girls and women and to create inclusive spaces that acknowledge the legitimacy and value of Black girls' literacies.

Refract House Ila Leslie Berman, Nataly Gattegno, 2011 Refract House, a joint endeavor of the Division of Architecture at California College of the Arts and the School of Engineering at Santa Clara University, is a full-scale working prototype of a prefabricated solar-powered home, with a sophisticated sensor-informed energy production and distribution system and an innovative thermal building skin -- Introduction.

Health Spaces. Hospital Outdoor Environment Francesca Giofre, Zoran

Ukanovi, 2016-05-06 The aim of this book is not to compile a set of guidelines with systematic discipline, nor to act as a manual to be added to the already numerous publications on the design of Healing Gardens, rather it has attempted to extract - from experiences, projects and research - some

principles aimed at highlighting the contribution offered by designers in treating, with equal dignity and equal purpose, the outdoor spaces as interior spaces in healthcare facilities. - Romano Del Nord, Director of TESIS, Inter-University Research Center Systems and Technologies for Healthcare Buildings, Florence, Italy. The book provides a narrative summary for urban planners and designers and, especially, health policy-makers and demonstration that consideration of health becomes an element of high importance in city planning. Presented findings of the relationship between physical and social dimensions of urban spaces and their association with health protection sought to pull together clear relevance public outdoor spaces have for public health and to encompass the wider social and economic determinants of public health. - Vladan oki, Dean of the Faculty of Architecture, University of Belgrade, Serbia.

E-Portfolios in Higher Education Tushar Chaudhuri,Béatrice Cabau,2017-03-30 This book shares the collective experience of integrating electronic portfolios as assessment tools and as instruments for life-long learning in courses across various disciplines in higher education. It enables readers to trace the evolution of e-portfolios over the last ten years and to deal with the challenges faced by instructors and students when implementing e-portfolios in their respective courses. Further, the book suggests flexible ways of dealing with those challenges. It also highlights the relevance of electronic portfolios for the needs and demands of contemporary societies. As such, it speaks to a large target audience from a range of disciplines, roles and geographical contexts within the wider context of higher education in Asia and around the globe.

Tender Lions Brian Becker,Jeff Becker,2019-02 This book encourages fathers to be more bold and courageous men...and more sensitive, empathetic, and kind at the same time. Written by a father and son team, it is raw, funny, warm, and tender-and unafraid of difficult topics like: developing a healthy self-concept; being vulnerable and authentic; why having roots and rituals with your son is so important; why unconditional love is more important than a competitive spirit; how to talk about sex with your son; and how to make good choices. This book is a must-read for anyone who wants to strengthen the relationship between fathers and sons and their families.
