Encyclopedia of Primitive Tribes in India P.K.

Mohanty,2003-11 These two volumes make a comprehensive and analytic anthropological study of 63 major primitive tribes of India in an alphabetical order. Attention has been paid to the significant aspects of the identity of the primitive tribes. These are mainly statutory positions, surnames, tribe s ethnic identity, distribution of population, family and clan, language and literacy, life cycle and related customs, dress, ornaments, food habits , traditional occupations, religious beliefs, festivals, social change and mobility. These volumes will be useful for bureaucrats, planners, anthropologists, teachers and students in India and abroad. The material on these primitive tribes has deep bearing on micro-study gathered from the writings of the reputed academicians. The Bibliography with regard to these volumes is fairly comprehensive. An effort has been made not to leave any old and new publication without giving it proper recognition in these tribes. Educated Fiji English Lena Zipp,2014-02-15 This volume contains a comprehensive corpus-based study of prepositional constructions in written Fiji English. It explores the endo- and exonormative dynamics of norm-giving and norm-developing varieties and contributes to our understanding of structural nativization and variety formation in a multi-ethnic setting. The book provides an account of the sociolinguistic development of English in Fiji against the backdrop of the country's colonial and post-independence history, with special focus on the Indo-Fijian

part of the population. Drawing on the written sections of the Indian, Great Britain, New Zealand and preliminary Fiji components of the International Corpus of English, quantitative and qualitative analyses of prepositional phenomena are conducted on the word level (frequency, semantic effects and stylistic variation), phrase level (productivity in verb-particle combinations), and pattern level (prepositions and -ing clauses). The book will be relevant to scholars interested in lexico-grammar, variety and corpus linguistics, and sociolinguistics in general.
