Christian Pluralism in the United States Raymond Brady Williams,1996-11-13 Recent immigrant Christians from India are changing the face of American Christianity. They are establishing churches with Orthodox, Protestant and Catholic rites. This book is a comprehensive study of these Christians, their churches and their adaptation. Professor Williams describes migration patterns since 1965, and how the role of Indian Christian nurses in creating immigration opportunities for their families affects gender relations, transition of generations, interpretations of migration, Indian Christian family values, and types of leadership. Contemporary mobility and rapid communication create new transnational religious groups, and Williams reveals some of the reverse effects on churches and institutions in India. He notes some successes and failures of mediating institutions in

the United States in responding to new forms of Christianity brought by immigrants.

**Movement** Antony Christy Lourdunathan, 2018-04-11 Essay from the year 2013 in the subject Theology - Biblical Theology, , course: Biblical Catechesis, language: English, abstract: Christianity is not merely a set of religious principles; it is a covenant in the same lines of the covenant of the People of Israel for whom the Decalogue, the principles of their life, was a Testament. In a similar fashion, for a Christian, the Holy Bible is the Testament of one's covenant with Christ and the Abba whom He revealed, in the Holy Spirit. Rightly are its two parts called, the Old and the New 'Testaments'. Bible is the foundation of the faith experience of an individual who professes to be a Christian and it is in itself the faith expression of generations of people whose faith the individual makes one's own. However, the place of this testament today, within the faith expression of an individual or the community has undergone a long process of evolution in history. Within the Christian community of the original times, it was merely used by the elders or the priests during worship. Later it was used by those persons who sought to teach and guide the communities and individuals to instruct them from the examples and the teachings of the people who were originally instruments of the faith experience recorded in the Scriptures. Further later, it was considered a privilege to hold the Scriptures and read or proclaim from it. There was a moment in history in which the community of faith felt the need to assert that the Scriptures originated from the community (which was trying to record the foundational experiences), for the community (so that the community of faithful could find their ground in those experiences) and that the Scriptures should go back to the hands of the community and not remain merely in the hands of a select few. This feeling and conviction gave rise to a movement in history towards making the Bible the most important factor within the ambit of making sense of one's faith and its expressions in life and worship.

**Nirvana of Jesus Christ** P.K. Vijayan, 2020-07-29 Nirvana of Jesus Christ brings out the spiritual and philosophical genesis, growth, fruition and culmination of the personality of Jesus Christ from childhood to crucifixion in comparison to that of Lord Buddha. Nearly 18 missing years of Jesus' younger days, until the time of his emergence as a preacher evangelizing the ideals enshrined in the New Testament of the Holy Bible, are delineated. The significance of Jesus' revolutionary philosophy, ethical code of conduct and imperatives of righteousness to be compatible with the divine path of God are graphically brought out. It narrates Jesus' long years spent with John, later John the Baptist, in the university of Takshashila, and his comprehensive absorption of Yoga precepts and practices and Indian spiritual ethos. This novel will be quite purposeful in understanding the maturation of the kernel of Buddhist and Christian philosophies in an identical ambience. Even a cursory read of Nirvana of Jesus Christ will conclusively prove to the reader that core values, metaphysics and ministerial conducts in Jesus' gospels are rooted in Buddhist doctrines. Since Jesus Christ was presenting his spiritual and religious creed to usher in the Kingdom of God, he needed to reshape the Buddhist philosophical architecture in the template of theistic, faith-centric Judaism, whose followers were his first listeners. In short, Christianity articulates Buddhist composition by imposing the superstructure of God onto the concept of the Son, Father and Holy Ghost. The great commandments of Jesus and the pathology of the Sermon on the Mount are refashioned in the gist of Buddha's Noble truths, eight-fold paths (Ashtanga Marga), five Silas and the characteristics of Nirvana.
